Hans-Georg Moeller,Paul J. D'Ambrosio,2021-05-25 More and more we present ourselves and encounter others through profiles A profile shows us not as we are seen directly but how we are perceived by a broader public As we observe how others observe us we calibrate our self presentation accordingly Profile based identity is evident everywhere from pop culture to politics marketing to morality But all too often critics simply denounce this alleged superficiality in defense of some supposedly pure ideal of authentic or sincere expression This book argues that the profile marks an epochal shift in our concept of identity and demonstrates why that matters You and Your Profile blends social theory philosophy and cultural critique to unfold an exploration of the way we have come to experience the world Instead of polemicizing against the profile Hans Georg Moeller and Paul J D Ambrosio outline how it works how we readily apply it in our daily lives and how it shapes our values personally economically and ethically They develop a practical vocabulary of life in the digital age Informed by the Daoist tradition they suggest strategies for handling the pressure of social media by distancing oneself from one's public face A deft and wide ranging consideration of our era's identity crisis this book provides vital clues on how to stay sane in a time of proliferating profiles

*Anacarnation and Returning to the Lived Body with Richard Kearney* Brian Treanor, James L. Taylor, 2022-10-26 This edited collection responds to Richard Kearney's recent work on touch, excarnation and embodiment as well as his broader work in carnal hermeneutics which sets the stage for his return to and retrieval of the senses of the lived body Here fourteen scholars engage the breadth and depth of Kearney's work to illuminate our experience of the body The chapters collected within take up a wide variety of subjects from nature and non human animals to our experience of the sacred and the demonic and from art's account of touching to the political implications of various types of embodiment Featuring also an inspired new reflection from Kearney himself in which he lays out his vision for anacarnation this volume is an important statement about the centrality of touch and embodiment in our experience and a reminder that despite the excarnating tendencies of contemporary life the lived body remains a touchstone for wisdom in our increasingly complicated and fragile world Written for scholars and students interested in touch, embodiment, phenomenology and hermeneutics this diverse and challenging collection contributes to a growing field of scholarship that recognizes and attempts to correct the excarnating trends in philosophy and in culture at large

The True Story of Alice B. Toklas Anna Linzie, 2006-04 In this original and intriguing study Anna Linzie examines three mid twentieth century texts never before treated as interrelated in a book length work of literary criticism Gertrude Stein's *The Autobiography of Alice B. Toklas* 1933 and Alice B. Toklas's *The Alice B. Toklas Cookbook* 1954 and *What Is Remembered* 1963 Taking these three texts as intertexts or as an assemblage of the true story of Alice B. Toklas Linzie challenges assumptions about primary authorship and singular identity that have continued to limit lesbian and feminist rereadings of autobiography as a genre and of Stein and Toklas as writers and historical figures *The True Story of Alice B. Toklas* explores how the concept of autobiography as a primarily referential genre is challenged and transformed in relation to autobiographical texts written about the same person the same life but differently by different writers at different points in time The concept of one true story is deconstructed in the process as Linzie modifies Homi K. Bhabha's almost the same but not quite not white for the purposes of this particular study as almost the same but not quite

not straight The investigation moves simultaneously on the planes of textuality and sexuality in order to provisionally articulate a lesbian autobiographical subject in Linzie s reading of these three texts Linzie s study fills a gap in literary criticism where Stein s companion and her work have been more or less neglected conceptualizing the Stein Toklas sexual textual relationship as fundamentally reciprocal The True Story of Alice B Toklas provides a new critical perspective on Toklas as indispensable to Stein s literary production a cultural laborer in her own right and a writer of her own books Making a significant contribution to recent lesbian feminist reconceptualizations of the genre of autobiography this study will fascinate Stein and Toklas scholars as well as those interested in queer and autobiography studies

