Renewal Of Literature Emersonian Reflect:

Emerson's Sublime Science E. Wilson, 1999-02-02 Emerson's Sublime Science explores relationships among Emerson's poetics theory of the sublime and engagement with electromagnetism The book illustrates how Davy's chemistry and Faraday's physics revealed to Emerson a sublime universe in which matter is boundless electrical force It argues that Emerson translated this discovery into a sublime writing style crafted to galvanize readers with the insight that matter is energy In illuminating Emerson's project this study also uncovers connections among British Romanticism American Romanticism and nineteenth century science Nineteenth Century Prose ,1988 **The Arnoldian** ,1990 **Emerson's Liberalism** Neal Dolan, 2009-07-14 Emerson's Liberalism explains why Ralph Waldo Emerson has been and remains the central literary voice of American culture he gave ever fresh and lasting expression to its most fundamental and widely shared liberal values Liberalism after all is more than a political philosophy it is a form of civilization a set of values a culture a way of representing and living in the world This book makes explicit what has long been implicit in America's embrace of Emerson Neal Dolan offers the first comprehensive and historically informed exposition of all of Ralph Waldo Emerson's writings as a contribution to the theory and practice of liberal culture Rather than projecting twentieth century viewpoints onto the past he restores Emerson's great body of work to the classical liberal contexts that most decisively shaped its general political cultural outlook the libertarian liberalism of John Locke the Scottish Enlightenment the American founders and the American Whigs In addition to in depth consideration of Emerson's journals and lectures Dolan provides original commentary on many of Emerson's most celebrated published works including Nature the Divinity School Address History Compensation Experience the political addresses of the early 1840s An Address on The Emancipation of the Negroes in the British West Indies Representative Men English Traits and The Conduct of Life He considers Emerson's distinctive elaborations of foundational liberal values progress reason work property limited government rights civil society liberty commerce and empiricism And he argues that Emerson's ideas are a morally bracing and spiritually inspiring resource for the ongoing sustenance of American culture and civilization reminding us of the depth breadth and strength of our common liberal inheritance **Revisionary Interventions Into the Americanist Canon** Donald E. Pease, 1994-06-17 Throughout the era of the Cold War a consensus reigned as to what constituted the great works of American literature Yet as scholars have increasingly shown and as this volume unmistakably demonstrates that consensus was built upon the repression of the voices and historical contexts of subordinated social groups as well as literary works themselves works both outside and within the traditional canon This book is an effort to recover those lost voices Engaging New Historicist neo Marxist poststructuralist and other literary practices this volume marks important shifts in the organizing principles and self understanding of the field of American Studies Originally published as a special issue of boundary 2 the essays gathered here discuss writers as diverse as Kate Chopin Frederick Douglass Emerson Melville W D Howells Henry James W E B DuBois and Mark Twain plus

the historical figure John Brown Two major sections devoted to the theory of romance and to cultural historical analyses emphasize the political perspective of New Americanist literary and cultural study Contributors William E Cain Wai chee Dimock Howard Horwitz Gregory S Jay Steven Mailloux John McWilliams Susan Mizruchi Donald E Pease Ivy Schweitzer Priscilla Wald Michael Warner Robert Weimann **On Leaving** Branka Arsić, 2010-04-15 Arsi unpacks Ralph Waldo Emerson's repeated assertion that our reality and our minds are in constant flux Her readings of a broad range of Emerson's writings are guided by a central question what does it really mean to maintain that everything fluctuates is relational and so changes its identity Grand Street, 1987 **The Other Emerson** Branka Arsić, Cary Wolfe, Stanley Cavell,

Practices of Surprise in American Literature after Emerson Kate Stanley, 2018-07-19 This book establishes surprise as a key Emersonian affect and demonstrates its significance for transatlantic modernism and the philosophy of pragmatism

Emerson's Pragmatic Vision David Jacobson, 2010-11-01 Negative Liberties Cyrus R. K. Patell, 2001-05-28 A revisionary view of the history of liberalism in the USA and an assessment of its viability in the present **Transatlantic Transcendentalism** Samantha C Harvey, 2016-06-30 This new study argues that Coleridge was so influential in America because he provided a framework for American intellectuals to address one of the great questions of European Romanticism what is the relationship between the Romantic triad of nature spirit Feminist Conversations Christina Zwarg, 2018-05-31 In a new account of the relationship between Margaret Fuller and Ralph Waldo Emerson Christina Zwarg recreates a feminist conversation that has gone unheard In Zwarg's view the intimate yet restrained letters between the two writers are most significant in confronting the challenges posed by gender and desire Focusing on their exploration of Charles Fourier's utopianism and particularly his concept of passionate attraction Zwarg offers the only detailed reading of Emerson's letters to Fuller **The Ethics of William Carlos Williams's Poetry** Ian D. Copestake, 2010 The poet as an inheritor of an

