Natural Theosophy Ernest Wood, 2008 **Natural Theosophy: Happenings by the way** Ernest Wood, 1930 **The Theosophist**, 1899 **The Natural Genesis** Gerald Massey, 1883 The Logic of Ecstasy Ann Davis, 1992-01-01

None of these painters was motivated solely by mystical concerns each of them also painted works which were of a secular or non spiritual nature None the less they were all deeply interested in and concerned about matters mystical Through a careful examination of the primary documentation Ann Davis looks at the sources of their beliefs in Christianity transcendentalism and theosophy and theories of the fourth dimension and attempts to put some of their major works into new contexts so that familiar paintings can be seen in a new and revealing mystical way *Encyclopedia of Religion and Nature* Bron Taylor, 2008-06-10

The Encyclopedia of Religion and Nature originally published in 2005 is a landmark work in the burgeoning field of religion and nature It covers a vast and interdisciplinary range of material from thinkers to religious traditions and beyond with clarity and style Widely praised by reviewers and the recipient of two reference work awards since its publication see www.religionandnature.com/ern this new more affordable version is a must have book for anyone interested in the manifold and fascinating links between religion and nature in all their many senses **Occult truth is Nature without the illusory veil of the senses** Helena Petrovna Blavatsky, 2018-06-29

On the essence of Truth beneath and beyond external appearances

- 1 The Beacon Light of occult truth is Nature without the illusory veil of the senses She is the Rainbow of Hope and our only hope
- 2 True wisdom being a projection of our perceptive consciousness acts within without and not vice versa awakening the spiritual senses in us and the power to act Brain power and logic being outward looking can only serve the interests of lower minds
- 3 Inner Wisdom is the Wisdom of Love and code of sublime ethics Its noble ideals alone can empower people to reject the parasitic plants of human fabrication which are choking all goodness and truth in the world
- 4 The ancient Egyptians the Ethiopians of the East who came from Lanka or Ceylon were a colony of dark skinned Aryans the Dravidians of Southern India who took an already existing civilization with them to Egypt He who dissipates the darkness of ignorance by the torch of truth awakens in our benumbed souls the faculty of distinguishing the true from the false and kindles a divine flame hitherto absent
- 5 Theosophy is the white ray from which arise the seven colours of the solar spectrum each human being assimilating one of these rays to a greater degree than the other six

Theosophy or rather the occult sciences it studies is something more than simple metaphysics it is universal transcendentalism

- 6 The numerical value of the names of old divinities was taught in the Lesser Mysteries But Mystery Language itself was reserved for the high initiates alone Envy jealousy and rivalry reign supreme in a society whose principal object is brotherhood Instead of helping one another many look askance at each other always ready to make fun of each other and criticise
- 7 The Theosophical Society is a Republic of Conscience Knowledge of Cosmogogenesis is the key to All knowledge The Theosophical Society is the Tree of Brotherhood grown from a kernel planted in the earth by the angel of

Charity and Justice It depends upon its members to make of their Society an ark destined in a future not too distant to transport the humanity of a new cycle beyond the vast muddy waters of the deluge of hopeless materialism In the meantime we all should seek to bring some peace on earth to the hearts of those who suffer by lifting for them a corner of the veil which hides from them divine truth **The Natural Genesis (Two Volumes in One)** Gerald Massey,2011-12-01

Egyptologist Gerald Massey challenged readers in A Book of the Beginnings to consider the argument that Egypt was the birthplace of civilization and that the widespread monotheistic vision of man and the metaphysical was in fact based on ancient Egyptian mythos In The Natural Genesis presented here in an omnibus edition Massey delivers a sequel delving deeper into his compelling polemic In Volume I he offers a more intellectual fine tuned analysis of the development of society out of Egypt From the simplest signs numbers the cross to the grandest archetypes darkness the mother figure Massey carefully and confidently lays the cultural and psychosocial bricks of evolutionism Volume II provides detailed discourse on the Egyptian origin of the delicate components of the monotheistic creed With his agile prose Massey leads an adventurous examination of the epistemology of astronomy time and Christology and what it all means for human culture British author GERALD MASSEY 1828 1907 published works of poetry spiritualism Shakespearean criticism and theology but his best known works are in the realm of Egyptology including The Book of the Beginnings The Natural Genesis and Ancient Egypt The Light of the World The Nature of Mysticism Curuppumullagē Jinarājadāsa,1917 **The Theosophical Path**

