Persian Gulf Arnold T. Wilson, 1991-06-01 **Britain and the Persian Gulf, 1894-1914** Briton Cooper Busch, *The Persian Gulf. An Historical Sketch from the Earliest Times to the Beginning of the Twentieth Century. With a Foreword by The Right Hon. L. S. Amery. Oxford, At the Clarendon Press, 1928* Arnold T. Wilson, 1928 *The Persian Gulf in Modern Times* L. Potter, 2014-12-16 This book explores the historiography ports and peoples of the Persian Gulf over the past two centuries offering a more inclusive history of the region than previously available Restoring the history of minority communities which until now have been silenced the book provides a corrective to the official story put forward by modern states The Iran-UAE Gulf Islands Dispute Charles L.O. Buder, Luciana T. Ricart, 2018-05-15 In *The Iran UAE Gulf Islands Dispute* Charles Buder and Luciana Ricart take the reader on a journey through centuries of Gulf history and evolving principles of international law on territorial disputes to reach conclusions over the rightful sovereign of three Gulf islands Abu Musa and the Tunbs claimed by both Iran and the United Arab Emirates Drawing on a wide range of scholarly works and archival documents from sources as diverse as the Dutch East India Company the Ottoman Empire and the British Government Buder and Ricart analyze historical events from antiquity up to modern times Ultimately the authors reach conclusions on the ownership of the islands under international law which challenge the positions of both parties *China's Foreign Policy in the Arab World, 1955-75* Hashim S.H. Behbehani, 2020-09-10 China's foreign policy in the Arab world is important because it reflects China's general foreign policy In this study first published in 1981 the author draws upon a wealth of previously unpublished and inaccessible material to analyse Chinese attitudes in three cases the two Arab liberation movements the Palestine Resistance Movement and the Popular Front for the Liberation of the Oman and the established and independent State of Kuwait Since the Arab liberation movements played a significant political role within their fields of operation it was necessary for China to decide whether these movements did actually fit in with Chinese foreign policy objectives Dr Behbehani's analysis of these two case studies provides the basis for a discussion of whether China's motives in supporting the liberation movements are theoretical or purely practical China's support for Kuwait's political internal continuity is related to the stability of the whole Gulf region The author analyses Chinese support for Kuwait and the surrounding conservative states on two main bases political and economic in the form of trade It is through these channels particularly the economic one that China has sought to establish itself in the Gulf and the Arabian peninsula

The Thousand and One Borders of Iran Fariba Adelkhah, 2015-09-16 A country marked by controversy Iran's social cultural and political dynamics are too often reduced to a few misleading clichés Islamism is widely considered to shape all social relations in Iranian society and while Iranian society is indeed Islamic this term's multiple meanings in everyday life and practices go far beyond the naïve and monolithic idea we are used to *The Thousand and One Borders of Iran* analyses travel as a social practice exploring how diasporas margins and so called peripheries are central in the construction of a

national identity and thus revealing the complexities of Iranian history and society Written by a leading anthropologist it draws upon fieldwork carried out in Iran and Iranian migrant communities across Dubai Tokyo and Los Angeles from 1998 to 2015 While casting new perspectives on the place of transnational relations in an increasingly globalized world this work also sheds new light on the evolution of Iranian society countering the explanation furnished by nationalist ideology that has been reproduced by the Islamic Republic itself Its unique approach to the analysis of Iranian society through the theme of travel and borders considers the links and even the quarrels between the centre of Iranian society and the periphery and the foreign elements that have contributed to society s development Travel is key to these interactions and following the travels of merchants and workers students or the faithful elected officials and experts or exiles and refugees this book offers an anthropological study of travel that re thinks Iranian history and national identity This book would be of interest to students and scholars of Iranian Studies Middle Eastern Studies and Anthropology

From Empire to Orient Geoffrey Nash, 2005-07-27 From Empire to Orient offers an alternative perspective on Britain s late imperial period by looking at the lives and the writings of the men who chose to defy the conventional social and political attitudes of the British ruling classes towards the Near East Between the Greek revolt in 1830 and the fall of the Caliphate in 1924 a different kind of voice was heard that was both anti imperialist and pro Islamic Geoffrey Nash places David Urquhart s passionate belief in the ideal of municipal government in Turkey W S Blunt s enthusiasm for the Egyptian reformers of the Azhar E G Browne s zeal for the Persian revolution and Marmaduke Pickthall s pained advocacy of the cause of the Young Turks into their political and historical context and into the context of their writings The author argues that the actions of these men represented a distinctive identification with the Islamic world and of the involvement of the West in its politics By condemning Britain s manoeuvres and choice of allies in the Near East each of these writers embellished a narrative of betrayal and a breach with the British educated classes view of the Islamic East Through the lives and writings of these men who identified so passionately with the Islamic world Nash offers a fascinating perspective on Britain s late imperial period

Medical English as a Lingua Franca M. Gregory Tweedie, Robert C. Johnson, 2022-02-21 In this first book length treatment of MELF the authors assert that MELF represents an important contribution to our understanding of English as a Lingua Franca ELF in that existing ELF research has been limited to relatively low stakes communicative situations such as interactions in business academia internet blogging or casual conversations Medical contexts in contrast often represent situations calling for exceptional communicative precision and urgency Providing both evidence from their own research and analysis from the limited number of existing studies the authors offer a counterpoint to the optimism regarding communicative success prevalent in ELF The

book proposes a theoretical perspective on how the various features of healthcare communication serve as important variables in shaping interaction among speakers of ELF further enlarging our understanding of this emerging sub field

Britain in the Middle East Robert T. Harrison, 2016-05-05 Britain in the Middle East provides a comprehensive survey of British involvement in the Middle East exploring their mutual construction and influence across the entire historical sweep of their relationship In the 17th century Britain was establishing trade links in the Middle East using its position in India to increasingly exclude other European powers Over the coming centuries this commercial influence developed into political power and finally formal empire as the British sought to control their regional hegemony through military force Robert Harrison charts this relationship exploring how the Middle East served as the launchpad for British offensive action in the World Wars and how resentment against colonial rule in the region led ultimately to political and Islamic revolutions and Britain's demise as a global imperial power

In the Name of the Battle against Piracy ,2018-03-12 In the Name of the Battle against Piracy discusses antipiracy campaigns in Europe and Asia in the 16th 19th centuries Nine contributors argue how important antipiracy campaigns were for the establishment of a colonial state because piracy was a threat not only to maritime commerce but also to its sovereignty Battle against piracy offered a good reason for a state to claim its authority as the sole protector of people and to establish peace order and sovereignty In fact as the contributors explain the story was not that simple because states sometimes attempted to make economic and political use of piracy while private interests were strongly involved in antipiracy politics State formation processes were not clearly separated from non state elements Contributors are Kudo Akihito Satsuma Shinsuke Suzuki Hideaki Lakshmi Sabramanian Ota Atsushi James Francis Warren Fujita Tatsuo Murakami Ei and Toyooka Yasufumi