Emersonian tradition and Paterson as an ethical autobiography in progress *Liberty of the Imagination* Edward Cahill, 2012-07-24 In *Liberty of the Imagination* Edward Cahill uncovers the surprisingly powerful impact of eighteenth century theories of the imagination philosophical ideas about aesthetic pleasure taste genius the beautiful and the sublime on American writing from the Revolutionary era to the early nineteenth century Far from being too busy with politics and commerce or too anxious about the morality of pleasure American writers consistently turned to ideas of the imagination in order to comprehend natural and artistic objects social formations and political institutions Cahill argues that conceptual tensions within aesthetic theory rendered it an evocative language for describing the challenges of American political liberty and confronting the many contradictions of nation formation His analyses reveal the centrality of aesthetics to key political debates during the colonial crisis the Revolution Constitutional ratification and the advent of Jeffersonian democracy Exploring the relevance of aesthetic ideas to a range of literary genres poetry novels political writing natural history writing and literary criticism Cahill makes illuminating connections between intellectual and political history and the idiosyncratic

formal tendencies of early national texts In doing so *Liberty of the Imagination* manifests the linguistic and intellectual richness of an underappreciated literary tradition and offers an original account of the continuity between Revolutionary writing and nineteenth century literary romanticism

From Emerson to King Anita Haya Patterson, 1997-06-26 This book traces a provocative line from Emerson's work on race reform and identity to work by three influential African American thinkers W E B Du Bois Martin Luther King Jr and Cornel West each of whom offers subtle engagement with both the tradition of written protest and the critique of liberalism Emerson shaped Emerson has been cast in recent debate as either an antinomian or an ideologue as either subversive of institutional controls or indebted to capitalism Here Patterson contributes a more nuanced view probing Emerson's record and its cultural and historical matrix to document a fundamental rhetoric of contradiction a strategic aligning of opposed political concepts that enabled him to both affirm and critique elements of the liberal democratic model Drawing richly on topics in political philosophy law religion and cultural history Patterson examines the nature and implications of Emerson's contradictory rhetoric in parts I and II In part III she considers Emerson's legacy from the perspective of African American intellectual history identifying fresh continuities and crucial discontinuities between the canonical strain of protest writing Emerson helped establish and African American literary and philosophical traditions

Coming Too Late Andrew Barnaby, 2017-06-29 Rethinks the significance of the son's relationship to his father for Freud's psychoanalytic theory Aiming to reconceptualize some of Freud's earliest psychoanalytic thinking Andrew Barnaby's *Coming Too Late* argues that what Freud understood as the fundamental psychoanalytic relationship a son's ambivalent relationship to his father is governed not by the sexual rivalry of the Oedipus complex but by the existential predicament of belatedness Analyzing the rhetorical tensions of Freud's writing Barnaby shows that filial ambivalence derives particularly from the son's vexed relation to a paternal origin he can never claim as his own Barnaby also demonstrates how Freud at once grasped and failed to grasp the formative nature of the son's crisis of coming after a duality marked especially in Freud's readings and misreadings of a series of precursor texts the biblical stories of Moses Shakespeare's Hamlet E T A Hoffmann's *The Sandman* that often anticipate the very insights that the Oedipal model at once reveals and conceals Reinterpreting Freudian psychoanalysis through the lens of Freud's own acts of interpretation *Coming Too Late* further aims to consider just what is at stake in the foundational relationship between psychoanalysis and literature

The Revival of Pragmatism Morris

Dickstein, 1998-11-23 An assessment by a distinguished panel of experts on the impact of pragmatism on contemporary thought **A Critical History of the New American Studies, 1970-1990** Günter H. Lenz, 2016-12-06 Starting in 2005 Gunter H Lenz began preparing a book length exploration of the transformation of the field of American Studies in the crucial years between 1970 and 1990 As a commentator on contributor to and participant in the intellectual and institutional changes in his field Lenz was well situated to offer a comprehensive and balanced interpretation of that seminal era Building on essays he wrote while these changes were ongoing he shows how the revolution in theory the emergence of postmodern socioeconomic conditions the increasing globalization of everyday life and postcolonial responses to continuing and new forms of colonial domination had transformed American Studies as a discipline focused on the distinctive qualities of the United States to a field encompassing the many different Americas in the Western Hemisphere as well as how this complex region influenced and was interpreted by the rest of the world In tracking the shift of American Studies from its exceptionalist bias to its unmanageable global responsibilities Lenz shows the crucial roles played by the 1930s Left in the U S the Frankfurt School in Germany and elsewhere between 1930 and 1960 Continental post structuralism neo Marxism and post colonialism Lenz s friends and colleagues now his editors present here his final backward glance at a critical period in American Studies and the birth of the Transnational
