Psychology Of The Criminal Act And Punishment:

The Psychology of the Criminal Act and Punishment Gregory Zilboorg, 1955 **The Psychology of the Criminal Act and Punishment by Gregory Zilboorg, M.D.** Fredric Wertham, 1955 Punishment And Culture María José Falcón y Tella, Fernando Falcón y Tella, 2006 This volume critically explores the basis and the goal of punishment from the standpoint of the right to punish The work reviews the main doctrines that have dealt with the theme of punishment from Antiquity to the present not limiting itself to the legal philosophical sphere but also analyzing the contributions from other social sciences It then explores how these are reflected in the sphere of Positive Law *Imposition of Capital Punishment* United States. Congress. Senate. Committee on the Judiciary, 1973 **Punishment and Desert** J. Kleinig, 2012-12-06 Superficial acquaintance with the literature on punishment leaves a fairly definite impression There are two approaches to punishment retributive and utilitarian and while some attempts may be made to reconcile them it is the former rather than the latter which requires the reconciliation Taken by itself the retributive approach is primitive and unenlightened falling short of the rational civilized humanitarian values which we have now acquired Certainly this is the dominant impression left by popular discussions of the Subject And retributive vs utilitarian seems to be the mould in which most philosophical discussions are cast The issues are far more complex than this Punishment may be considered in a great variety of contexts legal educational parental theological informal etc and in each of these contexts several important moral questions arise Approaches which see only a simple choice between retributivism and utilitarianism tend to obscure this variety and plurality But even more seriously the distinction between retributivism and utilitarianism is far from clear That it reflects the traditional distinction between deontological and teleological approaches to ethics serves to transfer rather than to resolve the uncertainty Usually it is said that retributive approaches seek to justify acts by reference to features which are intrinsic to them whereas utilitarian approaches appeal to the consequences of such acts This however makes assumptions about the individuation of acts which are difficult to justify **Hearings, Reports and Prints of the Senate Committee on the Judiciary** United States. Congress. Senate. Committee on the Judiciary, 1971 *Selected Philosophical and Methodological Papers* Paul Everett Meehl, 1991 The scope and imagination of Meehl's emeritus of psychology psychiatry and philosophy at the U of Minnesota and cofounder of the Minnesota Center for Philosophy of Science work are revealed in this collection of previously published essays as he explores the mind body problem freedom and determinism psychoanalytic explanation theory appraisal moral aspects of insanity and the law and precognitive telepathy Annotation copyrighted by Book News Inc Portland OR **Punishment and Modern Society** David Garland, 2024-05-31 In this path breaking book David Garland argues that punishment is a complex social institution that affects both social relations and cultural meanings Drawing on theorists from Durkheim to Foucault he insightfully critiques the entire spectrum of social thought concerning punishment and reworks it into a new interpretive synthesis Punishment and Modern Society is an outstanding delineation of the

sociology of punishment At last the process that is surely the heart and soul of criminology and perhaps of sociology as well punishment has been rescued from the fringes of these disciplines This book is a first class piece of scholarship Graeme Newman Contemporary Sociology Garland s treatment of the theorists he draws upon is erudite faithful and constructive Punishment and Modern Society is a magnificent example of working social theory John R Sutton American Journal of Sociology Punishment and Modern Society lifts contemporary penal issues from the mundane and narrow contours within which they are so often discussed and relocates them at the forefront of public policy This book will become a landmark study Andrew Rutherford Legal Studies This is a superbly intelligent study Its comprehensive coverage makes it a genuine review of the field Its scholarship and incisiveness of judgment will make it a constant reference work for the initiated and its concluding theoretical synthesis will make it a challenge and inspiration for those undertaking research and writing on the subject As a state of the art account it is unlikely to be bettered for many a year Rod Morgan British Journal of Criminology Winner of both the Outstanding Scholarship Award of the Crime and Delinquency Division of the Society for the Study of Social Problems and the Distinguished Scholar Award from the American Sociological Association s Crime Law and Deviance Section **ABA Journal** ,1955-12 The ABA Journal serves the legal profession Qualified recipients are lawyers and judges law students law librarians and associate members of the American Bar Association **Library Book Catalog** United States. Smart on Crime Garrick L. Percival,2015-07-28 The most punitive era in American history reached its apex in the 1990s but the trend has reversed in recent years Smart on Crime The Struggle to Build a Better American Penal System examines the factors causing this dramatic turnaround It relates and echoes the increasing need and desire on the part of actors in the American government system to construct a penal system that is more rational and humane Author Garrick L Percival points out that the prison boom did not naturally emerge as a governmental response to increasing crime rates Instead political forces actively built and shaped the growth of a more aggressive and populated penal system He is optimistic that the shifting political forces surrounding crime and punishment can now reform the system explaining how current political actors can craft more constructive and just policies and programs The book shows how rationality and humanitarianism lead to a penal system that imprisons fewer people does less harm to the lives of individual offenders and those close to them and is less expensive to maintain The book presents empirical data to concretely demonstrate what is working and what is not in today's penal system It closely examines policies and practices in Texas Ohio and California as comparative illustrations on what progress has been made or needs to be made in penal systems across the United States The book includes a comprehensive discussion of highlighted issues and relates more than two dozen interviews with pivotal political actors who clarify why there is a major shift underway in the American penal system Their insights reveal paths that can be taken to improve the current penal system
