Nielsen,James W. Zion,2005-09-01 Navajo peacemaking is one of the most renowned restorative justice programs in the world Neither mediation nor alternative dispute resolution it has been called a horizontal system of justice because all participants are treated as equals with the purpose of preserving ongoing relationships and restoring harmony among involved parties In peacemaking there is no coercion and there are no sides No one is labeled the offender or the victim the plaintiff or the defendant This is a book about peacemaking as it exists in the Navajo Nation today describing its origins history context and contributions with an eye toward sharing knowledge between Navajo and European based criminal justice systems It provides practitioners with information about important aspects of peacemaking such as structure procedures and outcomes that will be useful for them as they work with the Navajo courts and the peacemakers It also offers outsiders the first one volume overview of this traditional form of justice The collection comprises insights of individuals who have served within the Navajo Judicial Branch voices that authoritatively reflect peacemaking from an insider s point of view It also features an article by Justice Sandra Day O Connor and includes contributions from other scholars who with the cooperation of the Navajo Nation have worked to bring a comparative perspective to peacemaking research In addition some chapters describe the personal journey through which peacemaking takes the parties in a dispute demonstrating that its purpose is not to fulfill some abstract notion of Justice but to restore harmony so that the participants are returned to good relations Navajo Nation Peacemaking seeks to

promote both peacemaking and Navajo common law development By establishing the foundations of the Navajo way of natural justice and offering a vision for its future it shows that there are many lessons offered by Navajo peacemaking for those who want to approach old problems in sensible new ways *Our Fight Has Just Begun* Cheryl Redhorse Bennett,2022-03-01 *Our Fight Has Just Begun* is a timely and urgent work The result of more than a decade of research it revises history documents anti Indianism and gives voice to victims of racial violence Navajo scholar Cheryl Redhorse Bennett reveals a lesser known story of Navajo activism and the courageous organizers that confronted racial injustice and inspired generations Illuminating largely untold stories of hate crimes committed against Native Americans in the Four Corners region of the United States this work places these stories within a larger history connecting historical violence in the United States to present day hate crimes Bennett contends that hate crimes committed against Native Americans have persisted as an extension of an Indian hating ideology that has existed since colonization exposing how the justice system has failed Native American victims and families While this book looks deeply at multiple generations of unnecessary and ongoing pain and violence it also recognizes that this is a time of uncertainty and hope The movement to abolish racial injustice and racially motivated violence has gained fierce momentum *Our Fight Has Just Begun* shows that racism hate speech and hate crimes are ever present and offers recommendations for racial justice **Crime and Crime Control** Gregg Barak,2000-06-30 Are crime rates rising or falling around the world Are specific types of crime more prevalent in some cultures than others Do different cultures vary greatly in their attitudes toward crime prevention Students will find answers to these and similar questions in this unique resource of 15 case studies exploring the problems of crime and crime control in different countries ranging from Germany to Ghana to around the world Cross cultural comparisons examine the history the public perceptions contemporary problems and the future of crime and crime control in each country The comparisons also provide readers with the opportunity to discover both the many differences and the many similarities that exist among the different cultures in their rates of crime forms of prevention and attitudes toward it Each of the 15 chapters opens with a brief overview which includes the type of government and the living environment of the country to introduce readers to the population The countries were chosen to represent every region of the world and to provide as broad a picture as possible when exploring the issues presented by the problem of crime and different cultures efforts to control it The user friendly format of the volume with each chapter following the same outline makes it easy for readers to compare specific aspects among the 15 cultures These different views of the crime problem around the world and what it means to different people will help students to understand it in a broad sense as a social issue that affects all of humanity *Investigations and Prosecution of Federal Crimes on Indian Reservations* United States.
