Persistence Of Romanticism:

The Persistence of Romanticism Richard Eldridge, 2001-02-05 These challenging essays defend Romanticism against its critics. They argue that Romantic thought interpreted as the pursuit of freedom in concrete contexts remains a central and exemplary form of both artistic work and philosophical understanding. Richard Eldridge traces the central features of Romantic thinking and shows that Romanticism is neither emptily literary and escapist nor dogmatically optimistic and sentimental. The first serious philosophical defense of the ethical ideals of Romanticism, this volume will appeal particularly to all professionals and students in philosophy, literature, and aesthetics.

The Persistence of Romanticism Richard Eldridge, 2001-02-05 This volume, first published in 2001, argues that Romantic thought remains central to both artistic work and philosophical understanding.

The Relevance of Romanticism Dalia Nassar, 2014-03-03 Since the early 1990s there has been a resurgence of interest in philosophy between Kant and Hegel and in early German romanticism in particular. Philosophers have come to recognize that in spite of significant differences between the contemporary and romantic contexts, romanticism continues to persist and the questions which the romantics raised remain relevant today. *The Relevance of Romanticism: Essays on Early German Romantic Philosophy* is the first collection of essays that offers an in-depth analysis of the reasons why philosophers are and should be concerned with romanticism. Through historical and systematic reconstructions, the collection offers a deeper understanding and more encompassing picture of romanticism as a philosophical movement than has been presented thus far and explicates the role that romanticism plays or can play in contemporary philosophical debates. The volume includes essays by a number of preeminent international scholars and philosophers: Karl Ameriks, Frederick Beiser, Richard Eldridge, Michael Forster, Manfred Frank, Jane Kneller, and Paul Redding, who discuss the nature of philosophical romanticism and its potential to address contemporary questions and concerns. Through contributions from established and emerging philosophers discussing key romantic themes and concerns, the volume highlights the diversity both within romantic thought and its contemporary reception. Part One consists of the first published encounter between Manfred Frank and Frederick Beiser in which the two major scholars directly discuss their vastly differing interpretations of philosophical romanticism. Part Two draws significant connections between romantic conceptions of history, sociability, hermeneutics, and education and explores the ways in which these views can illuminate pressing questions in contemporary social, political, philosophy, and theories of interpretation. Part Three consists of some of the most innovative takes on romantic aesthetics which seek to bring romantic thought into dialogue with, for instance, contemporary analytic aesthetics and theories of cognition and mind. The final part offers one of the few rigorous engagements with romantic conceptions of science and demonstrates ways in which the romantic views of nature, scientific experimentation, and mathematics need not be relegated to historical curiosities.

Romanticism and Postmodernism Edward Larrissy, 1999-08-28 The persistence of Romantic thought and literary practice into the late twentieth century is evident in many contexts from

the philosophical and ideological abstractions of literary theory to the thematic and formal preoccupations of contemporary fiction and poetry Though the precise meaning of the Romantic legacy is contested it remains stubbornly difficult to move beyond This collection of essays by prominent critics and literary theorists was first published in 1999 and explores the continuing impact of Romanticism on a variety of authors and genres including John Barth William Gibson and John Ashbery while writers from the Romantic and Victorian period include Wordsworth Byron and Emily Bront Many critics have assumed that the forms and modes of feeling associated with the Romantic period continued to influence the cultural history of the first half of the twentieth century This was the first book to consider the mutual impact of postmodernism and Romanticism

Romanticism and Aesthetic Life in Postcolonial Writing Philip Dickinson, 2018-02-08 This book explores Romanticism as a force that exerts an insistent but critically neglected pressure on the postcolonial imagination From the decolonizing poetics of the Caribbean to the white writing of South Africa from the aesthetics of post imperial disappointment to postcolonial theory itself it develops an account of the textual and philosophical interpenetration of postcolonial aesthetics with Romantic ideas about sense history and world What emerges is a reading of Romantic postcolonial co involvement that moves beyond well worn models of intercanonical antagonism and the historicizing biases of conventional literary history Caught somewhere between the effects of reanimation and estrangement Romanticism appears here not as a stable textual repository prior to the postcolonial but as echo spectre self interruption or vital force that can yet only emerge in the guise of the afterlife its agency mediated but never exhausted by postcolonial writing

Richard Rorty and the Problem of Postmodern Experience Tobias Timm, 2019-07-05 Richard Rorty perhaps the most important philosopher of the past century refused to write meaningfully about experience due to his postmodern inclination to associate experience with a belief in objectivity and foundational truths Richard Rorty and the Problem of Postmodern Experience A Reconstruction explores the context reasoning and

consequences of this resistance While for much of our history experience was valued for its potential to teach us about the world Rorty and his fellow postmodern thinkers encouraged us to doubt the narrative that we can use experience to make epistemological progress Rather than pursue universal truths about the world Rorty suggested that we recognize all of our beliefs about the world as being social constructions In his project to recover a concept of experience from within the framework Rorty has constructed Tobias Timm describes how classical pragmatist theories of experience are naïve about the problem of foundationalism He also explains how the most common phenomenological work lacks an active subject experience here is simply something that happens to us rather than something we actively seek to improve Timm demonstrates that despite Rorty's insistence that we talk about language instead of experience there are strong experiential elements in his work Rorty's romanticism and his optimism about the accomplishments of western culture are remedial to the pessimism of postmodern discussions about experience *Romantic Presences in the Twentieth Century* Mark

