The Cambridge History of Latin American Literature Roberto Gonzalez Echevarría, Enrique Pupo-Walker, 1996-09-19

The Cambridge History of Latin American Literature is by far the most comprehensive work of its kind ever written. Its three volumes cover the whole sweep of Latin American literature including Brazilian from pre-Colombian times to the present and contain chapters on Latin American writing in the USA. Volume 3 is devoted partly to the history of Brazilian literature from the earliest writing through the colonial period and the Portuguese language traditions of the nineteenth and twentieth centuries and partly also to an extensive bibliographical section in which annotated reading lists relating to the chapters in all three volumes of The Cambridge History of Latin American Literature are presented. These bibliographies are a unique feature of the History further enhancing its immense value as a reference work. **Cuban American Theater** Rodolfo J.

Cortina, 1992-01-01 Cuban American Theater brings together six plays on the Cuban American experience. Here are presented dramatically the themes of exile, culture clash, the generation gap, and discrimination along with the full gamut of concerns about art, theatre, and life itself. The plays vary in format from conventional two-act realism to absurdist theatre and of course to Cuban musical farce, teatro bufo, which accounts for some of the humor and characterization. Professor Rodolfo J. Cortina has provided an introduction to situate this theatrical production within an historical and aesthetic context. In all respects linguistic, artistic, and philosophical, Cuban American Theater is the first of its kind, a truly historical and ground-breaking document. **Gestos**, 2004 **Reimagining the Caribbean** Valérie K. Orlando, Sandra Cypess, 2014-07-01 This volume brings together scholars working in different languages: Creole, French, English, Spanish, and modes of cultural production: literature, art, film, music, to suggest how best to model courses that impart the rich, vibrant, and multivalent aspects of the Caribbean in the classroom. Essays focus on discussing how best to cross languages, histories, and modes of discourse. Instead of relying on available paradigms that depend on Western ways of thinking, the essays recommend methods to develop a pan-Caribbean perspective in relation to notions of the self, uses of language, gender hierarchies, and ideas of nationhood. Contributors represent various disciplines, work in one of the several languages of the Caribbean, and offer essays that reflect different cadres of expertise.
