Thucydides on the Outbreak of War S. N. Jaffe,2017 The cause of great power war is a perennial issue for the student of politics Some 2 400 years ago in his monumental History of the Peloponnesian War Thucydides wrote that it was the growth of Athenian power and the fear that this power inspired in Sparta which rendered the Peloponnesian War somehow necessary inevitable or compulsory In this new political psychological study of Thucydides first book S N Jaffe shows how the History s account of the outbreak of the war ultimately points toward the opposing characters of the Athenian and Spartan regimes disclosing a Thucydidean preoccupation with the interplay between nature and convention Jaffe explores how the character of the contest between Athens and Sparta or how the outbreak of a particular war can reveal Thucydides account of the recurring human causes of war and peace The political thought of Thucydides proves bound up with his distinctive understanding of the interrelationship of particular events and more universal themes

Doubt and the Demands of Democratic Citizenship David R. Hiley,2006-06-26 The triumph of democracy has been heralded as one of the greatest achievements of the twentieth century yet it seems to be in a relatively fragile condition in the United States if one is to judge by the proliferation of editorials essays and books that focus on politics and distrust of government *Doubt and the Demands of Democratic Citizenship* explores the reasons for public discontent and proposes an account of democratic citizenship appropriate for a robust democracy David Hiley argues that citizenship is more than participating in the electoral process It requires a capacity to participate in the deliberative process with other citizens who might disagree a capacity that combines deep convictions with a willingness to subject those convictions Hiley develops his argument by examining the connection between doubt and democracy generally as well as through case studies of Socrates Montaigne and Rousseau interpreting them in light of contemporary issues *The Causes of War* Alexander Gillespie,2013-10-16 This is the first volume of a projected four volume series charting the causes of war from 3000 BCE to the present day written by a leading international lawyer and using as its principal materials the documentary history of international law largely in the form of treaties and the negotiations which led up to them These volumes seek to show why millions of people over thousands of years slayed each other In departing from the various theories put forward by historians anthropologists and psychologists Gillespie offers a different taxonomy of the causes of war focusing on the broader settings of politics religion migrations and empire building These four contexts were dominant and often overlapping justifications for the first four thousand years of human civilisation for which written records exist **The Ancient World** Frank N. Magill,2003-12-16 Containing 250 entries each volume of the *Dictionary of World Biography* contains examines the lives of

the individuals who shaped their times and left their mark on world history Much more than a Who's Who each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements and conclude with a fully annotated bibliography The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history Any student in the field will want to have one of these as a handy reference companion
