ALL NEW STORIES OF ANCIENT ALIEN ARTIFACTS FROM TOP NAMES IN SCIENCE FICTION FANTASY

The universe is older and more alien than we can ever understand. We were not alone. The farther we push into the universe, the more obvious it becomes. The signs are everywhere: canals and pyramids on Mars, old roads on the moons of Jupiter, ruined cities on worlds about the nearer stars. The galaxy once teemed with life, or so it seems. Which begs the question: What happened to it all? These stories explore the ruins of lost civilizations, solve ancient mysteries, and awaken horrors from beyond the dawn of time. Featuring stories by Orson Scott Card, Griffin Barber, Adam Oyebarji, Jessica Maguire, Patrick Chiles, and an all new entry in the Sun Eater universe from editor Christopher Ruocchio. Join us for your next adventure to *Worlds Long Lost*. At the publisher's request, this title is sold without DRM (Digital Rights Management).

About *Star Destroyers*: coedited by Christopher Ruocchio, spectacular space battles and alien contacts, themes of military ethics, the uses of artificial intelligence, and the limits of the capacity of the human mind. It is the human interactions and decisions that ultimately drive the stories. It will appeal to fans of military and hard science fiction, and any readers fascinated by the possibilities of space travel.

Booklist: stories of giant spaceships at war, at peace, and in the often gray areas between. A worthy addition to a long tradition of ship-based fiction, and its authors portray captains, arcane astrogators, and civilian child passengers with equal depth. It is recommended for fans of military SF and space adventure.

Publishers Weekly: you'd probably expect some tight action-filled space opera stories of giant space battles, and there's some of that. But there are also espionage stories, rescue missions, political conflicts, alternate histories, even a few humorous tales. Each author took the premise in a different direction. If I had to identify one common feature to all the stories, it would be that they're all fun. Like it says: big ships blowing things up. What's not to like?

Analog: About *Sword Planet*, edited by Christopher Ruocchio, the wide mix of stories and the surprising places they go make this anthology a particular joy from start to finish. Offers a glimpse into everything that made stories like these a popular standby since the pulp era, with enough creativity, variety, and talent showcased to prove that there's still plenty of life in the century-old genre. I recommend it heartily.

Analog: *Sword Planet* breathes new life into a genre that many understandably felt was left moldering in the grave. It's old school wonder with twenty-first century polish. What's not to like?
