**Lex Charitatis** Johannes Heckel, 2010-04-08 This substantial work by one of Europe's most respected twentieth century legal minds unpacks Luther's doctrine of law showing how it derived from his central theological concern justification by faith When Johannes Heckel's *Lex Charitatis* appeared more than half a century ago it brought new clarity to the much disputed issue of Luther's understanding of the law and of God's governance of his created order The Wittenberg reformer's use of the language of two kingdoms and two governances is still fiercely debated having Heckel's work in English will assist scholars and students alike in putting Luther's insights to use in the context of twenty first century problems Robert Kolb Concordia Seminary

*Khunrath in Context* Vladimir Karpenko, Ivo Purš, Martin Žemla, 2024-12-23 The German physician alchemist kabbalist and theosopher Heinrich Khunrath ca 1560 1605 is one of the most remarkable figures in the intellectual history of the Renaissance His work combining text and images in a new way is a fusion of the contemporary currents of

thought in which alchemy went hand in hand with philosophy and Lutheran heterodox theology As a follower of Paracelsus Khunrath was in search of both the secrets of nature and the knowledge of God the theosophy **MN1 - Intermediate Speech Collection** Tomás Morales y Durán,2024-03-31 The Majjhima Nikaya abbreviated MN or Collection of the Buddha's Intermediate Discourses is a collection of 152 discourses in the Pali canon The word intermediate refers to the length of each individual discourse It contains a wide variety of teachings presented as narratives between the Buddha and a wide range of his contemporaries The collection parallels the Madhyama-gama MA of the Sarvastivada school which survives as a translation in the Chinese canon The Collection of the Buddha's Intermediate Discourses is the best known collection among the four Nikayas containing original suttas This popularity may be due to the fact that it mixes biographical anecdotes with very superficial doctrinal content as opposed to the Sautthantika Nikaya This Intermediate Collection contains scattered and undisguised apocryphal suttas of petty intentionality introduced very late which detracts from its luster and credibility However it is interesting to note the value of the biographical references for the sake of contextualizing the Buddha in the world in which he lived This first sub collection called The First Fifty contains fifty suttas and is divided into five chapters the Chapter on the Root of All Things the Chapter on the Roar of the Lion the Chapter on Similes the Chapter on Pairs and the Minor Chapter on Pairs We can highlight in this subcollection the suttas MN 4 Fear and Awe MN 26 The Noble Quest and MN 36 Great Discourse with Saccaka which refer to the way in which the Buddha became enlightened as well as autobiographical indications about his origin who he was and the reasons why he forbade being called by his name Also relevant are MN 10 The Four Instructions of Practice MN 16 Mental Obstructions and MN 17 The Thickness of the Jungle On the spurious side MN 20 How to Stop Thinking which exposes a false technique and also highlights the suttas MN43 and MN 44 which are anachronistic catechisms that seem to be made to explain doctrine in the form of questions and answers

**108 Buddhist Parables and Stories** Olga Gutsol,2019-12-24 This book is a collection of the most beloved stories teachings and parables attributed to Gautama Buddha enlightened teacher and sage who lived and taught in the northeastern part of ancient India Since the narrative of the Buddha's life was retold across cultures and across times it is only natural that the facts mingled with various legends and folk stories thus creating an invaluable source of wisdom that is not only inspirational but also utterly entertaining **Suicide: A Global Perspective** Maurizio Pompili,2012-09-19 In the year 2000 approximately one million people died from suicide a global mortality rate of 16 per 100 000 or one death every 40 seconds In the last 45 years suicide rates have increased by 60% worldwide Suicide is now among the three leading causes of death among those aged 15-44 years both sexes these figures do not include suicide attempts up to 20 times more frequent than completed suicide Suicide worldwide is estimated to represent 1.8% of the total global burden of disease in1998 and 2.4% in countries with market and former socialist economies in 2020 Although traditionally suicide rates have been highest among the male elderly rates among young people have been increasing to such an extent that they are now the group at