Katherine Augusta Westcott Tingley,1922 Nature, Speculation and the Return to Schelling Tyler Tritten,Daniel Whistler,2018-12-07 Two decades ago Schelling first resurfaced in i ek s Indivisible Remainder and the same argumentative move of redeploying Schellingian themes for contemporary ends has continued to play a significant role in critical theory since Markus Gabriel Iain Hamilton Grant Jean Luc Nancy All the articles in this volume attempt to take seriously the idea of Schelling as a contemporary philosopher Schelling is read in dialogue with key figures in the canon of European philosophy and critical theory Alain Badiou milie du Ch telet Gilles Deleuze Paul de Man Quentin Meillassoux Maurice Merleau Ponty Gilbert Simondon Slavoj i ek as well as in light of recent trends in analytic philosophy Brandomian pragmatism powers based metaphysics and semantic naturalism and such readings are not meant merely to highlight Schellingian influences or resonances in contemporary thinking but rather to challenge and interrogate current orthodoxies by insisting upon the contemporaneity of Schellingian speculation That is the aim is both to evaluate and constructively build upon this repeated return to Schelling to probe to diagnose and to experiment on the latent Schellingianisms of the present and the future This book was originally published as a special issue of Angelaki Journal of the Theoretical Humanities **New Century Path**,1902 Emerald Green Tim Wenzell,2009-12-14 Emerald Green An Ecocritical Study of Irish Literature analyzes a wide range of Irish literature whose themes tie into a reverence for the natural world of Ireland From an ecocritical perspective these works tied into an understanding of the landscape and particular aspects of nature attain a fresh new meaning and

foster a more relevant reflection of Ireland's beautiful literary landscape. The analysis begins with the first Irish writers, the hermit poets, and examines the ways in which the Irish hermit and saint were connected spiritually through both pagan and early Christian values to the natural world. The book then examines Irish literature from the perspective of the deforested landscape and the landscapes of farmland, divided property, famine ruins, and a threatening natural world. Following the Famine, the book moves on to explore the establishment of the pastoral dream in this loss of landscape and a reconnection to nature through the writers of the Irish Literary Renaissance. From there, the analysis shifts to the nature writing of Ireland's islands, including nature and community on Achill Island, storytelling on the Aran Islands, exile in nature on Skellig Michael, and the mythmaking of the Great Blasket Island. Moving north and into the twentieth century, *Emerald Green* focuses on four nature poets from Northern Ireland: Patrick Kavanagh, Louis MacNeice, Seamus Heaney, and Michael Longley. All four are redeemed by nature through their returns to the rural landscape of Ireland's west coast. The book concludes with an examination of modern Irish environmental writers and naturalist poets, as well as journalists weighing in on current environmental concerns in Ireland. *Emerald Green* concludes with an assessment of the future of nature in Ireland and how the significant reduction of this country's natural landscape will alter its literary landscape as well.

Guide to the System of Cataloguing of the Reference Library Public Library of New South Wales, 1902 **The public library of New South Wales, Sydney. Guide to the system of cataloguing of the reference library; with rules for cataloguing, the relative decimal classification, and headings used in the subject-index** Henry Charles L. Anderson, 1902 **Encyclopaedia Britannica**, 1929 **Spiritual Ecology** Leslie E. Sponsel, 2012-07-19

A prominent scientist and scholar documents and explains the thoughts, actions, and legacies of spiritual ecology's pioneers from ancient times to the present, demonstrating how the movement may offer the last chance to restore a healthy relationship between humankind and nature. An internet search for Spiritual Ecology and related terms like Religion and Nature and Religion and Ecology reveals tens of millions of websites. *Spiritual Ecology: A Quiet Revolution* offers an intellectual history of this far-reaching movement. Arranged chronologically, it samples major developments in the thoughts and actions of both historic and contemporary pioneers, ranging from the Buddha and St. Francis of Assisi to Wangari Maathai's Green Belt Movement and James Cameron's 2010 epic film *Avatar*. This foundational book is unique in that it provides a historical cross-cultural context for understanding and advancing the ongoing spiritual ecology revolution, considering indigenous and Asian religious traditions as well as Western ones. Most chapters focus on a single pioneer, illuminating historical context and his or her legacy while also connecting that legacy to broader concerns. Coverage includes topics as diverse as Henry David Thoreau and the Green Patriarch Bartholomew's decades-long promotion of environmentalism as a sacred duty for more than 250 million members of the Orthodox Church worldwide.
