Perils Of The Night:

Perils of the Night Eugenia C. DeLamotte,1990 DeLamotte's book begins from the premise that the major conventions of the Gothic romance involve boundaries or barriers which the Gothicism uses to play simultaneously on the fear of separateness and the fear of unity with some alien Other She explores this question in the works of English and American writers including Henry James Mary Shelley Herman Melville Hawthorne Emily Bronte and Charlotte Bronte [Perils of the Night](#) Eugenia C. DeLamotte,1990-02-22 This book argues that the source of Gothic terror is anxiety about the boundaries of the self a double fear of separateness and unity that has had a special significance for women writers and readers Exploring the psychological religious and epistemological context of this anxiety DeLamotte argues that the Gothic vision focuses simultaneously on the private demons of the psyche and the social realities that helped to shape them Her analysis includes works of English and American authors among them Henry James Mary Shelley Herman Melville Nathaniel Hawthorne Emily Bront Charlotte Bront and a number of often neglected popular women Gothicismists [All the Perils of this Night](#) Elizabeth Cunningham,2020 All the Perils of This Night offers a vivid flashback of a tumultuous era and a window into a surprising and magical reality With a Dickensian mastery of character and plot Cunningham sounds timeless and timely themes innocence and loss guilt and redemption slavery and liberation and love across racial and gender boundaries **The Last Night's Children** Pasquale De Marco,2025-05-09 The Last Night's Children is the definitive guide to the vampire mythos exploring the origins beliefs and practices surrounding these enigmatic creatures of the night This book delves into the rich tapestry of vampire lore separating fact from fiction and shedding light on the enduring fascination with these creatures From the ancient origins of vampires to their modern day existence this book uncovers the hidden world of these creatures like never before Drawing on extensive research and interviews with experts in the field Pasquale De Marco paints a vivid picture of vampire society its history its rules and its secrets This comprehensive guide examines the different clans of vampires their rivalries and alliances and the complex relationship between vampires and humans It explores the role of vampire hunters the rituals and traditions of vampires and the possibility of redemption for these creatures The Last Night's Children is not simply a work of fiction or a novel rather it is a serious exploration of the vampire mythos providing readers with a deeper understanding of these enigmatic creatures It is a must read for anyone interested in vampires the supernatural or the darker aspects of human nature Vampires have always existed on the fringes of society their existence shrouded in mystery and fear But what if these creatures were not simply figments of our imagination What if they were real living among us hidden in plain sight Pasquale De Marco explores this tantalizing possibility in this groundbreaking book Through a combination of research interviews and personal anecdotes Pasquale De Marco reveals the truth behind the myths painting a vivid picture of the hidden world of vampires This book is a must read for anyone fascinated by the supernatural the occult or the darker side of human nature If you like this book write a review on google books **The Night Fossickers, and Other**

God of the Storm: There Stood by me this Night Burliss E. Parker, 2017-03-15. So when the ship was caught and could not head into the wind we let her drive. Acts 27:15. The meaning here is that the storm was so powerful they surrendered control of the ship to the storm. This book has been in the making for over twenty years. I have observed and experienced the storms of life: the unplanned and unexpected changes that blow into our lives and change the direction we were going. Everyone experiences storms in their lives. Storms can be caused by your own conduct or by the actions of others. Storms can be a satanic attack or just the events of life. It is difficult to see God's plans in the storm. However, if He has a job for us to accomplish for Him, He will bring the circumstances into our lives to take us where He wants us. For there stood by me this night an angel of the God to whom I belong and whom I serve. Acts 27:23. What a wonderful promise. We do not go through the storms of life alone. He is always with us. Remember the storms of life are never bigger than the God we serve.

Literary remains Joseph Henry Shorthouse, 1905. *Staging the Superstitions of Early Modern Europe*. Andrew D. McCarthy, 2016-04-01. Engaging with fiction and history and reading both genres as texts permeated with early modern anxieties, desires, and apprehensions, this collection scrutinizes the historical intersection of early modern European superstitions and English stage literature. Contributors analyze the cultural mechanisms that shape, preserve, and transmit beliefs. They investigate where superstitions come from and how they are sustained and communicated within early modern European society. It has been proposed by scholars that once enacted on stage and thus brought into contact with the literary-dramatic perspective, belief systems that had been preserved and reinforced by historical literary texts underwent a drastic change. By highlighting the connection between historical literary and literary-dramatic culture, this volume tests and explores the theory that performance of superstitions opened the way to disbelief.

Nocturnal Hunters of the Reich - Luftwaffe Night Fighters in Action Pasquale De Marco, 2025-04-08. In the vast expanse of World War II's aerial battles, a unique and captivating drama unfolded: the rise and fall of the Luftwaffe's night fighters. These specialized units, born from necessity, took to the skies to counter the relentless Allied bombing raids that

threatened to cripple Germany's war machine. This book provides a comprehensive exploration of the history, tactics, and impact of these nocturnal hunters. From their humble beginnings to their ultimate twilight, the story of the night fighters is one of innovation, daring, and sacrifice. Readers will delve into the development of specialized aircraft such as the Messerschmitt Bf 110 and the Junkers Ju 88, designed to excel in the darkness. They will witness the evolution of night fighting tactics, driven by technological advancements and the ingenuity of pilots like Heinz Wolfgang Schnauffer and Helmut Lent, who became legendary aces. The book also sheds light on the challenges faced by night fighter crews, from the psychological strain of flying in the dark to the perils of flak and enemy fighters. Their bravery and determination in the face of overwhelming odds are a testament to the resilience of the human spirit. Furthermore, this book examines the impact of the night fighters on the course of the war. Their efforts disrupted Allied bombing campaigns, forcing the Allies to adapt their strategies. The night fighters also played a crucial role in defending German cities, providing a vital shield against aerial bombardment. However, as the war progressed, the night fighters faced increasing adversity. Allied countermeasures improved bomber defenses, and the sheer weight of Allied air power gradually eroded their effectiveness. The book delves into these challenges and the ultimate decline of the night fighter force. Through a combination of historical narrative, analysis, and personal accounts, this book offers a captivating and informative account of the Luftwaffe's night fighters. It is a tribute to the men who flew these formidable machines, a testament to their skill and courage, and a valuable addition to the literature on World War II aviation history.
