Perception And Personal Identity:

Perception and Personal Identity Oberlin Colloquium in Philosophy Staff, **Perception and Personal Identity**, 1969 **The Psychology of Group Perception** Vincent Yzerbyt, Charles M. Judd, Olivier Corneille, 2004-08-02 This groundbreaking work by leading social psychologists who have all contributed in important ways to the psychology of group perception focuses in particular on three interrelated issues 1 whether groups are seen to be diverse or relatively homogeneous 2 whether groups are seen as real and stable or only transitory and ephemeral and 3 whether group membership derives from some essential quality of the members or rather is based on social constructions **Locke on Persons and Personal Identity** Ruth Boeker, 2021-03-01 Ruth Boeker offers a new perspective on Locke's account of persons and personal identity by considering it within the context of his broader philosophical project and the philosophical debates of his day Emphasizing the importance of the moral and religious dimensions of his view Boeker argues that to take seriously Locke's general approach to questions of identity we should consider his account of personhood separately from his account of personal identity over time On this basis she argues that Locke endorses a moral account of personhood according to which persons are subjects of accountability and that his particular thinking about moral accountability explains why he regards sameness of consciousness as necessary for personal identity over time In contrast to some neo Lockean views about personal identity Boeker argues that Locke's account of personal identity is not psychological per se but rather his underlying moral religious metaphysical and epistemic background beliefs are relevant for understanding why he argues for a consciousness based account of personal identity Taking his underlying background beliefs into considerations not only sheds light on why many of his early critics do not adopt Locke's view but also shows why his view cannot be as easily dismissed as some of his critics assume *Hume on the Self and Personal Identity* Dan O'Brien, 2022-08-30 This book brings together a team of international scholars to attempt to understand David Hume's conception of the self The standard interpretation is that he holds a no self view we are just bundles of conscious experiences thoughts and emotions There is nothing deeper to us no core no essence no soul In the Appendix to A Treatise of Human Nature though Hume admits to being dissatisfied with such an account and Part One of this book explores why this might be so Part Two turns to Books 2 and 3 of the Treatise where Hume moves away from the fiction of a simple self to the complex idea we have of our flesh and blood selves those with emotional lives practical goals and social relations with others In Part Three connections are traced between Hume and Madhyamaka Buddhism Husserl and the phenomenological tradition and contemporary cognitive science *Identifying Perception/perceiving Personal Identity* Justin Harrison, 2005 **Personal Identity & Fractured Selves** Debra J. H. Matthews, Hilary Bok, Peter V Rabins, 2009-10-12 In this anthology noted neurologists and philosophers explore the concept of personal identity and the ethics of treating brain disease and injury When an individual's personality changes radically because of disease or injury should this changed individual be treated as the same person Personal Identity and

Fractured Selves explores this important question from a variety of perspectives. Its contents represent the first formal collaboration between the Brain Sciences Institute and the Berman Institute of Bioethics both at the Johns Hopkins University. Rapid advances in brain science are expanding knowledge of human memory, emotion, and cognition and pointing the way toward new approaches for the prevention and treatment of devastating illnesses and disabilities. Through case studies of Alzheimer disease, frontotemporal dementia, deep brain stimulation, and steroid psychosis, the contributors highlight relevant ethical and social concerns that clinicians, researchers, and ethicists are likely to encounter.

Personal Identity, the Self, and Ethics F. Santos, Santiago Sia, 2007-08-16

Going beyond the controversy surrounding personhood in non-philosophical contexts, this book defends the need for a credible philosophical conception of the person. Engaging with John Locke, Derek Parfit, and P.F. Strawson, the authors develop an original philosophical anthropology based on the work of Charles Hartshorne and A.N. Whitehead.

Organisms and Personal Identity A.M. Ferner, 2016-04-14

Over his philosophical career, David Wiggins has produced a body of work that, though varied and wide-ranging, stands as a coherent and carefully integrated whole. In this book, Ferner examines Wiggins' conceptualist realism, his sortal theory, and his human being theory in order to assess how far these elements of his systematic metaphysics connect. In addition to rectifying misinterpretations and analysing the relations between Wiggins' works, Ferner reveals the importance of the philosophy of biology to Wiggins' approach. This book elucidates the biological anti-reductionism present in Wiggins' work and highlights how this stance stands as a productive alternative to emergentism. With an analysis of Wiggins' construal of substances, specifically organisms, the book goes on to discuss how Wiggins brings together the concept of a person with the concept of a natural substance or human being. An extensive introduction to the work of David Wiggins, as well as a contribution to the dialogue between personal identity theorists and philosophers of biology, this book will appeal to students and scholars working in the areas of philosophy, biology, and the history of Anglophone metaphysics.