highest risk in a third of countries in both developed and developing countries Mental disorders particularly depression and substance abuse are associated with more than 90% of all cases of suicide however suicide results from many complex sociocultural factors and is more likely to occur particularly during periods of socioeconomic family and individual crisis situations e g loss of a loved one employment honour The economic costs associated with completed and attempted suicide are estimated to be in the billions of dollars One million lives lost each year are more than those lost from wars and murder annually in the world It is three times the catastrophic loss of life in the tsunami disaster in Asia in 2005 Every day of the year the number of suicides is equivalent to the number of lives lost in the attack on the World Trade Center Twin Towers on 9 11 in 2001 Everyone should be aware of the warning signs for suicide Someone threatening to hurt or kill him herself or taking of wanting to hurt or kill him herself someone looking for ways to kill him herself by seeking access to firearms available pills or other means someone talking or writing about death dying or suicide when these actions are out of the ordinary for the person Also high risk of suicide is generally associated with hopelessness rage uncontrolled anger seeking revenge acting reckless or engaging in risky activities seemingly without thinking feeling trapped like there s no way out increased alcohol or drug use withdrawing from friends family and society anxiety agitation unable to sleep or sleeping all the time dramatic mood changes no reason for living no sense of purpose in life Table 1 Understanding and helping the suicidal individual should be a task for all Suicide Myths How to Help the Suicidal Person Warning Signs of Suicide Myth Suicidal people just want to die Fact Most of the time suicidal people are torn between wanting to die and wanting to live Most suicidal individuals don t want death they just want to stoop the great psychological or emotional pain they are experiencing Listen Accept the person s feelings as they are Do not be afraid to talk about suicide directly Ask them if they developed a plan of suicide Expressing suicidal feelings or bringing up the topic of suicide Giving away prized possessions settling affairs making out a will Signs of depression loss of pleasure sad mood alterations in sleeping eating patterns feelings of hopelessness Myth People who commit suicide do not warn others Fact Eight out of every 10 people who kill themselves give definite clues to their intentions They leave numerous clues and warnings to others although clues may be non verbal or difficult to detect Remove lethal means for suicide from person s home Remind the person that depressed feelings do change with time Point out when death is chosen it is irreversible Change of behavior poor work or school performance Risk taking behaviors Increased use of alcohol or drugs Social isolation Developing a specific plan for suicide Myth People who talk about suicide are only trying to get attention They won t really do it Fact Few commit suicide without first letting someone know how they feel Those who are considering suicide give clues and warnings as a cry for help Over 70% who do threaten to commit suicide either make an attempt or complete the act Express your concern for the person Develop a plan for help with the person Seek outside emergency intervention at a hospital mental health clinic or call a suicide prevention center Myth Don t mention suicide to someone who s showing signs of depression It will plant the idea in

their minds and they will act on it Fact Many depressed people have already considered suicide as an option Discussing it openly helps the suicidal person sort through the problems and generally provides a sense of relief and understanding Suicide is preventable Most suicidal individuals desperately want to live they are just unable to see alternatives to their problems Most suicidal individuals give definite warnings of their suicidal intentions but others are either unaware of the significance of these warnings or do not know how to respond to them Talking about suicide does not cause someone to be suicidal on the contrary the individual feel relief and has the opportunity to experience an empathic contact Suicide profoundly affects individuals families workplaces neighbourhoods and societies The economic costs associated with suicide and self inflicted injuries are estimated to be in the billions of dollars Surviving family members not only suffer the trauma of losing a loved one to suicide and may themselves be at higher risk for suicide and emotional problems Mental pain is the basic ingredient of suicide Edwin Shneidman calls such pain psychache 1 meaning an ache in the psyche Shneidman suggested that the key questions to ask a suicidal person are Where do you hurt and How may I help you If the function of suicide is to put a stop to an unbearable flow of painful consciousness then it follows that the clinician s main task is to mollify that pain Shneidman 1 also pointed out that the main sources of psychological pain such as shame guilt rage loneliness hopelessness and so forth stem from frustrated or thwarted psychological needs These psychological needs include the need for achievement for affiliation for autonomy for counteraction for exhibition for nurturance for order and for understanding Shneidman 2 who is considered the father of suicidology has proposed the following definition of suicide Currently in the Western world suicide is a conscious act of self induced annihilation best understood as a multidimensional malaise in a needful individual who defines an issue for which the suicide is perceived as the best solution Shneidman has also suggested that that suicide is best understood not so much as a movement toward death as it is a movement away from something and that something is always the same intolerable emotion unendurable pain or unacceptable anguish Strategies involving restriction of access to common methods of suicide have proved to be effective in reducing suicide rates however there is a need to adopt multi sectoral approaches involving other levels of intervention and activities such as crisis centers There is compelling evidence indicating that adequate prevention and treatment of depression alcohol and substance abuse can reduce suicide rates School based interventions involving crisis management self esteem enhancement and the development of coping skills and healthy decision making have been demonstrated to reduce the risk of suicide among the youth Worldwide the prevention of suicide has not been adequately addressed due to basically a lack of awareness of suicide as a major problem and the taboo in many societies to discuss openly about it In fact only a few countries have included prevention of suicide among their priorities Reliability of suicide certification and reporting is an issue in great need of improvement It is clear that suicide prevention requires intervention also from outside the health sector and calls for an innovative comprehensive multi sectoral approach including both health and non health sectors e g education labour police

