## **Nazi Victory Crete 1941:**

**Nazi Victory: Crete 1941** David Arthur Thomas,1973      Crete 1941: the Battle at Sea. Nazi Victory: Crete, 1941 David Arthur THOMAS (Naval Historian.),1973      **Hitler's Ambivalent Attaché** Alfred M. Beck,2014-05-27 Friedrich von Boetticher was Germany's only military attaché accredited to the United States between the world wars. As such he was Germany's official military observer in the capital of the nation whose potential as an ally of those powers arrayed against Adolf Hitler in the 1930s might have given the dictator pause in any predatory plans he harbored against his neighbors. Though von Boetticher produced a rich and detailed commentary on military and political affairs in Washington in the eight years prior to the outbreak of war between Germany and the United States in 1941 he was nonetheless accused after the war of misjudging America's productive potential and misleading Hitler with overly optimistic reports. As Alfred M. Beck points out what he actually told German authorities in Berlin is strikingly different from what his detractors later claimed. Von Boetticher permits a glimpse into the sociology of a conservative officer caste at once assailed by the politics of a regime and the impossibilities imposed on it: its weaknesses in resisting its evils and its eventual failure to present an alternative to National Socialism's illusory attractions. A loyal German, von Boetticher had strong ties to America. His mother was American born; he spoke English fluently and he was enamored of American military history. He was also anti-Semitic and believed that Jewish wire pullers had undue influence over the U.S. government and its policies. His professional ties to U.S. Army officers in the War Department were so strong, supplying them for example with details on German air strength and operations during the Battle of Britain in 1940 that they survived until August 1941 and long after the German ambassador himself had been recalled. Torn between his duty to Germany though the Nazi regime had attempted to harm his son and his deep affection for America, von Boetticher stood among the broad middle range of German officials who were neither perpetrator nor victim.

**Battles that Changed History** Spencer C. Tucker,2010-11-11 This encyclopedic collection of more than 200 of the most decisive and important battles throughout world history gets a fresh interpretation by a noted military historian. The mythic and doomed stand of the 300 Spartans at Thermopylae, the siege of Carthage in 149-146 BCE which ended with Rome destroying the city and enslaving the entire remaining Carthaginian population, the Battle of Hastings in 1066, arguably the most important battle ever on English soil, the Battle of Trenton that saved the American Revolutionary cause and established the military reputation of General Washington, the firebombing of Tokyo on the night of March 9-10, 1945 that destroyed one quarter of the city. All of these conflicts and hundreds more played a crucial role in defining the direction of history and the evolution of human society. This text provides high school level readers with detailed descriptions of the battlefield actions that have played the greatest parts in shaping military history and human existence. Special attention is paid to the greater historical context and significance of each battle, especially in relation to other events.      Cross of Iron John Mosier,2007-04-01 A riveting account of the origins and development of the German army that breaks through the distortions