Behavioral Processes in Online Identity-Related Issues Xi Chen, Ivan Wen, Qixing Qu, Wenjing Chen, 2024-07-11

With the development of advanced media technologies, cyberspace is gradually transforming from temporal immersion into a state of new normal. An increasing proportion of our daily lives has become a mix of physical and virtual worlds. As a complex social psychological phenomenon, online social identity has attracted widespread attention from academia to industry. Identity-related issues have been noted as an important subject of Internet interdisciplinary

research including social psychology sociology personality psychology and health psychology Communication in cyberspace always carries some degrees of anonymity for users present virtual identities constructed by themselves in cyberspace hiding their real identities and constructing their online identities as a form of social identity enactment On the other hand online media provides tools and environments for virtual identity building Although the anonymity of the internet facilitates the subjects construction of their virtual identity their online virtual identity is not completely anonymous and can be identified and authenticated online thereby meaning we can research how online identity relates to real world identity Identification is a social process that matches internal self identity with external identity types and it is also a process and a reflection of internal perceptions and mere identification with a group has been shown to dramatically affect behavior as per social identity theory

Gestures Giovanni Maddalena, Fabio Ferrucci, Michela Bella, Matteo Santarelli, 2024-09-23 Over the past few years scientists and philosophers have discussed the concept of gesture as promising to overcome hyper intellectualist conceptions of human beings Its ascendancy reaffirmed the importance of the pragmatic relational dimension in human experience and cognitive processes Many questions arise when we focus on the cognitive role of gestures especially in the new cultural landscape shaped by the digital revolution Does the idea of gestures highlight the preeminence of bodily experiences Does it lead to the thinning of the distinction between humans and nonhuman animals Do gestures help us rethink the allegedly higher human capacities in an antireductionist vein Do gestures involve reasoning Are they purely external actions Do they serve to communicate or is all communication a form of gesture What kinds of social relations are involved in the concept of gesture According to a multidisciplinary orientation the book inquiries into the possibilities and issues opened up by attending to a philosophy of gestures in philosophy sociology psychology anthropology and communication studies Given the current centrality of gestures the general aim of the book is to reconsider the meaning of gestures and try to answer old and new questions *Beyond Personal Identity* Gereon Kopf, 2012-12-06 Applies Dogen Kigen's religious philosophy and the philosophy of Nishida Kitaro to the philosophical problem of personal identity probing the applicability of the concept of non self to the philosophical problems of selfhood otherness and temporality which culminate in the conundrum of personal identity *Personal Identity and Literature* Patrick Colm Hogan, 2019-05-17 In *Personal Identity and Literature* Hogan examines what makes an individual a particular unique self He draws on cognitive and affective science as well as literary works from Walt Whitman and Frederick Douglass to Dorothy Richardson Alice Munro and J M Coetzee His scholarly analyses are also intertwined with more personal reflections on for example his mother's memory loss The result is a work that examines a complex topic by drawing on a unique range of resources from empirical psychology and philosophy to novels films and biographical experiences The book

provides a clear systematic account of personal identity that is theoretically strong but also unique and engaging Self and Identity Yoshihisa Kashima, Margaret Foddy, Michael Platow, 2002-04-01 This edited volume outlines the latest meta theoretical and theoretical contexts of self research Self and Identity examines theoretical accounts of human experience within the contemporary socio cultural milieu and attempts to answer the question of what it means to be human It provides a clear structure within which to conceptualize contemporary empirical research on self and identity in terms of personal social and symbolic aspects In so doing it identifies the symbolic aspect as an emerging area of contemporary significance Featuring contributions from a distinguished group of scholars and therapists the book is organized into four parts The editors provide section introductions to demonstrate how each chapter relates to the book s overall theme as well as how the chapter authors responded to the editors charge to go beyond the social cognitive theory of the self Part I describes the current meta theoretical context of self research the editors interpretation of the social cognitive approach to the self and an emerging alternative theory the Connectionist Approach Part II highlights personal perspectives on selfhood Part III focuses on social perspectives and Part IV reviews symbolic processes The concluding chapter reviews the book s major themes with overlapping themes and intellectual disputes The book is intended for graduate students and researchers in social and personality psychology interested in self and identity and self research It may also be used as a supplemental text in advanced level courses on self and identity Identity in (Inter)action Sigrid Norris, 2011-07-27 In this monograph the author offers a new way of examining the much discussed notion of identity through the theoretical and methodological approach called multimodal interaction analysis Moving beyond a traditional discourse analysis focus on spoken language this book expands our understanding of identity construction by looking both at language and its intersection with such paralinguistic features as gesture as well as how we use space in interaction The author illustrates this new approach through an extended ethnographic study of two women living in Germany Examples of their everyday interactions elucidate how multimodal interaction analysis can be used to extend our understanding of how identity is produced and negotiated in context from a more holistic point of view
