C. H.

casts doubt upon the conceptual coherence of borders The frontier is the very element of Kant's thought yet the permanent frustration of his conceptuality Bennington brings out the frontier's complex abyssal fractal structure that leaves a residue of violence in every frontier and complicates Kant's most rational arguments in the direction of cosmopolitanism and perpetual peace Neither a critique of Kant nor a return to Kant this book proposes a new reflection on philosophical reading for which thinking the frontier is both essential and a recurrent fruitful interruption

The Recreational Frontier Michael Kleinod, 2017 This study treats ecotourism in National Protected Areas of Lao PDR as a recreational frontier which instrumentalizes the recreation of human natures in capitalism's centers for that of nonhuman natures at capitalism's closing frontiers This world ecological practice of ecorational instrumentality i.e. of nature domination in the name of Nature presents a remedy for capitalism's crisis that is itself crisis-ridden enacting a central tension of ecocapitalism that between conservation and development This epistemic institutional tension is traced through the preconditions, modes and effects of ecotourism in Laos by gradually zooming from the most general scale of societal nature relations into the most detailed intricacies of ecotouristic practice The combination of Bourdieu, Marx and Critical Theory enables a systematic analysis of the recreational frontier as enactment of various contradictions deriving from the false and real Nature Society dualism

The political ecology of colonial capitalism Bikrum Gill, 2024-11-05 This book situates the post-financial crisis phenomenon of the global land grab within the longue durée of the capitalist world system It does so by advancing a theoretical and historical framework called the political ecology of colonial capitalism that clarifies the key role played by the co-production of race and nature in provisioning the ecological surplus that has historically secured the emergence and reproduction of capitalist development The key premise of this book is that the global land grab constitutes another such attempted moment of re-securing the cheap food premise through racialized frontier appropriation The argument advanced here is that within the neoliberal crisis conjuncture the hegemonic resolution of capital's escalating social ecological contradictions necessitates through the practice of global primitive accumulation the racialized construction of frontiers of unused nature in emergent zones of appropriation

Nature Conservation in Southern Africa, 2018-11-26 Nature conservation in southern Africa has always been characterised by an interplay between Capital specific understandings of Morality and forms of Militarism that are all dependent upon the shared subservience and marginalization of animals and certain groups of people in society Although the subjectivity of people has been rendered visible in earlier publications on histories of conservation in southern Africa the subjectivity of animals is hardly ever seriously considered or explicitly dealt with In this edited volume the subjectivity and sentience of animals is explicitly included The contributors argue that the shared human and animal marginalisation and agency in nature conservation in southern Africa and beyond could and should be further explored under the label of sentient conservation Contributors are Malcolm Draper Vupenyu Dzingirai Jan Bart Gewald Michael Glover Paul Hebinck Tariro Kamuti Lindiwe Mangwanya Albert Manhamo Dhoya Snijders Marja Spierenburg Sandra Swart Harry Wels
