Nature Magic And Community:

Nature's Magic Peter Corning, 2003-05-05 Nature's Magic presents a bold vision of the evolutionary process from the Big Bang to the 21st century Synergy of various kinds is not only a ubiquitous aspect of the natural world but it has also been a wellspring of creativity and the driver of the broad evolutionary trend toward increased complexity in nature and human societies alike But in contrast with the many theories of emergence or complexity that rely on some underlying force or law the Synergism Hypothesis as Peter Corning calls it is in essence an economic theory of biological complexity it is fully consistent with mainstream evolutionary biology Corning refers to it as Holistic Darwinism Among the many important insights that are provided by this new paradigm Corning presents a scenario in which the human species invented itself synergistic behavioral and technological innovations were the pacemakers of our biological evolution Synergy has also been the key to the evolution of complex modern societies he concludes *Monsters in Society* Rebecca Merkelbach, 2019-11-05

Dragons giants and the monsters of learned discourse are rarely encountered in the Sagas of Icelanders and therefore the general teratological focus on physical monstrosity yields only limited results when applied to them This however does not equal an absence of monstrosity it only means that monstrosity is conceived of differently This book shifts the view of monstrosity from the physical to the social accounting for the unique social circumstances presented in the slendingas gur and demonstrating how closely interwoven the social and the monstrous are in this genre Employing literary and cultural theory as well as anthropological and historical approaches it reads the monsters of the slendingas gur in their literary and socio cultural context demonstrating that they are not distractions from feud and conflict but that they are in fact an intrinsic part of the genre's re imagining of the past for the needs of the present **Black Girls' Literacies** Detra
