**The Feldafing Boys: Uncovering My Father's Stolen Childhood at an Elite Nazi School** Helene Munson, 2024-05-28

A shocking personal memoir and new perspective on World War II following Helene Munson's journey in her father's footsteps through the years when he was one of Hitler's child soldiers When Helene Munson finally reads her father Hans Dunker's wartime journal she discovers secrets he kept buried for seven decades This is no ordinary historical document but a personal account of devastating trauma During World War II the Nazis trained some three hundred thousand German children to fight for Hitler Hans was just one of those boy soldiers Sent to the elite Feldafing school at nine years old he found himself in the grip of a system that substituted dummy grenades for Frisbees By age seventeen Hans had shot down Allied pilots with anti-aircraft artillery In the desperate final stage of Hitler's war he was sent on a suicide mission to Zvada on the Sudetenland front where he witnessed the death of his schoolmates and where Helene begins to retrace her father's footsteps after his death As Helene translates Hans's journal and walks his path of suffering and redemption she uncovers the lost history of an entire generation brainwashed by the Third Reich's school system and funneled into the Hitler Youth A startling new account of this dark era The Feldafing Boys grapples with inherited trauma the burden of guilt and the blurred line between perpetrator and victim It is also a poignant tale of forgiveness as Helene comes to see her late father as not just a soldier but as one boy in a sea of three hundred thousand forced onto the

wrong side of history and left to answer for it Previously published in hardcover as *Hitler's Boy Soldiers* **Asperger's Children: The Origins of Autism in Nazi Vienna** Edith Sheffer, 2018-05-01 An impassioned indictment one that glows with the heat of a prosecution motivated by an ethical imperative Lisa Appignanesi New York Review of Books In the first comprehensive history of the links between autism and Nazism prize winning historian Edith Sheffer uncovers how a diagnosis common today emerged from the atrocities of the Third Reich As the Nazi regime slaughtered millions across Europe during World War Two it sorted people according to race religion behavior and physical condition Nazi psychiatrists targeted children with different kinds of minds especially those thought to lack social skills claiming the Reich had no place for them Hans Asperger and his colleagues endeavored to mold certain autistic children into productive citizens while transferring others to Spiegelgrund one of the Reich's deadliest child killing centers In this unflinching history Sheffer exposes Asperger's complicity in the murderous policies of the Third Reich **Almost a Childhood** Hans-Georg Behr, 2005 The son of a high ranking Nazi recounts his experiences as a five year old boy whose Austrian family introduced him to Goering Goebbels and even Hitler himself Behr also explains the difficulties of growing up in post war Austria with children and adults who were fully aware of his father's involvement with the Nazis and his subsequent trial for war crimes **The Child's View of the Third Reich in German Literature** Debbie Pinfold, 2001-08-23 This book examines the ways in which German authors have used the child's perspective to present the Third Reich It considers how children at this time were brought up and educated to accept unquestioningly National Socialist ideology and thus questions the possibility of a traditional naive perspective on these events Authors as diverse as Günter Grass Siegfried Lenz and Christa Wolf together with many less well known writers have all used this perspective and this raises the question as to why it is such a popular means of confronting the enormity of the Third Reich This study asks whether this perspective is an evasive strategy a means of gaining new insights into the period or a means of discovering a new language which had not been tainted by Nazism This raises and addresses issues central to a post war aesthetic in German writing **Teen Victims of the Nazi Regime** Hallie Murray, Linda Jacobs Altman, 2018-07-15 Though many teens and children did not fully understand what was happening in the early days of Adolf Hitler's reign they certainly felt the effects of anti-Semitism Students in Nazified schools were forced to perform the Hitler salute every day and Jewish students were increasingly persecuted by teachers and peers alike Friends turned against friends and there was enormous pressure on young Gentiles to adhere to Hitler's racist policies as Aryan teens were compelled and eventually forced to join the Hitler Youth or the League of German Girls Students may find parallels between the pressure to conform in these groups and the echo chambers of social media These stories of Nazi teens will spur discussion of the recruiting tactics and bonding rituals of racist groups in America today **Nurses and Midwives in Nazi Germany** Susan Benedict, Linda Shields, 2014-04-24 This book is about the ethics of nursing and midwifery and how these were abrogated during the Nazi era Nurses and midwives actively killed their patients many of whom were disabled

