Explorations of the Baum Prehistoric Village Site William Corless Mills, 1906 Exploration of the Gartner Mound and Village Site William Corless Mills, 1904 *Excavations of the Adena mound; Explorations of the Gartner mound and village site; Explorations of the Baum prehistoric village site; Explorations of the Edwin Harness mound* William Corless Mills, 1907 **Changing English** Markku Filppula, Juhani Klemola, Anna Mauraanen, Svetlana Vetchinnikova, 2017-10-10 This book examines the special nature of English both as a global and a local language focusing on some of the ongoing changes and on the emerging new structural and discorsal characteristics of varieties of English Although it is widely recognised that processes of language change and contact bear affinities for example to processes observable in second language acquisition and lingua franca use the research into these fields has so far not been sufficiently brought into contact with each other The articles in this volume set out to combine all these perspectives in ways that give us a better understanding of the changing nature of English in the modern world **Events, States and Times** Daniel Altshuler, 2016-11-07 This monograph investigates the temporal interpretation of narrative discourse in two parts The theme of the first part is narrative progression It begins with a case study of the adverb now and its interaction with the meaning of tense The case study motivates an ontological distinction between events states and times and proposes that now seeks a prominent state that holds throughout the time described by the tense Building on prior research prominence is shown to be influenced by principles of discourse coherence and two coherence principles NARRATION and RESULT are given a formally explicit characterization The key innovation is a new method for testing the definitional adequacy of NARRATION and RESULT namely by an abductive argument This contribution opens a new way of thinking about how eventive and stative descriptions contribute to the perceived narrative progression in a discourse The theme of the second part of the monograph is the semantics and pragmatics of tense A key innovation is that the present and past tenses are treated as scalar alternatives a view that is motivated by adopting a particular hypothesis concerning stative predication The proposed analysis accounts for tense in both matrix clauses and in complements of propositional attitudes where the notorious double access reading arises This reading is explored as part of a corpus study that provides a glimpse of how tense semantics interacts with Gricean principles and at issueness Several cross linguistic predictions of the analysis are considered including their consequences for the Sequence of Tense phenomenon and the Upper Limit Constraint Finally a hypothesis is provided about how tense meanings compose with temporal adverbs and verb phrases Two influential analysis of viewpoint aspect are then compared in light of the hypothesis The monograph is directed at graduate students and researchers in semantics pragmatics and philosophy of language The analysis of narrative discourse that is developed in the monograph synthesizes and builds on prior collaborative research with Corien Bary Valentine Hacquard Thomas Roberts Roger Schwarzschild Una Stojni K roly Varasdi and Aaron White Daniel Altshuler is an Assistant Professor of Linguistics at the School of Cognitive Science

Hampshire College and an Adjunct Professor of Linguistics at the University of Massachusetts Amherst Aspect, Communicative Appeal, and Temporal Meaning in Biblical Hebrew Verbal Forms Ulf Bergström, 2022-01-20 This book provides a new explanation for what has long been a challenge for scholars of Biblical Hebrew how to understand the expression of verbal tense and aspect Working from a representative text corpus combined with database queries of specific usages and surveys of examples discussed in the scholarly literature Ulf Bergström gives a comprehensive overview of the semantic meanings of the verbal forms along with a significant sample of the variation of pragmatically inferred tense aspect or modality TAM meanings Bergström applies diachronic typology and a redefined concept of aspect to demonstrate that Biblical Hebrew verbal forms have basic aspectual and derived temporal meanings and that communicative appeal the action triggering function of language affects verbal semantics and promotes the diversification of tense meanings Bergström's overarching explanation of the semantic development of the Biblical Hebrew verbal system is an important contribution to the study of the evolution of the verbal system and meanings of individual verbs in the Hebrew Bible Accessibly written and structured for seminar use Bergström's study brings new perspectives to a debate that in many ways had reached a stalemate and it challenges scholars working with TAM and the Biblical Hebrew verb to revisit their theoretical premises Advanced students and scholars of Biblical Hebrew and other Semitic languages will find the study thought provoking and linguists will appreciate its contributions to linguistic theory and typology *The Oxford Handbook of Tense and Aspect* Robert I. Binnick, 2012-06-14 This Handbook is a comprehensive authoritative and accessible guide to the topics and theories that current form the front line of research into tense aspect and related areas **Participles** Ksenia Shagal, 2019-11-05 The book is the first large scale typological study of participles based on data from more than 100 languages Its main aim is to model the diversity of non finite verb forms involved in adnominal modification Participles are examined with respect to several morphological and syntactic parameters and are shown to be a versatile cross linguistic category The book is of interest to language typologists and descriptive linguists **NIRV Adventure Bible Book of Devotions for Early Readers: Polar Exploration Edition** Zondervan, 2019-09-03 Grab your parka and compass and get ready for a thrilling trek through God's Word This 365 day devotional is filled with exciting daily devotions inspires readers to read about write about and most importantly live out their faith The Adventure Bible is 1 recommended by more Christian schools and churches than any other Bible for kids The illustrated full color NIRV Adventure Bible Book of Devotions for Early Readers Polar Exploration Edition takes kids on a thrilling enriching quest through the Bible This 365 day devotional with all new content includes topics on self esteem courage friendship and many more Boys and girls will learn more about God and the Bible and be inspired to live a life of faith the greatest adventure of all A companion to the NIRV Adventure Bible for Early Readers Polar Exploration Edition this devotional book is written at a 3rd grade reading level just for developing readers NIRV Adventure Bible Book of Devotions for Early Readers Polar Exploration Edition includes Trusted 1 Adventure Bible brand content in a

