Person And Society:

Person, Society and Value Paulina Taboada, K.F. Cuddeback, P. Donohue-White, 2013-03-14 Besides offering a critical analysis of the WHO definition and a review of both ancient and contemporary conceptions of health the cooperative effort of physicians and philosophers presented in this book works through the challenges which any definition of health faces if it is to be both truly personalist and at the same time operational The overall purpose of this book is to capture the essentials of human health and to propose the outlines for a personalist understanding of this concept i e a conception that does justice to the personal nature of human beings by introducing dimensions that are essential to personal life and well being such as the realms of rationality affectivity and freedom the realms of meaning values morality and spirituality the realms of social and interpersonal relations

Justice, Society and Nature Brendan Gleeson, Nicholas Low, 2002-09-11 Justice Society and Nature examines the moral response which the world must make to the ecological crisis if there is to be real change in the global society and economy to favour ecological integrity From its base in the idea of the self through principles of political justice to the justice of global institutions the authors trace the layered structure of the philosophy of justice as it applies to environmental and ecological issues Philosophical ideas are treated in a straightforward and easily understandable way with reference to practical examples Moving straight to the heart of pressing international and national concerns the authors explore the issues of environment and development fair treatment of humans and non humans and the justice of the social and economic systems which affect the health and safety of the peoples of the world Current grass roots concerns such as the environmental justice movement in the USA and the ethics of the international regulation of development are examined in depth The authors take debates beyond mere complaint about the injustice of the world economy and suggest what should now be done to do justice to nature
