Gottlieb, 2006-11-09 Ecologically oriented visions of God the Sacred the Earth and human beings The proposed handbook will serve as the definitive overview of these exciting new developments Divided into three main sections the books essays will reflect the three dominant dimensions of the field Part I Wallace Stegner and the American West Philip L. Fradkin, 2009-02-17 Respectful of his subject but never worshipful Fradkin has given us our first full critical portrait of the man and his protean career Hampton Sides author of Blood and Thunder An Epic of the American West **Iona Dreaming** Clare Cooper Marcus, 2010-04-01 A journey of healing takes Clare Cooper Marcus on a 6 month long solitary retreat to the remote Scottish Island of Iona Here she experiences a mirroring of her soul and reflects and reviews the life that brought her here to this magical place Her compelling memoir Iona Dreaming is an inspirational account of personal survival and hope in which Clare shares her recovery from a life threatening illness which deepens into a contemplation of the events in her life and her physical emotional and spiritual healing Clare Cooper Marcus brings both a personal and academic life long interface with place environment and people Her five previous books about human response to architecture and environment were popular with the public and well received by the press Iona Dreaming will reach out to a broad audience people entering retirement dealing with serious illnesses gardeners lovers of nature architects and landscape architects people who are becoming more heath conscious women who have shared the social and cultural shifts she lived through especially those coming of age in the 60 s and all those who seek a more authentic life Pedagogies of the Imagination Timothy Leonard, Peter Willis, 2008-06-11 I have long admired the mythopoetic tradition in curriculum studies That admiration followed from my experience as a high school teacher of English in a wealthy suburb of New York City at the end of the 1960s A dream job I taught four classes of 15 20 students during a nine period day in a dream suburb where I could afford to reside only by taking a room in a retired teacher's house many of these often Ivy League bound students had everything but meaningful lives This middle class Midwestern young teacher was flabbergasted In one sense my academic life has been devoted to understanding that searing experience Matters of meaning seemed paramount in the curriculum field to which Paul Klohr introduced me at Ohio State Klohr assigned me the work of curriculum theorists such as James B Macdonald Like Timothy Leonard who also studied with Klohr at Ohio State and Peter Willis Macdonald 1995 understood that school reform was part of a broader cultural and political crisis in which meaning is but one casualty In the mythopoetic tradition in curriculum studies scholars labor to understand this crisis and the conditions for the reconstruction of me ing in our time in our schools Kissed by a Fox Priscilla Stuckey, 2012-09-01 Drawing

inspiration from sources as varied as ancient philosophers and contemporary biologists Kissed by a Fox challenges readers to enact a different story of nature one in which people and place are not separate where other creatures respond to human need and where humans and all others together create the world Dissatisfaction with nature flows throughout Western civilization as deep as its blood as abiding as its bones Convinced to the marrow that something is deeply wrong with nature the Western world tries to remake it into something better For Priscilla Stuckey this is a fundamental and heartbreaking misconception that nature can be fixed exploited or simply ignored Modern societies try to bend nature to human will instead of engaging in give and take with a living breathing land community Using her personal experiences as the cornerstone Stuckey explores the depth of relationship possible with the birch tree in our backyard the nearby urban creek the dog who settles on our bed each night With the eloquence of the great nature writers before her Stuckey encourages us to open ourselves to the unlimited possibilities of a truly connected life Rural Literacies Kim Donehower, Charlotte Hogg, Eileen E Schell, 2007-06-19 Rural Literacies identifies the problems inherent in trying to understand rural literacy addresses the lack of substantive research on literacy in rural areas and reviews traditional misrepresentations of rural literacy This innovative volume frames debates over literacy in relation to larger social political and economic forces such as the impact of the No Child Left Behind Act on rural schools and the effects of out migration globalization and the loss of small family farms on rural communities Drawing upon traditional literacy and composition research and employing theory from education and sociology the text engages compositionists in broader conversations regarding rural literacies. The authors share strategies that will help compositionists participate in pedagogies that are rooted in a richer understanding of rural literacies and work toward sustainability for all communities in a globalized age **True to Life** Beth Kaplan, 2014-08-17 In fifty informative and inspiring steps Beth Kaplan shows you how to write your story by putting on your writer s hat then your editor s hat then digging down to bring out the vital details of the story and finally living the writing life Steps include Read Like a Writer Unleash the I Word Claim Your Truth Write from Scars Not Wounds Enter the Marketplace **International Encyclopedia** of Adult Education L.
