churches are divided in their concept of Christ and Christianity I believe that Christ is one and his doctrine is one I have denied myself the influence and contamination of their doctrines in search of the true undefiled doctrine of Christ I do not depend upon academic excellence or human intelligence to discern the scripture only the grace of God The things contained in this book is not the product of human inventions but by the spirit as it was revealed to me Theology is the study of God and his doctrine I do not study God I do not have the intellectual capacity to study him I depend upon him to reveal himself to me A person may question my ability to reach God but they can not question his ability to reach me and I establish my relationship with him based upon this principle I look at the world and I try to understand the reason for the condition that we face we have the have and have nots the oppressed and the oppressor the compassionate and the apathetic and why mankind is the most vicious and feared beast on earth Every nation on earth have an army to protect mankind from himself and yet the scripture state that man was created in the image of God how can this be if God was the embodiment of death nothing could live I have listen to the local national and world leaders educators ministers and philosophers concerning these things and their logic and reasoning all come down to complexity and confusion I decided to seek the answers from God himself to find out what he had to say about the situation and the solution to the problem and Human Nature and the Divine Nature of God is the answer I received see what you think

**Nature, God and Humanity** Richard L. Fern, 2002-04-04 Nature God and Humanity clarifies the task of forming an ethics of nature thereby empowering readers to develop their own critical faith based ethics Calling on original thought provoking analyses and

arguments Richard L. Fern frames a philosophical ethics of nature, assesses its scientific support, finds support for it in traditional biblical theism, and situates it culturally. Though defending the moral value of beliefs affirming the radical Otherness of God and human uniqueness, this book aims not to compel the adoption of any particular ethic but rather to illumine the contribution diverse forms of inquiry make to an ethics of nature. How does philosophy clarify moral conviction? What does science tell us about nature? Why does religious faith matter? Rejecting the illusion of a single rationally compelling ethics, Fern answers these questions in a way that fosters both agreement and disagreement, allowing those holding conflicting ethics of nature to work together for the common good.

Nature, God and Humanity Richard L. Fern, 2002-04-04 This study interweaves philosophical, scientific, religious, and cultural factors to reveal why non-human animals and nature are objects of moral concern and how our well-being depends on harmony with nature as it was created. This argument is unique in its comprehensiveness, its overt reliance on traditional forms of religious faith, and its account of how those with conflicting ethics can work together to end the current foolish abuse of nature.

**The Intrinsic Value of Nature** Leena Vilkkä, 1997 What is intrinsic value? What is the origin of value? Are people always superior to nature? This book is a philosophical analysis of the human relationship to the non-human world. It is a pioneering study of the philosophy of nature conservation in relation to the discussion of intrinsic value. Vilkkä develops a naturalistic or naturocentric theory of value that is based on ethical extensionism and pluralism. Vilkkä analyzes natural values and environmental attitudes: zoocentrism, biocentrism, and ecocentrism. This book forms a taxonomy for nature having intrinsic value. The theory of intrinsic value is based on naturocentric and naturogenic values. The book questions the thesis of weak anthropocentrism that denies the existence of naturogenic values. In Vilkkä's theory, animals and nature are the origin of value. She defends the existence of zoogenic and biogenic values in the non-human world and discusses the possibility of ecogenic value: nature as a whole having value independent of human or animal minds. Vilkkä analyzes the goodness and rights of nature, the problem of priorities, and ecological humanism. A naturocentric recommendation is that the well-being of animals and nature should have priority over human values at least in some real decision contexts. Ecological humanism recommends an attitude of respect for people, animals, and nature. The book includes an extensive glossary, index, and bibliography.

*Man and Nature in God* Lloyd E. Sandelands, 2017-12-02 Contemporary American life is tinged with dissatisfaction. Increased wealth and comfort and technological advances have not made individuals happier or society more companionable. Today Americans marry later or not at all, and they fail at marriage as often as they succeed. *Man and Nature in God* is a story of contemporary American decadence, a grim tale of our flagging relation to nature, a tale confirmed at the center of our sexual lives. Sandelands grounds his critique in a modern philosophical error: We have conflated a particular metaphysical outlook, the subjective standpoint of science, with our relationship as humans to nature. We fail to see that however much we may learn about nature by treating it as object to our subject, we cannot in this way learn what we most want and most need to know about nature and about

ourselves Answers to such questions as How are we related to nature and How are we to think and act truly in nature continue to elude us Cast as ideology by the isms of humanism naturalism and postmodernism today s subjective standpoint has turned the question of truth into one question of politics The unhappy result has been and continues to be a profound and deadly misunderstanding of nature as well as man epitomized in contemporary American culture today Taking this as his starting point Sandelands suggests how we can save ourselves from our mortifying philosophical error thereby claiming our true relation to nature and reinvigorating our sexual lives He identifies the need for a natural philosophy that takes God to be the starting point of self understanding Although the book is about philosophy it is not only for the academic philosopher Although it is about theology it is not only for the theologian or student of religion And although the book takes modern biological and social sciences to task it is not only for biological and social scientists Instead Man and Nature in God is for everyone concerned about the disma *Nature's God and the Nature of Man* Joel R. Baseley, 2024-12-26 Nature s God and the Nature of Man presents nature and the nature of man as God s Word the Holy Bible reveals it in Genesis 1:3 The author s recent translating project in Johann Arndt s True Christianity especially his Book 4 treating God s revelation in nature provided him a helpful pre enlightenment world view of God s revealing Himself in nature in stark contrast and opposition to the bold modern assertion by many that science has proven there is no God The children of this divorce of Dame Science from God leaves children confused for whom this book might be a mediation and some comfort 445 pages soft cover

Charles Weller, 2024-09-23 This is the first comparative study of Mosaic and Islamic law in American history to be published Constructing a complex picture in trans Atlantic trans European and world historical perspectives this book elucidates the intersections that lie beneath and behind the rise of the debates in the 1990s and 2000s over the promotion of the Ten Commandments and Mosaic Law as alleged sources of American Constitutional law and symbols of American national identity These debates have taken shape in close connection with resurgent anti-Semitism anti-Sharia protests and anti-Sharia legislation throughout the United States and other Western societies **Jefferson's Declaration of Independence** Allen Jayne, 2021-09-15 Allen Jayne analyzes the ideology of the Declaration of Independence and its implications by going back to the sources of Jefferson's ideas Bolingbroke James Reid and Locke He concludes that the Declaration must be read as an attack on two claims of absolute authority that of government over its subjects and of religion over the minds of men Today's world is more secular than Jefferson's and the importance of philosophical theology in eighteenth century critical thought must be recognized in order to understand fully and completely the Declaration's implications Jayne addresses this need by putting religion back into the discussion **Historical Theology** Alister E.
