new interpretations of Heidegger's philosophical method in light of 20th century postmodernism and 21st century speculative realism. In doing so it raises important questions about philosophical method in the age of global warming and climate change. Vincent Blok addresses topics that have yet to be extensively discussed in Heidegger scholarship including Heidegger's method of questioning the religious character of Heidegger's philosophical method and Heidegger's conceptualization of philosophical method as explorative confrontation. He is also critical of Heidegger's conceptuality and develops a post-Heideggerian concept of philosophical method which provides a new perspective on the role of willing poetry and earth interest in contemporary philosophy. This earth interest turns out to be particularly important to consider and leads to critical reflections on Heidegger's concept of Earth, the necessity of Earth interest in contemporary philosophy and a post-Heideggerian concept of the Earth. Heidegger's Concept of Philosophical Method will be of interest primarily to Heidegger scholars and graduate students but its discussion of philosophical method and environmental philosophy will also appeal to scholars in other disciplines and areas of philosophy.

Heidegger's Poetic Projection of Being Marius Johan Geertsema, 2018-06-06. This book investigates the relationship between poetry and ontology in the works of Martin Heidegger. It explains the way in which Heidegger's dialogue with poetry forms an essential step on the path of overcoming metaphysics and thinking the openness of presence. Heidegger's engagement with poetry is an important moment in the development of his philosophy or rather thinking of Being. Being speaks itself poetically in his view. Rather than a logician or a thinker, Being is the first poet.

Christian Mysticism and Incarnational Theology Louise Nelstrop, Simon D. Podmore, 2016-05-23. This book examines the relationship between transcendence and immanence within Christian mystical and apophatic writings. Original essays from a range of leading established and emerging scholars in the field focus on the roles of language, signs and images and consider how mystical theology might contribute to contemporary reflection on the Word incarnate. This collection of essays re-examines works from such canonical figures as Eckhart, Augustine, Plotinus, Pseudo-Dionysius, Nicolas of Cusa, Teresa of Avila, John of the Cross, Julian of Norwich along with the philosophical thought of Iris Murdoch, Jacques Lacan and Martin Heidegger and the contemporary phenomena of the Emerging Church. Presenting new readings of key ideas in mystical theology and renewed engagement with the visionary and the everyday, the therapeutic and the transformative, these essays question how we might think about what may lie between transcendence and immanence.

The Aesthetic State Josef Chytrý, 2024-07-26. Shortly after the middle of the eighteenth century a number of thinkers from the German-speaking lands began to create a paradigm drawn from their impressions of a distant historical reality: ancient Athens. Added to it was a new mode of thought: modern dialectics, and at times even paid homage to the ancient Greek deity Dionysos to materialize their longing for an ideal. The influence of these forces came to permeate modern German consciousness, deifying the concept and activity of art, reviving the Platonic and Sanskrit vision of the cosmos as play and aesthetic creation and projecting a way of life and labor that would honor not the commodity but the aesthetic product. With

rigorous commitment to primary sources and an unflagging critical engagement with the ideas and concrete situations they raise Josef Chytrý provides a comprehensive and extensive study of this central motif in German thought from Winckelmann to Marcuse Chytrý takes aesthetic state to signify the concentrated modern intellectual movement to revitalize the radical Hellenic tradition of the polis as the site of a beautiful or good life The movement begins with the classicism of Winckelmann Wiemar aesthetic humanism Wieland Herder Goethe and Schiller's formal theory of the aesthetic state and continues through the idealism of the Swabian dialecticians Holderlin Hegel and Schelling and the realism of Marx Wagner and Nietzsche It culminates in the postrealism of Heidegger Marcuse and the aesthetic modernist artist Walter Spies who initiated a dialogue with the non Western theatre state of the isle of Bali Josef Chytrý concludes that the future speculation on the ideal of an aesthetic state must come to terms with the postrealist themes of ontological anarchy aesthetic ethos and theatre state In a bold effort to stimulate such speculation Chytrý indicates how proponents of the aesthetic state might join forces with Rawlsian political theory to promote further the organon of persuasion that in his view serves as the common fount for the ancient dialectical and contractarian quests for the polis This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989