children and infants and patients with mental and other illnesses or intellectual disabilities The book gives the facts as well as theoretical perspectives as a lens through which these crimes can be viewed It also provides a way to teach this history to nursing and midwifery students and for the first time explains the role of one of the world's most historically prominent midwifery leaders in the Nazi crimes *Jewish Childhood in Kraków* Joanna Sliwa, 2021-09-17 Chapter 1 Navigating shifts in German occupied Kraków Chapter 2 Adapting to life inside the ghetto Chapter 3 Clandestine activities by and on behalf of children Chapter 4 Child welfare continuity and change Chapter 5 Concealed presence in the camp Chapter 6 Survival through hiding and flight Critical Childhood Studies and the Practice of Interdisciplinarity Joanne Faulkner, Magdalena Zolkos, 2015-12-14 This book analyzes different figurations of childhood in contemporary culture and politics with a particular focus on interdisciplinary methodologies of critical childhood studies It argues that while the figure of the child has been traditionally located at the peripheries of academic disciplines perhaps most notably in history sociology and literature the proposed critical discussions of the ideological symbolic and affective roles that children play in contemporary societies suggest that they are often the locus of larger societal crises collective psychic tensions and unspoken prohibitions and taboos As such this book brings into focus the prejudices against childhood embedded in our standard approaches to organizing knowledge and asks is there a natural disciplinary home for the study of childhood Or is this field fundamentally interdisciplinary peripheral or problematic to notions of disciplinary identity In this respect does childhood force innovation in thinking about disciplinarity For instance how does the analysis of childhood affect how we think about methodology What role do understandings of childhood play in delimiting how we conceive of our society our future and ourselves How does thinking about childhood affect how we think about culture history and politics This book brings together researchers working broadly in critical child studies but from various disciplines in the humanities and social sciences including philosophy literary studies sociology cultural studies and history in order to stage a conversation between these diverse perspectives on the disciplinary or interdisciplinary character of the child as an object of research Such conversation builds on the assumption that childhood far from being marginal is a topic that is hidden in plain sight That is to say while the child is always a presence in culture history literature and philosophy and is often even a highly charged figure within those fields its operation and effects are rarely theoretically scrutinized but rather are more likely drawn upon surreptitiously for another purpose **Marriage and Fatherhood in the Nazi SS** Amy Carney, 2018-01-01 *Marriage and Fatherhood in the Nazi SS* by Amy Carney is the first work to significantly assess the role of SS men as husbands and fathers These families contributed to the transformation of the SS into a racially elite family community that was poised to serve as the new aristocracy of the Third Reich *Atrocity Crimes, Children and International Criminal Courts* Cécile Aptel, 2023-04-28 This book shows how international criminal courts have paid only limited and inconsistent attention to atrocity crimes affecting children It elucidates the many structural legal financial and even attitudinal obstacles often overlapping that have contributed to the

international courts focus on the experience of adults rendering children almost invisible. It reviews whether and how different international and hybrid criminal jurisdictions have considered international crimes committed against or by children. The book also considers how international criminal justice can help contribute to the recognition of the specific impact that international crimes have on children whether as victims or as participants and strengthen their protection. Finally, it proposes an agenda to improve this situation making specific recommendations encompassing the urgent need to further elaborate child friendly procedures. It also calls for international investigative and prosecutorial strategies to be less adult centric and broaden the scope of crimes against children beyond the focus on child soldiers. This book is an invaluable resource for academics, researchers and fieldworkers in the areas of international criminal law, international human rights law, child rights, international humanitarian law, child protection and transitional justice. *The Lost Children* Tara