This volume brings together nineteen of Mark Siderits's most important essays on Buddhist philosophy Together they cover a wide range of topics from metaphysics logic philosophy of language epistemology and ethics to the specific discussions of the interaction between Buddhist and classical Indian philosophy Each of the essays is followed by a postscript that Siderits has written specifically for this volume The postscripts connect essays of the volume with each other show thematic interrelations and locate them relative to the development of Siderits's thought In addition they provide the opportunity to bring the discussion of the essays up to date by acquainting the reader with the development of research in the field since the publication of the essays Siderits's work is based on an investigation of Indian sources in their original language nevertheless the focus of the essays is primarily systematic not historical or philological The idea of fusion philosophy a term coined by Siderits embodies precisely the assumption that by bringing a Western and an Eastern tradition together both can benefit by

learning from each other about new ways of tackling old philosophical problems

The Way to Become a Person in Heaven While Living Woo Myung, 2024-08-31 The ultimate answer to the questions about the reason and purpose of our existence Why are we born into this world and what do we live for Teacher Woo Myung provides the answer to this deep question through his book The reason why humans are born is to achieve human completion and to become Truth It is not for the purpose of just making money or having a comfortable life In other words he is saying that one needs to know why he is born into this world and where he goes when he dies One has to live the life of Truth know the principle and meaning behind life and death Life of Truth is the life of great liberation without any concerns or worries It is the life lived following the flow of the universe just as nature does It is natural for anyone to have a wishful thinking about living such a life However if you are not able to achieve it in reality what use would it be Teacher Woo Myung talks about how to become a person in Heaven in this reality that we are living in at the moment while living He talks about living the life of nature s flow This is possible because even though we are currently living with stress having become enslaved to materials fame and desires our original self is nothing like this Which means that you can become a complete existence if you discard the self centered human mind and recover your true nature The ultimate happiness and life of Heaven can be achieved by becoming the mind of Truth while one is alive The author earnestly convey throughout the book that Heaven is not a place one goes to after death that one should go while living Such a level of consciousness cannot be understood from within human conceptions or knowledges not to mention one cannot reach that level It can only be achieved through the process of emptying the mind through self reflection and enlightenment With this method it is possible for everyone to achieve it regardless of their ethnicity level of knowledge or any other background Perhaps it was said that Truth is truly fair because this process that is taking place now is open to everyone The life that all humankind has been yearning and dreaming for is given to all of us who are living at this moment not just to a special someone in a distant future

**Masses and Man** George L. Mosse, 2024-06-25 In fourteen essays that speak to the full breadth of George L Mosse s intellectual horizons and scholarly legacy *Masses and Man* explores radical nationalism fascism and Jewish modernity in twentieth century Europe Breaking from the conventions of historical analysis Mosse shows that secular religions like fascism cannot be understood only as the products of socioeconomic or intellectual histories but rather must be approached first and foremost as cultural phenomena *Masses and Man* comprises three parts

The first lays out a cultural history of nationalism essentially the first of its kind emphasizing the importance of sacred expressions like myths symbols and rituals as appropriated in a political context The second zeroes in on fascism s most dramatic irruptions in European history in the rise of Italian Fascism and the Nazi Party in Germany elucidating these as not just political movements but also cultural and even aesthetic ones The third part considers nationalism and fascism from the particular standpoint of German Jews Taken in full the volume offers an eloquent summation of Mosse s groundbreaking insights into European nationalism fascism and Jewish history in the twentieth century A new critical introduction by Enzo Traverso helpfully situates Mosse s work in context and exposes the many ways in which Masses and Man first published in 1980 remains relevant today