The Fate of the Self
Stanley Corngold, 1994 Much recent critical theory has dismissed or failed to take seriously the question of the self French theorists such as Derrida Barthes Benveniste Foucault Lacan and Lévi Strauss have in various ways proclaimed the death of the subject often turning to German intellectual tradition to authorize their views Stanley Corngold's heralded book *The Fate of the Self* published for the first time in paperback with a spirited new preface appears at a time when the relationship between the self and literature is a matter of renewed concern Originally published in 1986 Columbia University Press the book examines the poetic self of German intellectual tradition in light of recent French and American critical theory Focusing on seven major German writers Holderlin Dilthey Nietzsche Mann Kafka Freud and Heidegger Corngold shows that their work does not support the desire to discredit the self as an origin of meaning and value but reconstructs the allegedly fragmented poetic self through effects of position and style Offering new and subtle models of selfhood *The Fate of the Self* is a source of rich insight into the work of these authors refracted through poststructuralist critical perspectives

Life as Art
Zachary Simpson, 2012-09-27 *Life as Art* brings the resources of contemporary aesthetics since Nietzsche to bear on the problems of how one integrates the aesthetic emphases of meaning liberation and creativity into one's daily life By linking together the aesthetic and ethical accounts of critical theorists phenomenologists and existentialists into a coherent view on the artful life *Life as Art* shows the ways in which much of contemporary Continental theory has been concerned with alternative ways of constructing one's own life Seen as a unified phenomenon life as art signifies an active attempt to create

a life which bears the resistance openness and creativity found in artworks **Dionysus Reborn** Mihai Spariosu, 2019-06-30

Mihai Spariosu here explores the significance of the closely linked concepts of play and aestheticism in philosophical and scientific discourse since the end of the eighteenth century Spariosu points out that since its birth in archaic and classical Hellenic thought the concept of play has always been subject to the influences of various rational and prerational sets of values Spariosu maintains that there have been not one but two major modern concepts of aestheticism artistic aestheticism related to a prerational mentality and introduced in modern thought by Schopenhauer and Nietzsche and philosophical scientific aestheticism initiated by Kant and Schiller and shaped by rationalism According to Spariosu the first has often arisen in response to the attempts of philosophy and science to impose their standards on art and the second has often been called on to deal with the epistemological crises that periodically shake these disciplines Spariosu also looks closely at some of the play concepts that surface in modern science in connection with the Darwinian theory of evolution and the play of scientific discourse itself as exemplified by the new physics and the contemporary philosophy of science A penetrating and cogently argued book **Dionysus Reborn** will be welcomed by readers interested in Continental philosophy scientific discourse and the aesthetics of play including literary theorists comparatists philosophers intellectual historians and social scientists **Interpreting Interpretation** William Elford Rogers, 2010-11-01 **Historical Dictionary of Heidegger's Philosophy** Frank Schalow, Alfred Denker, 2010-08-20

By the time Martin Heidegger passed away on May 26th 1976 he had become the most important and controversial philosopher of his age While many of his former students had become important philosophers and thinkers in their own right Heidegger also inspired countless others like Jacques Derrida Michel Foucault and Jean Paul Sartre The second edition of the **Historical Dictionary of Heidegger's Philosophy** is an historical perspective on the development of Heidegger's thought in all its nuances and facets Schalow and Denker cast light on the historical influences that shaped the thinker and his time through a chronology an introductory essay a bibliography appendixes that include German and Greek to English glossaries of terms and a complete listing of Heidegger's writings lectures courses and seminars and a cross referenced dictionary section offering over 600 entries on concepts people works and technical terms This volume is an invaluable resource for student and scholar alike **Literature and Philosophy** D.
