Peripheral Migrants:

Peripheral Migrants Samuel Martínez, 1995 *Peripheral Migrants* examines the circulation of labor from rural Haiti to the sugar estates of the Dominican Republic and its impact on the lives of migrants and their kin. The first such study to draw on community based fieldwork in both countries, the book also shows how ethnographic and historical approaches can be combined to reconstruct patterns of seasonal and repeat migration. Samuel Martinez pays close attention to the economic maneuvers Haitians adopt on both sides of the border as they use Dominican money to meet their present needs and to assure future subsistence at home in Haiti. The emigrants who adapt best, he finds, are those who maintain close ties to their home areas. Yet in addition to showing how rural Haitians survive under severe poverty and oppression, Martinez reveals the risks they incur by crossing the border: as cane workers, divided families, increased short term deprivation and economic insecurity, and all too often early death. He further notes that labor circulation is not part of an unchanging cycle in rural Haiti but a source of income that is vulnerable to the downturns in the global economy. Acknowledging various theoretical perspectives, the author compares the Haitian migrations with similar population displacements worldwide. As he shows, the Haitian workers exemplify an important if seldom studied category of migrants: those who neither move to the cities nor emigrate to countries of the North but circulate between rural areas of the Third World. Thus this book serves to broaden our understanding of this lower tier of the world's migrants. **BOOK JACKET Title Summary** field provided by Blackwell North America Inc. All Rights Reserved

Peripheral Visions in the Globalizing Present Esther Peeren, Hanneke Stuit, Astrid Van Weyenberg, 2016-08-09 This volume sheds new light on how today's peripheries are made, lived, imagined and mobilized in a context of rapidly advancing globalization. Focusing on peripheral spaces, mobilities and aesthetics, it presents critical readings of, among others, Indian caste quarters, the Sahara, the South African backyard and European migration, as well as films, novels and artworks about marginalized communities and repressed histories. Together, these readings insist that the peripheral not only needs more visibility in political, economic and cultural terms but is also invaluable for creating alternative perspectives on the globalizing present. *Peripheral Visions* combines sociological, cultural, literary and philosophical perspectives on the periphery and highlights peripheral innovation and futurity to counter the lingering association of the peripheral with stagnation and backwardness.

Migrants, Markets, and Mayors Luc Christiaensen, Nancy Lozano-Gracia, 2024-01-12 Research on migration and urban development in Africa has primarily focused on larger cities and rural to urban migration. However, 97 percent of Africa's urban centers have fewer than 300,000 inhabitants, and a sizable share of urban migrants come from other urban areas. A more holistic and dynamic perspective incorporating migration flows along the full urban hierarchy, as well as urban urban migrants, is needed to better understand and leverage migration for urban development. *Migrants, Markets, and Mayors: Rising above the Employment Challenge in Africa's Secondary Cities* draws on demographic data, research literature, key informant interviews and empirical research to better understand how

migrants in Africa's secondary cities fare in urban labor markets how they affect aggregate urban productivity and how mayors can leverage migrants potential to the benefit of all It explores these questions across countries and four urban case settings Jijiga in Ethiopia Jinja in Uganda and Jendouba and Kairouan in Tunisia Although mayors in secondary cities often see migrants as a burden to their cities labor markets and a threat to development the report finds that migrants contribute increasingly less to urban population growth and that they usually strengthen the resident labor force The report also finds that labor market outcomes for migrants are at least as good as those for nonmigrants Africa's secondary cities are well placed to leverage migration but evidence based policies are needed to manage the growth and development of land and labor markets The report reviews policy options that mayors can take to strengthen the financial technical and planning capacity of secondary cities and better leverage migration to benefit migrants and nonmigrants alike Much of the literature on migration to cities examines migration in a nonspatial fashion or focuses on rural urban migration to the largest most visible cities This volume fills a gap by focusing on migration to secondary cities coming up with a compelling set of facts Overall the volume is very well done and sets a benchmark for future research J Vernon Henderson School Professor of Economic Geography London School of Economics

