## **Person Place And World A Latemodern Reading Of Robert Frost:**

**Person, Place, and World** Steven Frattali, 2002 Robert Frost's writing is continually solicited by the complexity and interrogative nature of perception itself and constitutes an extended and nuanced demonstration of the perceptual life and its discovery and exploration of the world For this reason the concepts we find in phenomenology and in particular in the work of Maurice Merleau Ponty on the nature of perception and its broader ontological implications are particularly relevant for understanding this body of poetry **The Robert Frost Review**, 2004 **Names, Proverbs, Riddles, and Material Text in Robert Frost** Timothy O'Brien, 2010-06-15 This study examines several unexplored aspects of the poetry of Robert Frost one of the most widely read and studied American poets and shows how they contribute to the reader's experience and modernism in general *Canadian Books in Print. Author and Title Index*, 1975 *Robert Frost* Morris Dickstein, 2010 This title presents in depth critical discussions of his life and works Widely celebrated during his lifetime as the greatest living American poet Robert Frost remains one of the few poets whose work is enjoyed by scholars and general readers alike A record four time winner of the Pulitzer Prize who gave readings across America and in countries as far flung as England Brazil and Russia Frost is nevertheless known not as a cosmopolitan but as a plainspoken portraitist of rural New England Yet despite this reputation Frost is much more than a regional poet his wit irony and willingness to rest in ambiguity make him a poet of the cosmic and universal In the age of Ezra Pound and T S Eliot he stood alone in writing a poetry that was simultaneously accessible complex and profound Edited and with an introduction by Morris Dickstein Distinguished Professor of English at the Graduate Center of the City University of New York and senior fellow of the Center for the Humanities this volume in the Critical Insights series brings together a variety of critical perspectives on Frost's life and works For readers new to Frost four original essays provide valuable context for understanding and assessing his work Together they outline the work's historical and cultural contexts survey the major pieces of Frost criticism examine Frost's relationship with modernist poetics and consider how his use of paradox and contradiction participate in and differ from the use established by Whitman and Emerson Nine other previously published essays deepen readers understanding and offer a sampling of the key concerns of contemporary Frost critics Among these essays David Sanders draws on Frost's letters and interviews to understand how he developed his poetic voice from careful observation of his New England neighbors and how he sought to make these people visible within the growing mass culture of twentieth century America Roger Gilbert further examines Frost's poetics in his discussion of the recurrence of the trope of the walk in Frost's poetry concluding that for Frost the trope parallels the dynamic act of poetic composition Other essays examine Frost's politics with Frank Lentricchia considering how his poetry with its emphasis on replicating the rhythms of everyday speech rather than traditional conceptions of the literary gives evidence to the notion that poetics can be a register of social and political change and Tyler B Hoffman offering a unique reading of Frost's view of industrialism and the New Deal arguing that Frost was not the

archconservative that leftist critics have made him out to be but rather took a highly nuanced view of the poet's obligations to politics Jeff Westover extends this vein of criticism by dissecting Frost's nationalism and Robert Bernard Hass discusses how Frost's interest in science especially astronomy impacted the religious beliefs his mother inculcated in him as a child Uniquely this volume also contains an original piece by Paris Review contributor Elizabeth Gumpert who offers a writer's perspective on Frost's fierce independence Rounding out the collection is a brief biography and chronology of Frost's life and an extensive bibliography for readers wishing to study the poet's work in greater depth Each essay is 5 000 words in length and all essays conclude with a list of Works Cited along with endnotes

**The Re-Enchantment of the West** Christopher Partridge,2005-03-04 As a book about emergent spirituality in the contemporary West it focuses on the nature evolution and significance of new forms of religion and alternative spiritualities Part One of the book provides the theoretical background and guides the reader through some of the principal debates After an overview of the secularization thesis which argues that the West is becoming increasingly disenchanted the second chapter turns to the sociological analysis of new religions and alternative spiritualities Particular attention is given to the ideas of the sociologist of religion Ernst Troeltsch especially his enigmatic analysis of the emergence mystical religion which presciently provides helpful insights into understanding the contemporary alternative