Sandy, 2016-04-08 Concerned with the intermingled thematic and formal preoccupations of Romantic thought and literary practice in works by twentieth century British Irish and American artists this collection examines the complicated legacy of Romanticism in twentieth century novels poetry and film Even as key twentieth century cultural movements have tried to subvert or debunk Romantic narratives of redemptive nature individualism perfectibility and the transcendence of art the forms and modes of feeling associated with the Romantic period continue to exert a signal influence on the modern moment both as a source of tension and as creative stimulus As the essays here show the exact meaning of the Romantic bequest may be bitterly contested but it has been difficult to leave behind The contributors take up a wide range of authors including Virginia Woolf F Scott Fitzgerald W H Auden Doris Lessing Seamus Heaney Hart Crane William Faulkner Don DeLillo and Jonathan Franzen What emerges from this lively volume is a fuller picture of the persistence and variety of the Romantic period's influence on the twentieth century **Romanticism and Time** Sophie Laniel-Musitelli, Céline Sabiron, 2021-03-10

Eternity is in love with the productions of time This original edited volume takes William Blake's aphorism as a basis to explore how British Romantic literature creates its own sense of time It considers Romantic poetry as embedded in and reflecting on the march of time regarding it not merely as a reaction to the course of events between the late eighteenth and mid nineteenth centuries but also as a form of creative engagement with history in the making The authors offer a comprehensive overview of the question of time from a literary perspective applying a diverse range of critical approaches to Romantic authors from William Blake and Percy Shelley to John Clare and Samuel Rodgers Close readings uncover fresh insights into these authors and their works including *Frankenstein* the most familiar of Romantic texts Revising current thinking about periodisation the authors explore how the Romantic poetics of time bears witness to the ruptures and dislocations at work within chronological time They consider an array of topics such as ecological time futurity operative time or the temporality of Venice As well as surveying the Romantic canon's evolution over time these essays approach it as a

phenomenon unfolding across national borders Romantic authors are compared with American or European counterparts including Beethoven Irving Nietzsche and Beckett Romanticism and Time will be of great value to literary scholars and students working in Romantic Studies It will be of further interest to philosophers and historians working on the connections between philosophy history and literature during the nineteenth century **Dishonest to God** Mary Warnock, 2010-02-09 Here is a pugnacious book by a philosopher who often hits the headlines The book reflects on the nature of religion and how it relates or ought to relate to the rest of life Many people today are totally indifferent to religion but religion is far from dead Indeed religions are intensely defended and aggressively pursued Religion is a cause for dissension and death This is beyond dispute Mary Warnock is concerned with Christianity She argues that to value religion as the essential foundation of morality is a profound and probably dangerous mistake Warnock's overriding purpose is to prise apart religion and morality Judges for example are constantly being asked to pass judgement on moral issues in court Because of The Human Rights Act the law perforce is involved Morality is therefore increasingly a public and not just a private matter This book attempts to clarify the foundation of morality in a society largely indifferent to and ignorant of religion Religion nevertheless emerges as a source of deep and unique imaginative experience *Romantic Poetry* Angela Esterhammer, 2002-06-04 Romantic Poetry encompasses twenty seven new essays by prominent scholars on the influences and interrelations among Romantic movements throughout Europe and the Americas It provides an expansive overview of eighteenth and nineteenth century poetry in the European languages The essays take account of interrelated currents in American Argentinian Brazilian Bulgarian Canadian Caribbean Chilean Colombian Croatian Czech Danish English Estonian Finnish French German Greek Hungarian Irish Italian Mexican Norwegian Peruvian Polish Romanian Russian Serbian Slovak Spanish Swedish and Uruguayan literature Contributors adopt different models for comparative study tracing a theme or motif through several literatures developing innovative models of transnational influence studying the role of Romantic poetry in socio political developments or focusing on an issue that appears most prominently in one national literature yet is illuminated by the international context This collaborative volume provides an invaluable resource for students of comparative literature and Romanticism SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining

cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age

Australian Poetry Paul Kane, 1996-01-01 This book offers a comprehensive and original reading of Australian poetry from the colonial period to the present through the dual lenses of Romanticism and negativity Paul Kane argues that the absence of Romanticism functions as a crucial presence in the poetry of all the major Australian poets This absence or negativity is both thematic and structural and Kane's scrupulous analyses uncover important relations between Romanticism and negativity Chapters on nine individual poets explore and substantiate the theoretical claims informed by the work of contemporary critics of Romanticism and by various philosophers of negativity These chapters can serve as a series of self contained readings of Australian poets for the use of students scholars and informed general readers Australian Poetry is unique in its sustained argument and theoretical sophistication

Melancholic Freedom David Kyuman Kim, 2007-06-25 Why does agency the capacity to make choices and to act in the world matter to us Why is it meaningful that our intentions have effects in the world that they reflect our sense of identity that they embody what we value What kinds of motivations are available for political agency and judgment in an age that lacks the enthusiasm associated with the great emancipatory movements for civil rights and gender equality What are the conditions for the possibility of being an effective agent when the meaning of democracy has become less transparent David Kyuman Kim addresses these crucial questions by uncovering the political moral philosophical and religious dimensions of human agency Kim treats agency as a form of religious experience that reflects implicit and explicit notions of the good Of particular concern are the moral political and religious motivations that underpin an understanding of agency as meaningful action Through a critical engagement with the

work of theorists such as Judith Butler Charles Taylor and Stanley Cavell Kim argues that late modern and postmodern agency is found most effectively at work in what he calls projects of regenerating agency or critical and strategic responses to loss Agency as melancholic freedom begins and endures Kim maintains through the moral and psychic losses associated with a broad range of experiences including the moral identities shaped by secularized modernity and the multifold forms of alienation experienced by those who suffer the indignities of racial gender class and sexuality discrimination and oppression Kim calls for renewing the sense of urgency in our political and moral engagements by seeing agency as a vocation where the aspiration for self transformation and the human need for hope are fundamental concerns *The Creativity Complex*
