Nature Historical Experience Essays:

Nature and Historical Experience John Herman Randall (Jr.), 1962 **Nature and Historical Experience** John Herman Randall, 1962 **Naturalism and Historical Understanding** John Peter Anton, 1967-01-01 As philosopher historian and teacher John Herman Randall Jr is world renowned and universally respected In more than fifty years of study he has probed Western thought inclusively from the early Greeks Aristotle and the Peripatetics through contemporary European and American philosophers Currently Professor Randall is conducting his scholarly research at the University of Padua and the Columbia Padua Institute a society which he helped found devoted to the study of the Aristotelian tradition in the Renaissance In his introduction to this volume the editor characterizes Professor Randall's relation to the contemporary world of thought It can be said in truth that Randall never touched a subject matter without making it luminous and intelligible and has scorned no inquiry no idea no vision ever ardently pursued by men anywhere The measure of our intellectual indebtedness to him will not soon be taken This volume has provided the rare opportunity to present related work of several eminent scholars in different fields Most of the essays were written to honor Professor Randall on the occasion of his 65th birthday Using Randall's work as a point of departure and reflecting its broad relevance they treat subjects as diverse as religion Greek philosophy Kant's philosophy of science Renaissance Aristotelianism and British Empiricism Included also are two tributes and memoirs personal reminiscences of Randall's early career and a valuable bibliography of Randall's published work **The Minimalist Vision of Transcendence** Jerome A. Stone, 1992-11-03 Emerson's Essays Harold Bloom, 2006 Ralph Waldo Emerson 1803-1882 was the most influential American writer of the nineteenth century Poets such as Walt Whitman Emily Dickinson Robert Frost and Wallace Stevens descend from Emerson as do thinkers such as John Dewey and William James This volume of critical interpretations focuses on Emerson's *Essays First Series* 1841 and *Essays Second Series* 1844 which encompass some of his most important works *History Self Reliance Circles The Poet and Experience* among others These essays exemplify Emerson's distinctively rich prose and his radical affirmation of the strength of the individual The analyses and appreciations collected here place Emerson's essays in the context of literary and intellectual history grapple with the implications of his epigrams and tropes and link his shifts of perspective and tone to the changes in Emerson's life Together they illuminate the complexity and scope of the seminal works of America's most influential writer and thinker Book jacket *Dewey's Metaphysics* Raymond Boisvert, 2019-01-29 Whitehead's response to the epistemological challenges of Hume and Kant written in a style devoid of the metaphysical intricacies of his later works Symbolism makes accessible his theory of perception and his more general insights into the function of symbols in culture and society Dewey's *Metaphysics Form and Being in the Philosophy of John Dewey* is available from the publisher on an open access basis **The Truth of History** C. Behan McCullagh, 2002-11-01 Modern relativism and postmodern thought in culture and language challenge the truth of history This book considers how all historians confined by the concepts and

forms of argument of their own cultures can still discover truths about the past The Truth of History presents a study of various historical explanations and interpretations and evaluates their success as accounts of the past C Behan McCullagh contests that the variety of historical interpretations and subjectivity does not exclude the possibility of their truth Through an examination of the constraints of history the author argues that although historical descriptions do not mirror the past they can correlate with it in a regular and definable way Far from debating in the abstract and philosophical only the author beds his argument in numerous illuminating concrete historical examples The Truth of History explores a new position between the two extremes of believing that history perfectly represents the past and that history can tell us nothing true of the past The Things in Heaven and Earth:An Essay in Pragmatic Naturalism John Ryder,2013-01-02 The Things in Heaven and Earth is a development and application of the Columbia Naturalism of John Dewey John Herman Randall Jr and Justus Buchler The chapters deal with systematic ontology epistemology constructivism and objectivity philosophical theology art democratic theory foreign policy education humanism and cosmopolitanism The Study of History ,1988 The chief objective of this text is to provide a handy reference guide for teachers students and researchers of modern European economic and social history Since the bibliography covers only works written in the English language it will probably be of less use to the last named group at least insofar as those within it are already seasoned researchers on a particular country or topic However it would have been quite impossible from the point of view of length to have included all the literature in foreign languages while to have done so would have defeated the essential aim of the volume namely that of providing a reasonably convenient guide for those who teach and study the subject but who are not primarily specialists in the field
