Chemistry and Technology of Water Based Inks P. Laden,2012-12-06 This book has been a long time in the making
Since its beginning the concept has been refined many times This is a first attempt at a technical book for me and fortunately
the goals I have set have been achieved I have been involved in water based ink evaluation since its unclear begin nings in
the early 1970s This book is fashioned much like a loose leaf binder I had put together for early reference and guidance The
format has worked for me over the years I trust it will work for you I would like to thank the many people who made this book
possible particularly Blackie Academic Professional for their saint like patience Thanks again to W B Thiele Thiele Engdahl to
Lucille my wife and to James and Frank my two boys A final and special thank you to Richard Bach who taught me there are
no limits
