Nature Mysticism And Symbolism:

Nature Mysticism John Edward Mercer, 2019-11-26 In *Nature Mysticism* John Edward Mercer embarks on an intellectual exploration of the profound connections between nature and the human experience. The book is characterized by its lyrical prose and philosophical depth, weaving together elements of mysticism, ecology, and spirituality. Mercer draws upon a rich tapestry of literary traditions from Romantic poets to contemporary environmental thinkers to illustrate how nature can serve as a conduit for transcendental insights. Each chapter invites readers to contemplate their own relationship with the natural world, inviting an experiential understanding that transcends mere observation. Mercer, an accomplished essayist and scholar of comparative literature, has spent years studying the intersection of literature and environmental philosophy. His background in both Western and Eastern mystical traditions informs his writing, allowing him to synthesize complex ideas in a manner that is both accessible and thought-provoking. This dual perspective has led him to appreciate the timelessness of nature's influence on human consciousness and the essential role it plays in shaping our spiritual lives. For readers seeking a deeper connection with the natural world and a richer understanding of the mystical dimensions of life, *Nature Mysticism* is an essential read. Mercer's thoughtful examination challenges us to reconsider our place within the ecosystem, inspiring readers not only to reflect on their experiences but also to engage actively with the wonders of the world around them.

Value of Mysticism Emily Herman, 1922 Mysticism: A Study in Nature and Development of Spiritual Consciousness Evelyn Underhill, 2017-02-15 Remaining a classic in its field, this book explains first how mysticism relates to such things as vitalism, theology, psychology, symbolism, and magic. This treatment may seem unusual for Christian mysticism, but it relates widely to the world as we know it and the different practices therein. Part Two explores the awakening, purification, and illumination of yourself and gives solid groundwork for such things as voices, visions, dreams, and other mystical experience.

Christian Mysticism William Ralph Inge, 1899 *The Oxford Magazine*, 1900 **Mysticism and Meaning: Multidisciplinary Perspectives** Alex S. Kohav, 2019 The volume investigates the question of meaning of mystical phenomena and conversely queries the concept of meaning itself via insights afforded by mystical experiences. The collection brings together researchers from such disparate fields as philosophy, psychology, history of religion, cognitive poetics, and semiotics in an effort to ascertain the question of mysticism's meaning through pertinent up-to-date multidisciplinaryity. The discussion commences with Editor's Introduction that probes persistent questions of complexity as well as perplexity of mysticism and the reasons why problematizing mysticism leads to even greater enigmas. One thread within the volume

provides the contextual framework for continuing fascination of mysticism that includes a consideration of several historical traditions as well as personal accounts of mystical experiences Two contributions showcase ancient Egyptian and ancient Israelite involvements with mystical alterations of consciousness and Christianity's origins being steeped in mystical praxis and four essays highlight mysticism's formative presence in Chinese traditions and Tibetan Buddhism as well as medieval Judaism and Kabbalah mysticism A second more overarching strand within the volume is concerned with multidisciplinary investigations of the phenomenon of mysticism including philosophical psychological cognitive and semiotic analyses To this effect the volume explores the question of philosophy's relation to mysticism and vice versa together with a Wittgensteinian nexus between mysticism facticity and truth language mysticism and supernormal meaning engendered by certain mystical states cognitive poetic analysis of mystical poetry and a semiotic scrutiny of some mystical experiences and their ineffability Finally the volume includes an assessment of the so called New Age authors contention of the convergence of scientific and mystical claims about reality The above two tracks are appended with personal contemporary accounts of mystical experiences in the Prologue and a futuristic envisioning as a fictitious chronicle from the time to come of life without things mystical in the Postscript The volume contains fourteen chapters its international contributors are based in Canada Israel United Kingdom and the United States