Zahra, 2011-09-09. This impressive study charts the history of post WWII humanitarian relief demonstrating how the institutions of the family became politicized. Library Journal. During the Second World War, an unprecedented number of families were torn apart. As the Nazi empire crumbled, millions roamed the continent in search of their loved ones. *The Lost Children* tells the story of these families. We see how the reconstruction of families quickly became synonymous with the survival of European civilization itself. Based on original research in German, French, Czech, Polish and American archives, *The Lost Children* is a heartbreaking and mesmerizing story. It brings together the histories of eastern and western Europe and traces the efforts of everyone from Jewish Holocaust survivors to German refugees, from Communist officials to American social workers to rebuild the lives of displaced children. It reveals that many seemingly timeless ideals of the family were actually conceived in the concentration camps, orphanages and refugee camps of the Second World War and shows how the process of reconstruction shaped Cold War ideologies and ideas about childhood and national identity. This riveting tale of families destroyed by war reverberates in the lost children of today's wars and in the compelling issues of international adoption, human rights and humanitarianism and refugee policies. Fascinating. New Republic. A superb book. A wide ranging, exceptionally well researched study. Tablet Magazine. Zahra's work is insightful in considering what treatment of lost children can tell us about broader developments in the post war period, both in terms of how nations interacted with each other and how psychologists understood the impact of war on children. Times Higher Education. **Children of Nazis** Tania

Crasnianski, 2018-02-06. The Fascinating Story of Eight Children of Third Reich Leaders and their Journey from Descendants of Heroes to Descendants of Criminals. In 1940, the German sons and daughters of great Nazi dignitaries: Himmler, Goering, Hess, Frank, Bormann, H. S. Speer and Mengele were children of privilege at four, five or ten years old, surrounded by affectionate, all powerful parents. Although innocent and unaware of what was happening at the time, they eventually discovered the extent of their father's occupations. These men, their fathers, who were capable of loving their children and receiving love in return, were leaders of the Third Reich and would later be convicted as monstrous war criminals. For these

children the German defeat was an earth shattering source of family rupture the end of opulence and the jarring discovery of Hitler's atrocities How did the offspring of these leaders deal with the aftermath of the war and the skeletons that would haunt them forever Some chose to disown their past Others did not Some condemned their fathers others worshiped them unconditionally to the end In this enlightening book which has been translated into eleven languages Tania Crasnianski examines the responsibility of eight descendants of Nazi notables caught somewhere between stigmatization worship and amnesia By tracing the unique experiences of these children she probes at the relationship between them and their fathers and examines the idea of how responsibility for the fault is continually borne by the descendants *Integrity of Scientific Research* Joel Faintuch, Salomão Faintuch, 2022-10-13 This book provides a scientific and ethical approach to all forms of fraud and misconduct focusing on a scholarly however practice oriented description of the problems roots and potential solutions Organized in dedicated parts an international team of experts systematically analyzes the most prevalent forms of misconduct ghost writing pseudo science dubious trials predatory journals fake news mistreatment and harassment in research publications at academic institutions and in the professional and healthcare environment A special focus is given to corrective interventions and the role of prevention education and training Comprehensive in its scope the book offers an easy to read overview along with a number of real cases for experienced and novice personnel alike The significance of scientific integrity and research ethics increased during the last couple of years and ethic committees and offices have become an integral part at universities hospitals research institutions government agencies and major private organizations all over the world Thus this book provides an indispensable comprehensive overview across disciplines and for everybody working in research and affiliated institutions Chapter 37 is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com) No Small Matter Anat Helman, 2021 Visiting five continents and covering 220 years our journey into modern Jewish childhood begins with birth and ends at the time of bar or bat mitzvah Jewish children their history and their images are described by scholars from the fields of demography history linguistics film studies literature religious studies and psychology Among the questions they probe are How did Jewish children experience immigration What did they contribute to modern ethnic and national Jewish cultures What was their fate during times of war In the aftermath of war how did they go about rebuilding their lives and how did they recollect and interpret the events of their interrupted childhood Sacrificing Childhood Julie K. deGraffenried, 2014-11-18 During the Soviet Union's Great Patriotic War from 1941 to 1945 as many as 24 million of its citizens died 14 million were children ages fourteen or younger And for those who survived the suffering was far from over The prewar Stalinist vision of a happy childhood nurtured by a paternal loving state had given way out of necessity What replaced it the dictate that children be prepared to sacrifice everything including childhood itself created a generation all too familiar with deprivation violence and death The experience of these children and the role of the state in shaping their narrative are the subject of this book which fills in a critical but