Migrants, Immigration and Diversity in Twentieth-century Northern Ireland Jack Crangle, 2023-01-01 Addressing questions about what it means to be British or Irish in the twenty first century this book focuses its attention on twentieth century Northern Ireland and demonstrates how the fragmented and disparate nature of national identity shaped and continues to shape responses to social issues such as immigration Immigrants moved to Northern Ireland in their thousands during the twentieth century continuing to do so even during three decades of the Troubles a violent and bloody conflict that cost over 3 600 lives Foregrounding the everyday lived experiences of settlers in this region this ground breaking book comparatively examines the perspectives of Italian Indian Chinese and Vietnamese migrants in Northern Ireland outlining the specific challenges of migrating to this small intensely divided part of the UK The book explores whether it was possible for migrants and minorities to remain neutral within an intensely politicised society and how internal divisions affected the identity and belonging of later generations An analysis of diversity and immigration within this divided society enhances our understanding of the forces that can shape conceptions of national insiders and outsiders not just in the UK and Ireland but across the world It provokes and addresses a range of questions about how conceptions of nationality race culture and ethnicity have intersected to shape attitudes towards migrants In doing so the book invites scholars to embrace a more diverse four nation approach to UK immigration studies making it an essential read for all those interested in the history of migration in the UK

India Migration Report 2017 S. Irudaya Rajan, 2018-01-02 The India Migration Report 2017 examines forced migration caused by political conflicts climate change disasters natural and man made and development projects India accounts for large numbers of internally displaced people in the world Apart from conflicts and disasters over the years development projects including urban redevelopment and

beautification often justified as serving the interests of the people and for public good have caused massive displacements in different parts of the country disrupting the lives and livelihoods of millions of people The interdisciplinary essays presented here combine a rich mix of research methods and include in depth case studies on aspects of development induced displacement affecting diverse groups such as peasants religious and ethnic minorities the poor in urban and rural areas and women leading to their exclusion and marginalization The struggles and protests movements of the displaced groups across regions and their outcomes are also assessed This volume will be of great interest to scholars and researchers of development studies economics sociology and social anthropology and migration studies

Geographies of the Haitian Diaspora Regine O. Jackson, 2011-06-27 This book considers the full sweep of Haitian community invention and recreation in a multitude of national territories with an eye toward the place factors that shape the everyday lives of Haitian migrants Regine O Jackson brings together an interdisciplinary group of scholars to explore how Haitian communities differ across time and place as well as how migrants adjust to new economic political and racial realities The volume includes descriptive ethnographies of Haitians in 19th century Jamaica eastern Cuba Detroit the Dominican Republic Guadeloupe Paris and Boston and innovative scholarly work on non geographic sites of Haitian community building The most important question addressed here is not whether the places described represent typical or exceptional Haitian diasporic communities but how why and to what effect do Haitians in particular places use diaspora as a signifier By examining the diversity and sameness of the Haitian experience in diaspora *Geographies of the Haitian Diaspora* asks how we might situate community in view of increased scholarly attention to transnational processes

Mass Migration in the World-system Terry-Ann Jones, Eric Mielants, 2015-11-17 *Mass Migration in the World System* brings to light the multiple experiences of migrants across different zones of the world economy By engaging wide ranging ideas and theoretical viewpoints of the migration process the labor market for immigrants and the rights of migrants this book provides an important and much needed interdisciplinary perspective on the issues of mass migration

Colonial Subjects Ramon Grosfoguel, 2003-10-30 *Colonial Subjects* is the first book to use a combination of world system and postcolonial approaches to compare Puerto Rican migration with Caribbean migration to both the United States and Western Europe Ramon Grosfoguel provides an alternative reading of the world system approach to Puerto Rico's history political economy and urbanization processes He offers a comprehensive and well reasoned framework for understanding the position of Puerto Rico in the Caribbean the position of Puerto Ricans in the United States and the position of colonial migrants compared to noncolonial migrants in the world system

Urban Migration and Public Governance in China Shangguang Yang, Danyang Wang, 2023-08-21 This book focusing on urban migration and public governance reviews on the concepts and theories of urban migration and urban governance across the globe and sums up world migration trends and policy changes coupled with the characteristics and types of China's urban migration What differs this book from other books is that it probes into the main factors and mechanisms influencing urban

migration and inclusion and that it adopts Shanghai as a sample and capitalizes on Shanghai's urban migration data to verify the subjective and objective reasons affecting urban migrants' inclusion. Moreover, this book takes a further step to conduct a theoretical reflection from the perspectives of population migration and migration policies and explores current dilemmas facing China in terms of urban migration management and possible ways to make a difference. In the final part, this book puts forward some theory-based and practicable countermeasures to transform urban migration governance in China. **Country**

