Report on Guatemala, 1989

Human rights in development yearbook 1998 Hugo Stokke, Arne Tostensen, 1999-10-28 The eleventh in the series of yearbooks on Human Rights in Developing Countries this volume marks a departure from previous editions and a new beginning The Yearbook will now bear the title of Human Rights in Development to reflect the fact that it will explore the role of human rights as an integral part of the development process The new title is also an indication of the fact that the scope of the Yearbook has widened to include human rights topics and issues in the more developed parts of the world as well as in the developing countries covered hitherto Moreover human rights are themselves in development and the new Yearbook plans to keep track of standard setting in the human rights field Finally the new title reflects the Yearbook's aim of engaging in more international and

comparative studies on the one hand and in more focused local issues on the other. With the rapid spread of new information technology and improved local monitoring capacity in developing countries there may be less of a need for the type of nation level country studies the Yearbook performed in the past. Two themes cut across the series of articles contained in the current edition. One human rights promotion is explored in various ways: one article looks at the establishment of national human rights institutions as instruments of promotion; another analyses development interventions in terms of their impact on local populations drawing on UN and World Bank experience; yet another argues the case for using aid in human rights promotion exemplified by Dutch aid to Guatemala; a fourth investigates the policies of the EU and ASEAN in seeking to improve the human rights situation in Burma; and finally one article looks at the work of the ILO in standard setting and implementation in the field of child labour. The other theme, local conflict, is addressed in two articles: one looking at local communities in Latin America caught between local customs and ideologically charged civil wars, and the other investigating the tensions between centralized rule and local autonomy in Kenya recently erupting into ethnic violence. The Human Rights in Development Yearbook is a joint project of the Chr Michelsen Institute, Bergen; the Danish Centre for Human Rights, Copenhagen; the Icelandic Human Rights Centre, Reykjavik; the Ludwig Boltzmann Institute of Human Rights, Vienna; the Netherlands Institute of Human Rights, Utrecht; the Norwegian Institute of Human Rights, Oslo; and the Raoul Wallenberg Institute of Human Rights and Humanitarian Law, Lund.

No Other Way Out Jeff Goodwin, 2001-06-04. *No Other Way Out* provides a powerful explanation for the emergence of popular revolutionary movements and the occurrence of actual revolutions during the Cold War era. This sweeping study ranges from Southeast Asia in the 1940s and 1950s to Central America in the 1970s and 1980s, and Eastern Europe in 1989. Following in the state-centered tradition of Theda Skocpol's *States and Social Revolutions* and Jack Goldstone's *Revolutions and Rebellion in the Early Modern World*, Goodwin demonstrates how the actions of specific types of authoritarian regimes unwittingly channeled popular resistance into radical and often violent directions. Revolution became the only way out to use Trotsky's formulation for the opponents of these intransigent regimes. By comparing the historical trajectories of more than a dozen countries, Goodwin also shows how revolutionaries were sometimes able to create and not simply exploit opportunities for seizing state power.

Mixed Signals Kathryn A. Sikkink, 2018-09-05. Nowhere did two understandings of U.S. identity, human rights, and anticommunism come more in conflict with each other than they did in Latin America. To refocus U.S. policy on human rights and democracy required a rethinking of U.S. policy as a whole. It required policy makers to choose between policies designed to defeat communism at any cost and those that remain within the bounds of the rule of law. From the Introduction Kathryn Sikkink believes that the adoption of human rights policy represents a positive change in the relationship between the United States and Latin America. In *Mixed Signals* she traces a gradual but remarkable shift in U.S. foreign policy over the last generation. By the 1970s an unthinking anticommunist stance had tarnished the reputation of

the U S government throughout Latin America associating Washington with tyrannical and often brutally murderous regimes Sikkink recounts the reemergence of human rights as a substantive concern showing how external pressures from activist groups and the institution of a human rights bureau inside the State Department have combined to remake Washington s agenda and its image in Latin America The current war against terrorism Sikkink warns could repeat the mistakes of the past unless we insist that the struggle against terrorism be conducted with respect for human rights and the rule of law
