Considers how Lessing's exposure to a particular aspect of tasawwuf the classical Sufi Way has shaped her work Impresses upon the reader the degree to which Lessing is seriously offering her space fiction utopias as plausible and even necessary alternatives to our present Western ways of life *The Essence of Sufism* John Baldock, 2005-03-01 Insight into Life is the real religion which alone can help man to understand Life Hazrat Inayat Khan The Sufis have been using carefully constructed stories for teaching purposes for thousands of years Though on the surface these often appear to be little more than fairy or folk tales the Sufis hold that they enshrine in their characters plots and imagery patterns and relationships that nurture a part of the mind not reachable in more conventional ways thus increasing our understanding flexibility and breadth of vision Familiarization with this body of material can eventually provide answers to questions about our origins and our

destiny In this book John Baldock explores the rich body of literature the Sufis have produced to guide spiritual travellers While explaining the significant teachings and emphasizing their significance for us he sheds a timely light on the Sufis fascinating perception of life revealing it to be a process of the heart and not of the head and offers intriguing pathways to further study and reflection The Point of Existence A. H. Almaas,2000-09-05 The founder of the Diamond Approach to Self Realization examines narcissism through a spiritual lens presenting it as our greatest barrier to understanding our true self In this book the author explores the underlying spiritual understanding of narcissism He presents a detailed map of the steps involved in working through barriers that prevent us from recognizing the most essential nature of our true identity Almaas is one of the most significant voices for a new and remarkably integrated spiritual vision His work connects the personal the universal the psychological and the spiritual not as pieces put together but as the inseparable mandala of the sacred that we are I respect his work to the highest degree and commend it to anyone interested in living the life of the spirit Jack Kornfield Ph D author of After the Ecstasy the Laundry **World Tales** Idries Shah,1991 No ordinary collection of tales this anthology was the result of extensive research that led Shah to conclude that there is a certain basic fund of human fictions which recur again and again throughout the world and never seem to lose their compelling attraction This special paperback version of World Tales concentrates on the essentials the text of the stories and omits the illustrations which were part of a previous edition **The Inner Journey Home** A. H. and spiritual traditions Combining pioneering scholarship with practical spiritual instruction *Origins of the Tarot* is the first book to unveil the full range of the ancient streams of wisdom from which the Tarot emerged The timeless principles of conscious realization and cosmological unfoldment underlying the Tarot have never been explored in a comparably extensive and detailed way herein the teachings of a tremendous range of traditions including Kabbalah Western esotericism and alchemy Buddhism Taoism yogic disciplines Sufism mystical Christianity Gnosticism and Neoplatonism are masterfully incorporated and synthesized Author Dai L on explores a confluence of philosophical schools from East and West as they relate to the Tarot giving each its due in the exposition of a universal procession of evolution and the soul's quest for enlightenment In the process the Tarot is seen as a unique exemplification of perennial teachings on the soul and its liberation as well as a still unfolding window into concealed currents of human history The book's profound learning and unprecedented range of references are sure to attract close study among students both of the world's most enduring esoteric tradition and of esotericism itself

The Way of the Sufi Idries Shah, 2004 *The Way of the Sufi* presents an unparalleled cross section of material from Sufi schools teachings and classical writings as a basic course of Sufi study Its author Idries Shah is regarded as the most influential modern exponent of Sufi ideas His many books on the subject seek to make some of the Eastern world's greatest teachings accessible to a Western audience In this book Shah begins with the outward aspects of the teaching most likely to puzzle the student coming fresh to the subject He considers various attitudes to Sufi ideas and evidence of their absorption into medieval Christianity Hinduism Jewish mysticism and modern philosophical teachings The greater part of the book illuminates aspects of Sufi activity and practice relevant to the contemporary world *Darkest England* Idries Shah, 2020-07-21 In his best selling *Darkest England* Idries Shah asserts that the English hail from a little known place called Hathaby but their roots go back much farther perhaps to the distant Asian realm of Sakasina Once a nomadic tribe of warriors the English fled westward bringing with them epic tales traditions and an Oriental way of thought Shah charts the genius of the English in adopting and adapting almost anything spiritual moral or material for their own use a faculty that has transformed them from warrior nomads into successful diplomats businessmen thinkers and scientists

Knowing How to Know Idries Shah, 2020-06-06 Contemporary esoteric systems almost always play on the desire of mankind to seek or acquire knowledge All but universally neglected in such systems are the aa often unrecognized aa barriers which prevent knowledge and understanding Before learning can take place certain conditions and basic factors must be in place in the individual or the group Building on the foundations laid in *Learning How to Learn* and *The Commanding Self* Idries Shah in *Knowing How to Know* illuminates those factors Like an ultra violet light shone onto the petals of flowers it reveals concealed patterns normally invisible to our customary modes of thought **Mystical Traditions** Muhammad Shafiq, Thomas Donlin-Smith, 2023-05-16 This book discusses mysticism and its possible contributions to a positive common human future It is organized into three parts Studies of Mystical Traditions Comparative Studies of Mystical

Traditions and Social and Ethical Implications The approach is philosophical and critical The contributors differ on whether or not mystical traditions would restore peaceful living and peaceful coexistence However the problem before this manuscript is the growing pain and suffering caused by greed in the world greed causing economic disequilibrium racism and divisiveness causing social unrest resulting in mass migration and refugees crisis Through the lens of mystical traditions the manuscript proposes a balance approach between material and spiritual needs of people To strengthen human spirituality the manuscript emphasizes practicing meditation music prayers zikr yoga mindfulness fasting and other methods of spiritual revival for peace within self and with others

Idries Shah Anthology Idries Shah,2019-04-28 In his writing about Sufism Idries Shah did some revolutionary things Critically and almost alone he said that it was possible to divorce the essence of Sufi philosophy from what he insisted were secondary accretions of islamic culture and religion Moreover he said in making this material available to the West you could not only do this you must do it This is because he believed you can only absorb materials that are designed for your own time and place Sufism as an essence may be truth without form but in order to penetrate into the human mind it must be delivered in a package shaped to fit the receiving culture When something new enters a culture there is a period where like a new object being thrown into the chimpanzee pen at a zoo all the chimps rush over to touch it throw it on the floor fight over it and so on he once told me We must wait until the dust settles only then will people be in a position to assess this material My father died in 1996 and the dust is settling fast He leaves a body of work behind and on this work alone he believed he should and would be judged This anthology is intended to provide a basic sample of his work an essential reader to allow people to do exactly what he would have wished them to do to think for themselves and to make up their own minds From the Editor s Note by Saira Shah

The Pearl Beyond Price A. H. Almaas,2000-09-05 In this book Almaas demonstrates that healthy ego development is part of the continuum of spiritual development He also establishes the possibility of attaining inner realization and developing our essential being the pearl beyond price in the context of living a normal human life
