Pericles On Stage:

Pericles on Stage Michael Vickers, 2011-08-17 Since the eighteenth century classical scholars have generally agreed that the Greek playwright Aristophanes did not as a matter of course write political plays Yet according to an anonymous Life of Aristophanes when Dionysius the tyrant of Syracuse wanted to know about the government of Athens Plato sent him a copy of Aristophanes Clouds In this boldly revisionist work Michael Vickers convincingly argues that in his earlier plays Aristophanes in fact commented on the day to day political concerns of Athenians Vickers reads the first six of Aristophanes eleven extant plays in a way that reveals the principal characters to be based in large part on Pericles and his ward Alcibiades According to Vickers the plays of Aristophanes far from being nonpolitical actually allow us to gauge the reaction of the Athenian public to the events that followed Pericles death in 429 B C to the struggle for the political succession and to the problems presented by Alcibiades emergence as one of the most powerful figures in the state This view of Aristophanes reaffirms the central role of allegory in his work and challenges all students of ancient Greece to rethink long held assumptions about this important playwright

Shakespeare's Lyric Stage Seth Lerer, 2018-11-29 What does it mean to have an emotional response to poetry and music And just as important but considered less often what does it mean not to have such a response What happens when lyric utterances which should invite consolation revelation and connection somehow fall short of the listener's expectations As Seth Lerer shows in this pioneering book Shakespeare's late plays invite us to contemplate that very question offering up lyric as a displaced and sometimes desperate antidote to situations of duress or powerlessness Lerer argues that the theme of lyric misalignment running throughout *The Tempest* *The Winter's Tale* *Henry VIII* and *Cymbeline* serves a political purpose a last ditch effort at transformation for characters and audiences who had lived through witch hunting plague regime change political conspiracies and public executions A deep dive into the relationship between aesthetics and politics this book also explores what Shakespearean lyric is able to recuperate for these victims of history by virtue of its disjointed utterances To this end Lerer establishes the concept of mythic lyricism an estranging use of songs and poetry that functions to recreate the past as present to empower the mythic dead and to restore a bit of magic to the commonplaces and commodities of Jacobean England Reading against the devotion to form and prosody common in Shakespeare scholarship Lerer's account of lyric utterance's vexed role in his late works offers new ways to understand generational distance and cultural change throughout the playwright's oeuvre Crisis on Stage Andreas Markantonatos, Bernhard Zimmermann, 2011-11-30 This volume explores the relationships between masterworks of Sophocles Euripides and Aristophanes and critical events of Athenian history by bringing together internationally distinguished scholars with expertise on different aspects of ancient theatre These specialists study how tragic and comic plays composed in late fifth century BCE mirror the acute political and social crisis unfolding in Athens in the wake of the military catastrophe in 413 BCE and the oligarchic revolution in 411 BCE With events of such magnitude the late fifth century held the potential for vast and fast cultural and intellectual change In times of severe emergency humans gain a more conscious understanding of their historically shaped presence this realization often has a welcome effect of offering new perspectives to tackle future challenges Over twenty academic experts believe that the Attic theatre showed increased responsiveness to the pressing social and political issues of the day to the benefit of the polis By regularly promoting examples of public spirited and capable figures of authority Greek drama provided the people of Athens with a civic understanding of their own good Globalizing