religious milieu Against sociologists such as Bryan Wilson and Steve Bruce this and the subsequent chapter argues that rather than being insignificant new forms of spirituality are actually proving to be a significant part of Western re enchantment Chapter 3 constructs a general theory of the re enchantment of the West Chris Partridge argues that Western Society is permeated by a broad occulture by which he means a reservoir of ideas beliefs theories and practices to which new religions unorthodox spiritualities film and popular music all draw attention This re enchantment of the West should not be seen as a superficial secondary development in the shadow of Christianity In many ways it is a religious phenomenon in its own right Partridge s arguments in this regard are well put and I warmly welcome this timely book Mikhael Rothstein University of Copenhagen Denmark      **The Academy** ,1876      *The Collected Prose of Robert Frost* Robert Frost,2006

Robert Frost is one of the most widely read well loved and misunderstood of modern writers In his day he was also an inveterate note taker penning thousands of intense aphoristic thoughts observations and meditations in small pocket pads and school theme books throughout his life These notebooks transcribed and presented here in their entirety for the first time offer unprecedented insight into Frost s complex and often highly contradictory thinking about poetics politics education psychology science and religion his attitude toward Marxism the New Deal World War as well as Yeats Pound Santayana and William James Covering a period from the late 1890s to early 1960s the notebooks reveal the full range of the mind of one of America s greatest poets Their depth and complexity convey the restless and probing quality of his thought and show how the unruliness of chaotic modernity was always just beneath his appearance of supreme poetic control Edited and annotated by Robert Faggen the notebooks are cross referenced to mark thematic connections within these and Frost s other writings including his poetry letters and other prose This is a major new addition to the canon of Robert Frost s writings      North of Boston Robert Frost,2017-08-31      Roads Not Taken Earl J. Wilcox,Jonathan N. Barron,2000 In *Roads Not Taken* Earl J Wilcox and Jonathan N Barron bring a new freshness and depth to the study of one of America s greatest poets While some critics discounted Frost as a poet without technical skill rhetorical complexity or intellectual depth over the past decade scholars have begun to view Robert Frost s work from many new perspectives Critical hermeneutics cultural studies feminism postmodernism and textual editing all have had their impact on readings of the poet s life and work This collection of essays is the first to account for the variety of these new perceptions      **Robert Frost** Frank Lentricchia,1975

**Robert Frost** John H. Timmerman,2002 *Robert Frost The Ethics of Ambiguity* examines Frost s ethical positioning as a poet in the age of modernism The argument is that Frost constructs his poetry with deliberate formal ambiguity withholding clear resolutions from the reader Therefore the poem itself functions as metaphor inviting the reader into a participation in constructing meaning Furthermore the ambiguity of ethical positioning was intrinsic to Frost himself Nonetheless by holding his poetry up to several traditional ethical views Rationalist Theological Existentialist Deontological and Social Ethics one may define a congruent ethical pattern in both the poetry and the person      **A Divided Poet** David Sanders,2011 Frost s

breakthrough book of poetry seen anew as an artistic whole and in the context of the poet's career and development North of Boston Robert Frost's second book of verse and arguably his greatest brought him suddenly into national prominence in 1915 Though completed and first published in England in 1914 the book was rooted in the decade 1900-1910 that Frost spent in Derry New Hampshire where he witnessed the decline of its traditional farming culture In presenting this drama of disappearance twelve of the book's fifteen principal poems are literally dramatic composed mainly of direct dialogue Among them are three of Frost's most famous lyrics each featuring a signature task of New England life and underlining the book's tribute to a fading culture Collectively the poems bring the diction and tones of a New England vernacular within a traditional metric frame making music as Frost boasted from the sound of sense and poetry of a language absolutely unliterary Such adaptations of ordinary language and experience to blank verse drama made Frost a founder of American modernism and North of Boston one of its monuments Exploring Frost's complex connection to his poetic characters this study provides new readings of the individual poems and a new look at North of Boston's development To a degree no other study has done it addresses the book's design as an artistic whole while placing it in the context of Frost's unfolding career David Sanders is Professor Emeritus of English at St John Fisher College Rochester New York