on the Move: Migration to and within Israel, 1948-1995 Gabriel Lipshitz, 2013-03-14 *Country on the Move* presents original research and a comprehensive multidisciplinary analysis of the spatial aspects of migration. It considers the spatial results of two diametrically opposed policies: planning from above to settle the North African and Asian newcomers in the 1950s and planning by market forces for immigrants from the former Soviet Union in the 1990s. Unlike other books on immigration, *Country on the Move* also analyzes internal migration within Israel, which is an outcome of the regional disparities produced by immigration. Moreover, it compares the empirical findings in Israel with international trends, and its analysis can serve as a foundation for setting spatial immigration policy. Audience: Researchers specializing in population geography, migration, and regional development; university students on all levels who are taking courses in these subjects; and top officials in government ministries that deal with immigration. *Managing Migration* Philip L. Martin, Susan F.

Martin, Patrick Weil, 2006-04-24 A growing share of the world's population lives in the 175 developing countries, while global income and wealth are increasingly concentrated in the 25 developed countries. The resulting migration from developing to developed countries is proving difficult to manage at national, regional, and local levels. *Managing Migration* presents the valuable results of the Cooperative Efforts to Manage Emigration project, a bottom-up effort to identify models and best practices for spurring economic development and respect for human rights in migrant countries of origin. Based on the research of experts from North America and Europe, authors Martin and Weil discuss the challenges of managing international migration in the 21st century, present case studies in cooperative migration management, and offer recommendations to overcome the existing challenges. Concluding that there is no one-size-fits-all framework for managing migration, but that there are common elements of best practice migration management, *Managing Migration* is guaranteed to pique the interest of policy makers and practitioners involved in immigration, as well as scholars of geography, anthropology, and international relations. Refugees, Immigrants, and Education in the Global South Lesley Bartlett, Ameena

Ghaffar-Kucher, 2013-07-04 The unprecedented human mobility the world is now experiencing poses new and unparalleled challenges regarding the provision of social and educational services throughout the global South. This volume examines the role played by schooling in immigrant incorporation or exclusion using case studies of Thailand, India, Nepal, Hong Kong, PRC, the Philippines, the United Arab Emirates, Jordan, Kenya, Egypt, South Africa, Senegal, Sudan, Mexico, and the Dominican Republic. Drawing on key concepts in anthropology, the authors offer timely sociocultural analyses of how governments

manage increasing diversity and how immigrants strategize to maximize their educational investments The findings have significant implications for global efforts to expand educational inclusion and equity

The Political Economy of Work in the Global South Anita Hammer, Adam Fishwick, 2020-03-28 Part of the Critical Perspectives on Work and Employment series this edited collection brings together contributions from leading international scholars to initiate an important dialogue between labour process analysis and scholarship on work in the Global South This book characterises the forms of work and labour process that characterise globalising capitalism today and addresses core analytical concerns within Labour Process Theory and research on work in the South It explores how a wide range of production relations in the Global South ranging from formal to informal employment and self employment are embedded in wider social relations of gender caste religion and ethnicity and are related to wider patterns of commodification and resistance Drawing on cutting edge research the book's chapters consider a diverse range of working situations covering migrant workers in the Middle East commercial surrogacy work in India and cooperative garment workers in Argentina In offering a novel reading of the political economy of work in the Global South and shedding light on lesser considered fields of work and worker organization this volume will provide new insights for making sense of the changing world of work for students scholars labour activists and practitioners alike

Global Migration Diego Acosta Arcarazo, Anja Wiesbrock, 2015-05-05 This three volume work exposes myths and debunks misinformation about global migration an issue generating emotional debate from the highest levels of power to kitchen tables across the United States Europe and worldwide Many don't realize that migration has been a central element of global social change since the 15th century Unfortunately misconceptions about the 3 percent of world citizens who do choose to migrate can be destructive In 2008 riots broke out in South Africa over workers from neighboring countries Today's rising tensions along the U S Mexican border are inciting political social and economic upheaval In the EU political fortunes rise and fall on positions regarding the future of multiculturalism in Europe Relying on fact not rhetoric this three volume book seeks to inform readers allay fears and advance solutions While other reference works tend to limit their scope to one country or one dimension of this hot button issue this book looks at the topic through a wide and interdisciplinary lens Truly global in scope this collection explores issues on all five continents discussing examples from more than 50 countries through analysis by 40 top scholars across 8 disciplines By exploring the past present and future of measures that have been implemented in an attempt to deal with migration ranging from regularization procedures to criminalization readers will be able to understand this worldwide phenomenon Both the expert and the general reader will find a wealth of information free of the unsustainable claims and polarized opinions usually presented in the media To view the introductory chapter of this book visit http://papers.ssrn.com/sol3/papers.cfm?abstract_id=2604184