**The Routledge Handbook of Biopolitics** Sergei Prozorov,Simona Rentea,2016-08-05 The problematic of biopolitics has become increasingly important in the social sciences Inaugurated by Michel Foucault s genealogical research on the governance of sexuality crime and mental illness in modern Europe the research on biopolitics has developed into a broader interdisciplinary orientation addressing the rationalities of power over living beings in diverse spatial and temporal contexts The development of the research on biopolitics in recent years has been characterized by two tendencies the increasingly sophisticated theoretical engagement with the idea of power over and the government of life that both elaborated and challenged the Foucauldian canon e g the work of Giorgio Agamben Antonio Negri Roberto Esposito and Paolo Virno and the detailed and empirically rich investigation of the concrete aspects of the government of life in contemporary societies Unfortunately the two tendencies have often developed in isolation from each other resulting in the presence of at least two debates on biopolitics the historico philosophical and the empirical one This Handbook brings these two debates together combining theoretical sophistication and empirical rigour The volume is divided into five sections While the first two deal with the history of the concept and contemporary theoretical debates on it the remaining three comprise the prime sites of contemporary interdisciplinary research on biopolitics economy security and technology Featuring previously unpublished articles by the leading scholars in the field this wide ranging and accessible companion will both serve as an introduction to the diverse research on biopolitics for undergraduate students and appeal to more advanced audiences interested in the current state of the art in biopolitics studies

Kurki,Tomasz Pietrzykowski,2017-03-23 This edited work collates novel contributions on contemporary topics that are related to human rights The essays address analytic descriptive questions such as what legal personality actually means and normative questions such as who or what should be recognised as a legal person As is well known among jurists the law has a special conception of personhood corporations are persons whereas slaves have traditionally been considered property rather than persons This odd state of affairs has not garnered the interest of legal theorists for a while and the theory of legal personhood has been a relatively peripheral topic in jurisprudence for at least 50 years As readers will see there have recently been many developments and debates that justify a theoretical investigation of this topic Animal rights activists have been demanding that some animals be recognized as legal persons The field of robotics has prompted questions about driverless cars should they be granted a limited legal personality so that the car itself would be responsible for damages This book explores such concepts and touches on matters of bioethics animal law and medical law It includes matters of legal history and appeals to both legal scholars and philosophers especially those with an interest in theories of law and the philosophy of law      **Integrationism and the Self** Christopher Hutton,2019-04-10 In recent years a set of challenging questions have arisen in relation to the status of animals their treatment by human beings their cognitive abilities and the nature of their feelings emotions and capacity for suffering This ground breaking book draws from integrational semiology to investigate arguments around the rights of certain animals to be recognized as legal persons thereby granting them many of the protections enjoyed by humans In parallel with these debates the question of the legal personality of artificial intelligence AI systems has moved to the forefront of legal debate with entities such as robots cyborgs self driving cars and genetically engineered beings under consideration Integrationism offers a framework within which the wider theoretical and practical issues can be understood Law requires closure and categorical answers integrationism is an open ended form of inquiry that is seen as removed from particular controversies This book argues that the two domains can be brought together in a challenging and productive synthesis A much needed resource to examine the heart of this fascinating debate and a must read for anyone interested in semiology linguistics philosophy ethics and law The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license      *A Law Dictionary and Glossary* Alexander Mansfield Burrill,1871      **Levinas and the Other in Narratives of Facial Disfigurement** Gudrun Grabher,2019-04-30 Offering readings of a range of fictional and biographical texts including work by Richard Selzer Nathaniel Hawthorne Gaston Leroux Willa Cather Natalie Kusz and Lucy Grealy this book examines reactions to facially disfigured people on the basis of Emmanuel Levinas ethics of the face Drawing on Levinas concern with the holistic dimension of the face as an encounter with the other s whole person and the sense of moral obligation that this

instils in us a sense that disfigurement disrupts by drawing our attention to the disfigurement as a spectacle and threatening to limit our view of that individual the author explores how we react to the facially disfigured and how we ought to react
