Months JAN 2021 TO APR 2022 Get Yours Now [Byzantium and Islam](#) Metropolitan Museum of Art (New York, N.Y.),2012
This magnificent volume explores the epochal transformations and unexpected continuities in the Byzantine Empire from the
7th to the 9th century At the beginning of the 7th century the Empire s southern provinces the vibrant diverse areas of North

Africa and the eastern Mediterranean were at the crossroads of exchanges reaching from Spain to China. These regions experienced historic upheavals when their Christian and Jewish communities encountered the emerging Islamic world and by the 9th century an unprecedented cross fertilization of cultures had taken place. This extraordinary age is brought vividly to life in insightful contributions by leading international scholars accompanied by sumptuous illustrations of the period's most notable arts and artifacts. Resplendent images of authority, religion and trade embodied in precious metals, brilliant textiles, fine ivories, elaborate mosaics, manuscripts and icons, many of them never before published, highlight the dynamic dialogue between the rich array of Byzantine styles and the newly forming Islamic aesthetic. With its masterful exploration of two centuries that would shape the emerging medieval world, this illuminating publication provides a unique interpretation of a period that still resonates today.