Migration in Contemporary Hispanic Cinema Thomas G. Deveny, 2012-06-21 Immigration is an important and much discussed topic throughout the world and its depiction on screen helps shape the way we perceive this issue In *Migration in Contemporary Hispanic Cinema* Thomas G Deveny looks

at film and immigration with a global perspective examining emigration and immigration films from Spain Mexico Argentina Central America and the Hispanic Caribbean In this volume Deveny approaches each movie with a close textual analysis keeping in mind the sociological theories regarding migration as well as incorporating criticism on the film Recurring themes such as the depiction of the Other individual identity and social and cultural contextualization stereotypes rejection acceptance and change are identified and discussed Films such as *Flowers from Another World* *Return to Hansala* *El Camino 14 Kilometers* *Mar a Full of Grace* and others are carefully studied Additional chapters analyze films about Colombian mules coming to the United States and Uruguayan prostitutes in Spain and the final chapter examines *Al otro Lado* To the Other Side a film with narratives involving three nationalities and three destinations thus showing the global nature of the phenomenon Through the analyses of immigration and emigration depictions in film this book enables readers to comprehend the universal nature of migration Like the films it analyzes *Migration in Contemporary Hispanic Cinema* will provide a deeper understanding of people who leave their homeland for a better life *The Effects Of Receiving Country Policies On Migration Flows* Sergio Diaz-briquets,Sidney Weintraub,2019-06-26 This book deals with migrant sending countries in the Western Hemisphere because that was the Commission s mandate and because the bulk of undocumented immigrants into the United States come from Mexico and other countries of the Caribbean Basin *Justice and Authority in Immigration Law* Colin Grey,2015-04-23 This book provides a new and powerful account of the demands of justice on immigration law and policy Drawing principally on the work of Adam Smith Immanuel Kant and John Rawls it argues that justice requires states to give priority of admission to the most disadvantaged migrants and to grant some form of citizenship or non oppressive status to those migrants who become integrated It also argues that states must avoid policies of admission and exclusion that can only be implemented through unjust means It therefore refutes the common misconception that justice places no limits on the discretion of states to control immigration *The Migration Experience in Africa* Jonathan Baker,Tade Akin Aina,1995 South Africa by Christian M Rogerson **Republican Ascendancy in Southern U.S. House Elections** Seth C. McKee,2018-04-17 Tremendous transformation marks the last three decades of American politics and nowhere has this change been as distinctive and penetrating as in the American South After 120 consecutive years of minority status the rapid ascendancy of Southern House Republicans in the 1990s has reshaped the contours of contemporary American politics increasing party polarization making a Republican House majority possible and most recently contributing to the revival of Democratic fortunes in national congressional elections Southern Republican ascendancy constitutes an exemplar of party system change made possible by three sequential factors increasing Republican identification redistricting and the emergence of viable Republican candidates Relying on existing and original data sources this text presents the most recent example of large scale partisan change Beyond serving as a primer for the study of political parties campaigns and elections and Southern politics *Republican Ascendancy in Southern U S House Elections* provides an

original theoretical argument and an expansive view of why political change in the South has such strong implications for national politics Immigrant Industry Anoma Pieris, Mirjana Lozanovska, Dr Alexandra Dellios, Andrew Saniga, 2024-08-02

After the end of the Second World War migrants were critical to the spatial making of modern Australia Major federally funded industries driving postwar nation building programs depended on the employment of large numbers of people who had been displaced by the war Directed to remote rural and urban industrial sites migrant labor and resettlement altered the nation's physical landscape providing Australia with its contemporary economic base While the immigrant contribution to nation building in cultural terms is well known its everyday spatial architectural and landscape transformations remain unexamined This book aims to bring to the foreground postwar industry and immigration to comprehensively document a uniquely Australian shaping of the built environment
