A History of Navajo Nation Education Wendy Shelly Greyeyes,2022-03 On the heels of the fiftieth anniversary of the founding of the Department of Din Education this important education history explains how the current Navajo educational system is a complex terrain of power relationships competing agendas and jurisdictional battles influenced by colonial pressures and tribal resistance In providing the historical roots to today s challenges Wendy Shelly Greyeyes clears the path and provides a go to reference to move discussions forward

Pedagogies and Curriculums to (Re)imagine Public Education Encarna Rodriguez,2015-06-04 This book discusses current market based educational discourses and how they have undermined the notion of the public in public education by allowing private visions of education to define the public democratic imagination Against this discouraging background this text embraces Freire s understanding of hope as an ontological need and calls for finding new public grounds for our public imagination It further articulates Freire s mandate to unveil historically concrete practices to sustain democratic educational visions no matter how difficult this task may be by 1 presenting an indepth description of the pedagogies and curriculums of eleven schools across historical and geographical locations that have worked or are still working with disenfranchised communities and that have publicly hoped for a better future for their students and by 2 reflecting on how the stories of these schools offer us new opportunities to rethink our own pedagogical commitment to public visions of education To promote this reflection this book offers the notion of publicly imagined public education as a conceptual tool to help understand the historical and discursive specificity of schools hopes and to re claim public schools as legitimate sites of public imagination

American Indian Education Jon Reyhner,Jeanne Eder,2015-01-07 In this comprehensive history of American Indian education in the United States from colonial times to the present historians and educators Jon Reyhner and Jeanne Eder explore the broad spectrum of Native experiences in missionary government and tribal boarding and day schools This up to date survey is the first one volume source for those interested in educational reform policies and missionary and government efforts to Christianize and civilize American Indian children Drawing on firsthand accounts from teachers and students American Indian Education considers and analyzes shifting educational policies and philosophies paying special attention to the passage of the Native American Languages Act and current efforts to revitalize Native American cultures

Self-Determination and the Social Education of Native Americans Guy B. Senese,1991-06-19 Self determination a crucial conceptual development in

American Indian social and educational policy and the force behind current Indian policy programs is critically analyzed in this volume by a scholar educator who has worked closely with Native Americans Guy B Senese explores the wide gulf between the rhetoric and the reality of self determination in contemporary Native American education an area that has received little scrutiny by students of American education policy Senese contends that many aspects of Native American self determination policy work against the full realization of that policy and are in fact contradictory Arguing that self determination is not a unified coherent policy moving toward more community and tribal self government and economic self help Senese makes a strong case for his theory that the policy has been a vehicle to promote a smooth transition toward a termination of the tribal federal relationship This book is an excellent addition to the developing literature that questions the pluralist assumptions of the late twentieth century liberal progressive social policy Each of the volume s three parts addresses a basic assumption of Native American social education policy Part I shows how self determination policy grew as a response to the moral requirements of reservation development in a political climate of American patriotism Part II shifts the focus more directly to schooling including a discussion of the concept of community control and the 1975 Self Determination and Educational Assistance Act The concluding section analyzes the dialogue that resulted from the fragmentation of Native Americans who were divided over the meaning of self determination How the concepts of trust and sovereignty have created grounds for the expropriation of the meaning of self determination is also explored This volume s analysis of American Indian social and educational policy makes it required reading in the areas of Ethnic Studies Educational Policy Studies Ethnohistory and Sociology of Education The work is an important addition to the Education and Ethnic Studies collections of public and university libraries [American Indian Education, 2nd Edition](#) Jon Reyhner, Jeanne Eder, 2017-11-02 Before Europeans arrived in North America Indigenous peoples spoke more than three hundred languages and followed almost as many distinct belief systems and lifeways But in childrearing the different Indian societies had certain practices in common including training for survival and teaching tribal traditions The history of American Indian education from colonial times to the present is a story of how Euro Americans disrupted and suppressed these common cultural practices and how Indians actively pursued and preserved them American Indian Education recounts that history from the earliest missionary and government attempts to Christianize and civilize Indian children to the most recent efforts to revitalize Native cultures and return control of schools to Indigenous peoples Extensive firsthand testimony from teachers and students offers unique insight into the varying experiences of Indian education Historians and educators Jon Reyhner and Jeanne Eder begin by discussing Indian childrearing practices and the work of colonial missionaries in New France Canada New England Mexico and California then conduct readers through the full array of government programs aimed at educating Indian children From the passage of the Civilization Act of 1819 to the formation of the Bureau of Indian Affairs in 1824 and the establishment of Indian reservations and vocation oriented boarding schools the authors frame Native

Chemawa Indian Boarding School Sonciray Bonnell,1997-10 This study presents interviews with American Indian Alaska Native alumni who received some or all of their elementary and high school education at the Chemawa Indian Boarding School in Salem Oregon between 1917 and 1985 A brief summary of Indian history in particular Indian education is presented as the context for many of the changes that occurred at Chemawa during its first one hundred years The purpose of this study is to examine Chemawa alumni recollections of Chemawa within an imposed educational system My research process included library and archival research academic classes and personal interviews I interviewed alumni who had attended Chemawa between 1917 and 1985 Themes such as academics vocational training social life and general impressions of Chemawa are categorized in the different eras and serve as the body of the thesis Despite negative stereotypes of federal Indian boarding schools the majority of Chemawa alumni interviewed for this thesis hold Chemawa in high regard For many students Chemawa was an alternative to an orphanage a respite from a dysfunctional family situation an opportunity to gain an education and or vocational skills or an opportunity to be with other Indians Across generations at least half of the students considered Chemawa s academic program inadequate over half of the students interviewed found the vocational training when it was available to be very useful Though most students acknowledge the downfalls of Chemawa most alumni interviewed tended to overlook the negative and promote the positive Alumni were able to view Chemawa in a positive light because students molded their boarding school experiences to fit their needs Students created their own families friends community school and resisted the institutional suppression of Indian boarding schools As young people many adapted their situation to suit their needs regardless of any negative experiences they might have encountered at Chemawa
