International Relations Dr. Raghwendra Kishore,2021-09-11 The history of international relations is often traced back

to the Peace of Westphalia of 1648 where the modern state system was developed Prior to this the European medieval organization of political authority was based on a vaguely hierarchical religious order Westphalia instituted the legal concept of sovereignty which essentially meant that rulers or the legitimate sovereigns had no internal equals within a defined territory and no external superiors as the ultimate authority within the territory's sovereign borders A simple way to view this is that sovereignty says I'm not allowed to tell you what to do and you are not allowed to tell me what to do Classical Greek and Roman authority at times resembled the Westphalian system but both lacked the notion of sovereignty Westphalia encouraged the rise of the independent nation state the institutionalization of diplomacy and armies This particular European system was exported to the Americas Africa and Asia via colonialism and the standards of civilization The contemporary international system was finally established through decolonization during the Cold War However this is somewhat oversimplified While the nation state system is considered modern many states have not incorporated the system and are termed pre modern This book is an attempt in this direction and hope that will be useful to students academicians and researchers Contents Origin and Contemporary Relevance of the Cold War Nature of the Post Cold War Global Order Vietnam War and International Politics Discussion of Petroleum Supply's Relation to World Markets Afghan Civil War Gulf War Collapse of the Soviet Union Yugoslav Crisis