frosty new theme Full color images of polar animals arctic outposts and icy landscapes throughout Devotional topics on self esteem courage friendship and many more Topical and Scripture indexes *Urban Exploration Photography* Todd Sipes,2014 Urban exploration photography sometimes called urbex is a unique photographic genre that requires specific skills in order to produce compelling photographs In *Urban Exploration Photography A Guide to Creating and Editing Images of Abandoned Places* photographer Todd Sipes walks students through everything they need to know about composing shooting and processing photos of abandoned man made structures Sipes begins with a focused discussion on preparation for this unique genre of photography including what to bring both photography related and other such as clothes and accessories Then he dives into the chapters on shooting where he covers the role that composition plays in urban exploration photography the three major shooting styles or urban exploration photography general guidelines for camera settings and gear why you should bracket your shots and how to approach shooting in the dark including light painting using flashes and gels and using an intervalometer He also covers what kind of subject matter to shoot including organic and synthetic elements present in the urban exploration environment such as overgrowth graffiti paint and machinery as well as qualities of light to look for when shooting abandoned structures In the second part of the book Sipes tackles post processing including discussions of the various styles in urban exploration photography as well as the actual post processing techniques that take place in Lightroom and Photoshop as well as third party plug ins He also dedicates a section to Things to Avoid in post processing such as HDR fever over saturation halos and chromatic aberrations Basque and Romance Ane Berro,Fernández Beatriz,Jon Ortiz de Urbina,2019-05-07 This is a collection of articles describing and analyzing several of the most important morphosyntactic features for which the formal comparison between Basque and its surrounding Romance languages is relevant such as word order inflection case argument structure and causatives In the context of a language virtually all of whose speakers are bilingual in either Spanish or French the theoretically informed in depth description offered in this volume focuses on the fine grain of linguistic structures from languages typologically quite apart but coexisting and probably interacting in the minds of speakers It therefore aims at shedding some light on the types of interactions between different systems and on the systems themselves The Handbook of Contemporary Semantic Theory Shalom Lappin,Chris Fox,2019-02-12 The second edition of *The Handbook of Contemporary Semantic Theory* presents a comprehensive introduction to cutting edge research in contemporary theoretical and computational semantics Features completely new content from the first edition of *The Handbook of Contemporary Semantic Theory* Features contributions by leading semanticists who introduce core areas of contemporary semantic research while discussing current research Suitable for graduate students for courses in semantic theory and for advanced researchers as an introduction to current theoretical work **Passivization and Typology** Werner Abraham,Larisa Leisiö,2006-09-20 Is the passive a unified universal phenomenon The claim derived from this volume is that the passive if not universal has become unified according to function

Language as a means of communication needs the passive or passive like constructions and sooner or later develops them based on other voices impersonal active middle reflexive specific semantic meanings such as adversativity or tense aspect categories stative perfect preterit Certain contributors review the passives in various languages and language groups including languages rarely discussed Another group of contributors takes a novel theoretical approach toward passivization within a broad typological perspective Among the languages discussed are Vedic Irish Mandarin Chinese Thai Lithuanian Mordvin and Nganasan next to almost all European languages Various theoretical frameworks such as Optimality Theory Modern Structuralist Approaches Role and Reference Grammar Cognitive Semantics Distributed Morphology and Case Grammar have been applied by the different authors

Space in Tense Kyung-Sook Chung, 2012-07-18 This monograph explores the tense aspect mood and evidentiality of Korean which has a rich verbal inflectional system and proposes novel treatments within the framework of compositional semantics One of the major contributions is the demonstration that Korean has two types of deictic tense simple deictic and spatial deictic tense Spatial deictic tense refers to the notion of the speaker's perceptual field or deictic range as well as to temporality functioning to set up a condition for a systematic evidential distinction The research in this volume shows that the basic paradigm of evidentiality of Korean derives from the standard TMA system combined with the notion of space This volume also shows that perfect and past tense utilize different primitives The intended readership of this volume extends beyond Koreanists to scholars interested specifically in tense mood aspect and evidentiality as well as in general theories of grammar and semantics pragmatics