neglected chapter in the Soviet story and in the history of World War II In *Sacrificing Childhood* Julie deGraffenried chronicles the lives of the Soviet wartime children and the uses to which they were put not just as combatants or workers in factories and collective farms but also as fodder for propaganda their plight a proof of the enemy's depredations Not all Soviet children lived through the war in the same way but in the circumstances of a child in occupied Belarus or in the Leningrad blockade a young deportee in Siberia or evacuee in Uzbekistan deGraffenried finds common threads that distinguish the child's experience of war from the adult's The state's expectations however were the same for all children as we see here in children's mass media and literature and the communications of party organizations and institutions most notably the Young Pioneers whose relentless wartime activities made them ideal for the purposes of propaganda The first in depth study of where Soviet children fit into the history of the war *Sacrificing Childhood* also offers an unprecedented view of the state's changing expectations for its children and how this figured in the nature and direction of post war Soviet society

*Healing Holocaust Survivors* Stella Maria Frei, 2025-06-30 *Healing Holocaust Survivors* examines the psychological rehabilitation strategies implemented by two major international humanitarian organizations the United Nations Relief and Rehabilitation Administration UNRRA and the Jewish Joint Distribution Committee JDC in Displaced Persons Camps across postwar Europe from 1944 to 1948 Focusing on the mental health needs of Holocaust survivors and other refugees the book explores how psychosocial expertise became entangled with citizenship politics and visions of Europe's reconstruction after World War II Drawing from archival sources institutional reports and psychological literature of the period this is the first in depth account of how mental health professionals approached psychological rehabilitation trauma identity and recovery in a humanitarian setting It reveals how psychological strategies were often shaped by and instrumentalized for broader political and regulatory goals including refugee resettlement nation building and international diplomacy Bridging the fields of history psychology refugee studies and humanitarian aid this book sheds new light on the origins of modern refugee mental health practices and the complex role of international organizations in shaping the lives and minds of displaced populations Read the interview with Stella Maria Frei on De Gruyter Conversations and learn more about the author and her book A powerful and timely study on the politics of psychological rehabilitation in the aftermath of war and mass displacement This meticulously researched book sheds new light on how international organizations not only helped rebuild societies but also intervened in the inner lives of survivors It compellingly shows that psychological recovery in post conflict settings is never apolitical but shaped by humanitarian agendas strategic interests and competing visions of international order Essential reading for global leaders policymakers and all who shape the future of refugee protection and recovery in a world defined by crisis Bert Koenders Professor for Peace Justice and Security Leiden University Former Minister of Foreign Affairs of the Netherlands and UN Special Representative in Cote d'Ivoire and Mali [Who's Afraid of Children?](#) Helen Brocklehurst, 2017-03-02 Brocklehurst's impressive work breaks new ground in normative international political theory It

develops a new theoretical framework which exposes how children are present in international relations and security practices using an empirical and comparative assessment of the role of children and youth in a range of conflicts including Nazi Germany Mozambique South Africa Northern Ireland the Cold War and the British Empire The author argues powerfully that concepts of children are partial and contained through their construction as non political Global in scope this book is a timely and important contribution given the growing visibility of children in international relations evident after September 11 The political and ethical question at the heart of this book is will international relations dare to catch up
