Periodontal Manifestations Of Local And Systemic Diseases:

Periodontal Manifestations of Local and Systemic Diseases George Laskaris, Crispian Scully, 2003 I am delighted to see the appearance of the first comprehensive atlas recognizing the important relationship between periodontal and systemic health and disease The atlas is not intended to cover the new areas of interest in relation to periodontal health and cardiac and other disease but rather to demonstrate the systemic diseases that manifest to the periodontist and hygienist The atlas thus covers a vast range of systemic disorders that may present with gingival or periodontal lesions and highlights the importance of the periodontal and oral medicine teams in diagnosing and managing patients with sometimes complex medical problems The authors Professor George Laskaris and Professor Crispian Scully are both active clinicians teachers and researchers in oral medicine with wide experience and special interest in the oral medicine periodontal interface and both have published widely in their fields I welcome this contribution to the advancement of care for the patient with periodontal disease Jan Lindhe Professor Emeritus of Periodontology University of Gothenburg Sweden

III Alil Preface The periodontium is a part of the oral tissues of great interest to dentists and particularly to the periodontal team The importance has now been recognized to extend beyond local disorders to a wide range of conditions that may affect periodontal health Periodontal Manifestations of Local and Systemic Diseases George Laskaris, Dimitris Tatakis, Eleana Stoufi, 2023-03-27 This comprehensive atlas illustrates the important relationship between periodontal and systemic health and disease with a wealth of superb illustrations The periodontium as a part of the oral tissues is of great interest to dentists and its importance extends beyond local disorders to a wide range of conditions that may affect periodontal health The atlas covers both local and systemic disorders including inflammatory diseases developmental disorders metabolic disorders endocrine disorders cancer and a vast number of other diseases that may present with gingival or periodontal lesions Now in its 2nd edition *Periodontal Manifestations of Local and Systemic Diseases* helps periodontists oral medicine specialists general dentists and dental students to diagnose and manage patients with complex medical problems The book is unique because no other books specifically focused on the periodontal manifestations of oral and systemic diseases have been available in this form Nineteen years after the first edition the book has been almost entirely rewritten expanded and updated Over 50% of the pictorial material has been renewed and enriched with high quality color images The book is written by a team of experienced experts and will be a valuable resource for the community Periodontal Manifestations of Local and Systemic Diseases George Laskaris, Crispian Scully, 2012-12-06 I am delighted to see the appearance of the first comprehensive atlas recognizing the important relationship between periodontal and systemic health and disease The atlas is not intended to cover the new areas of interest in relation to periodontal health and cardiac and other disease but rather to demonstrate the systemic diseases that manifest to the periodontist and hygienist The atlas thus covers a vast range of systemic disorders that may present

with gingival or periodontal lesions and highlights the importance of the periodontal and oral medicine teams in diagnosing and managing patients with sometimes complex medical problems The authors Professor George Laskaris and Professor Crispian Scully are both active clinicians teachers and researchers in oral medicine with wide experience and special interest in the oral medicine periodontal interface and both have published widely in their fields I welcome this contribution to the advancement of care for the patient with periodontal disease Jan Lindhe Professor Emeritus of Periodontology University of Gothenburg Sweden The periodontium is a part of the oral tissues of great interest to dentists and particularly to the periodontal team The importance has now been recognized to extend beyond local disorders to a wide range of conditions that may affect periodontal health
