Voices in Dementia Care William A. Haseltine, Anna Dirksen, 2020-01-07 Cognitive disorders take a toll on everyone the person living with the condition their family friends caregivers and the communities they live in Most of the public s interest has been in the medical research area for this devastating disease and advice is desperately needed from those who have created innovative solutions with their own first hand experience Voices in Dementia Care is based on a series of interviews with dementia care experts across Europe and the United States and with people living day to day with the condition It provides an intimate look at the challenges of delivering high quality dementia care with limited resources The book provides readers a list of best practices that can be adapted and applied in the home and in institutional settings Voices in Dementia Care is a must read for anyone caring for

loved ones with Alzheimer's dementia or other cognitive disorders

From Voices in Dementia Care In these pages we include transcripts of our interviews with the elder care and long term care providers we have interviewed about dementia care. The voices of these care professionals are important to hear in their entirety as they describe the nuances of the challenges inherent in delivering innovative high quality dementia care with limited resources. Based on our analysis of these interviews we have identified the critical best practices that we believe all elder and long term care providers should consider when delivering care to people living with dementia. These best practices can be adapted and applied by the informal caregiver as well the sister brother child or other loved one who may be responsible for caring for a person living with dementia outside of a traditional care environment.
