Southeast Asia and the Rise of Chinese and Indian Naval Power Sam Bateman, Joshua Ho, 2014-06-03 This book examines the emerging maritime security scene in Southeast Asia It considers highly topical implications for the region of possible strategic competition between China and India the rising naval powers of Asia with a possible naval arms race emerging between these countries both with naval force development and operations As part of its Look East policy India has deployed naval units to the Pacific Ocean for port visits and exercises both with East Asian navies and the US Navy but India is also concerned about the possibility of the Chinese Navy operating in the Indian Ocean Even as the US India defence relationship continues to deepen the US and China are struggling to build a closer links China s and India s strategic interests overlap in this region both in maritime strategic competition or conflict which might be played out in the Bay of Bengal the Malacca and Singapore Straits and the South China Sea The sea lines of communication SLOCs through Southeast Asian waters constitute vital choke points between the Indian and Pacific Oceans carrying essential energy supplies for China and other Northeast Asian countries Any strategic competition between China and India has implications for other major maritime players in the Pacific and Indian Oceans especially Australia the Republic of Korea and Japan as well as the US This book identifies possible cooperative and confidence building measures that may contribute to enhanced relations between these two major powers and dampen down the risks associated with their strategic competition **Piracy in Southeast Asia** Carolin Liss, Ted Biggs, 2016-11-25 This book combines multi disciplinary ethnographic and theoretical approaches to examine piracy in Southeast Asia and the regional and international responses to this threat During the piracy boom of the early to mid 2000s the issue of piracy in Southeast Asia received substantial academic attention Recent scholarship however has shifted the

focus to Somali piracy and the resurgence of piracy in Southeast Asia has largely been neglected in the academic community. This volume seeks to remedy this gap in the current literature. The primary aim is to examine how piracy has evolved in Southeast Asia over the past ten years to address why piracy has re-emerged as a security threat, to evaluate efforts at maintaining security in regional waters and to offer an analysis of what might be expected in the next decade. The contributions are drawn from academics, policy makers and military officers covering a range of disciplines including international relations, socio-cultural anthropology, security studies, history, law and Asian studies. Taken together, the contributions in this volume provide a better understanding of contemporary piracy in Southeast Asia and suggest avenues to successfully combat piracy in this region. This book will be of much interest to students of maritime security, Asian politics, security studies and international relations in general.

South Asia's Nuclear Security Dilemma Lowell Dittmer, 2015-04-08

The nuclear test explosions in India and Pakistan in 1998 followed by the outbreak of hostilities over Kashmir in 1999 marked a frightening new turn in the ancient bitter enmity between the two nations. Although the tension was eclipsed by the events of 9/11 and the subsequent American attacks on Afghanistan and Iraq, it has not disappeared as evidenced by the 2001 attack in the Indian Parliament by Islamic fundamentalists from Kashmir. By 2002, these two nuclear armed neighbors seemed to be once again on the brink of war. This book outlines the strategic structure of the rivalry and the dynamic forces driving it and investigates various possible solutions. The expert contributors focus on the India-Pakistan rivalry but also consider the China factor in South Asia's nuclear security dilemma. Although essentially political, strategic in its approach, the book includes coverage of opposing military arsenals and the impact of local terrorism on the delicate balance of power.

India & Southeast Asia Sudhir Devare, 2006

There is a growing dialogue between India and Southeast Asia. From a marginal relationship during the Cold War days to the participation of India at the East Asia summit in December 2005, has been a long journey. In the context of the geopolitical situation in the Asia-Pacific in the post-September 11 period, the security dimension between India and Southeast Asia cannot be overemphasized. With the continued U.S. preponderance in the region and China's phenomenal rise, the countries of Southeast Asia and India have an opportunity to evolve a co-operative relationship not only with one another but also with the major powers of the region. This book examines the areas of comprehensive security and the growing understanding between India and Southeast Asia where there is less divergence and greater convergence. The author argues that India-Southeast Asia security convergence is not and should not be aimed at any particular country. On an optimistic note, he concludes that such convergence will contribute to creating harmony among the major powers of Asia to make the twenty-first century the Asian century.