Malayalam Verbs Amanda Swenson, 2019-09-23 This book using Malayalam as a case study provides an in depth exploration of how inflectional suffixes should be separated from the verb and the implications this has for the syntax and semantics Past work has proposed that Malayalam lacks a Tense Phrase and tense morphology i e is tenseless However this book shows that Malayalam behaves differently from other tenseless languages and that it does have tense morphology It also provides evidence that there is a Tense Phrase in the syntax In addition it examines what have been called the two imperfectives and argues that one is a type of progressive while the other is a pluractional marker and shows that Malayalam lacks perfect morphology and a Perfect Phrase in minimally Universal perfects With respect to finiteness among other things it argues that Conjunctive Participles are best analyzed as a type of absolutive adjunct and that athu gerunds involve nominalization above the Tense Phrase level This book will be a valuable resource for anyone interested in cross linguistic variation in Tense Aspect Modality and or the morphosyntax or morphosemantics of Dravidian languages

Auxiliary Selection Revisited Rolf Kailuweit, Malte Rosemeyer, 2015-03-05 A central debate about the description of auxiliary selection concerns the regularity of auxiliary selection from a typological perspective Thus studies of auxiliary selection have both stressed the fact that certain recurrent parameters are highly relevant to the description of auxiliary selection whereas other studies demonstrate significant differences in auxiliary selection systems By integrating the synchronic and diachronic levels of linguistic description the

papers in the present volume work towards a framework that explains these contradictory findings. They discuss the role of semantic and syntactic constraints in gradient auxiliary selection, address the question of paradigmaticity of the have-be alternation and shed light on the mechanisms of the gradual historical change from be to have selection. The volume thus puts forth a row of innovative theoretical and empirical findings from a wide range of typologically diverse European languages that substantially broaden our knowledge about the mechanisms of auxiliary selection systems.

Aorists and Perfects, 2017-02-06 This volume gathers nine contributions dealing with Aorists and Perfects. Drinka challenges the notion of Aoristic Drift in Romance languages. Walker considers two emergent uses of the Perfect in British English. Jara seeks to determine the constraints on tense choice within narrative discourse in Peruvian Spanish. Henderson argues for a theory based on Langacker's sequential scanning in Chilean and Uruguayan Spanish. Delmas looks at Ua in Tahitian, a polysemic particle with a range of aspectual and modal meanings. Bourdin addresses the expression of anteriority with just in English. Yerastov examines the distribution of the transitive be Perfect in Canadian English. Fryd offers a panchronic study of have-less perfect constructions in English. Eide investigates counterfactual present perfects in Mainland Scandinavian dialects.

Situations and Syntactic Structures Gillian Catriona Ramchand, 2018-07-24 A new theory of the syntax-semantics interface that relies on hierarchical orderings in language with the English auxiliary system as its empirical ground. Research in syntax has found that there is a hierarchical ordering of projections within the verb phrase across languages, although researchers differ with respect to how fine-grained they assume the hierarchy to be. In *Situations and Syntactic Structures*, Gillian Ramchand explores the hierarchy of the verb phrase from a semantic perspective, attempting to derive it from semantically sorted zones in the compositional semantics. The empirical ground is the auxiliary ordering found in the grammar of English. The situation in the title refers to the semanticists' notion of eventuality, that is the central element of the ontology of the formal semantics of verbal meaning. Ramchand discusses the semantic notion of situations in relation to the hierarchical ordering evidenced in syntactic structures and tries to bridge semantic and syntactic ontologies. She proposes and formalizes a new theory of semantic zones and presents an explicitly semantic and morphological analysis of all the auxiliary constructions of English that derive their rigid order of composition without recourse to lexical item-specific ordering statements.

The Greek Verb Revisited Steven E. Runge, Christopher J. Fresch, 2016-11-02 For the past 25 years, debate regarding the nature of tense and aspect in the Koine Greek verb has held New Testament studies at an impasse. *The Greek Verb Revisited* examines recent developments from the field of linguistics which may dramatically shift the direction of this discussion. Readers will find an accessible introduction to the foundational issues and, more importantly, they will discover a way forward through the debate. Originally presented during a conference on the Greek verb supported by and held at Tyndale House and sponsored by the Faculty of Divinity of Cambridge University, the papers included in this collection represent the culmination of scholarly collaboration. The outcome is a practical and accessible overview of the

Greek verb that moves beyond the current impasse by taking into account the latest scholarship from the fields of linguistics Classics and New Testament studies *Language Variation - European Perspectives IV* Peter Auer, Javier Caro Reina, Göz Kaufmann, 2013-05-28 The eighteen contributions in this volume are based on papers presented at the 6th International Conference on Language Variation in Europe ICLaVE 6 which was held at the University of Freiburg Germany from June 29 to July 1 2011 The volume includes plenaries by Sjef Barbiers Where is syntactic variation and Arnulf Deppermann Stefan Kleiner Deppermann Kleiner and Knut Katerbow Moosmüller and Scheutz Schätzler Schleef West Zeller Ziegler but morphological variation Cornips and Hulk Dal Negro morphosyntactic variation Melissaropoulou Themistocleous Tsiplakou and Tsolakidis and syntactic variation Barbiers Hansson Rothmayr are also represented Additional papers deal with code switching
