Religious Education in the Small

Membership Church Dr. Nancy T. Foltz, 2013-08-01 RELIGIOUS EDUCATION IN THE SMALL MEMBERSHIP CHURCH is a comprehensive resource aimed at making religious education more effective all along the line in small churches From a living ecology of solid theory and proven research this book develops exciting possibilities and helpful procedures to maximize religious education opportunities in small church settings Packaged with this volume is a huge wall chart summarizing highly important information on religious education in small membership churches *To Raise Up the South* Sally G.

McMillen, 2001-12-01 In the half century after the Civil War evangelical southerners turned increasingly to Sunday schools as a means of rejuvenating their destitute region and adjusting to an ever modernizing world By educating children and later adults in Sunday school and exposing them to Christian teachings biblical truths and exemplary behavior southerners felt certain that a better world would emerge and cast aside the death and destruction wrought by the Civil War In *To Raise Up the South* Sally G. McMillen offers an examination of Sunday schools in seven black and white denominations and reveals their vital role in the larger quest for southern redemption McMillen begins by explaining how the schools were established detailing northern missionaries collaboration in their creation and the eventual southern resistance to this northern aid She then turns to the classroom discussing the roles of church officials teachers ministers and parents in the effort to raise pious children the different functions of men and women and the social benefits of such participation Though denominations of both races saw Sunday schools as a way to increase their numbers and mold their children white southerners rarely raised the race issue in the classroom Black evangelicals on the other hand used their Sunday schools to discuss and decry Jim Crow laws rising violence and widespread injustices Integrating the study of race class gender and religion *To Raise Up the South* provides an exciting new lens through which to view the turbulent years of Reconstruction and the emergence of the New South It charts the rise of an institution that became a mainstay in the lives of millions of southerners *Adolescent*

Catechesis Catholic Church. United States Conference of Catholic Bishops, 2003 This collection of scholarly and thought provoking articles drawn from the interdisciplinary journal *The Living Light* focuses on current topics in adolescent catechesis *Basics of Christian Education* Karen Tye, 2000-01-01 Congregations are always struggling with what quality Christian education is and how to build and maintain it In this concise and easy to use guide Karen Tye offers practical help addressing the vital areas that need attention when planning for and building a Christian education program Questions and exercises at the end of each chapter help pastors Christian educators seminary students and laity apply the information to their own unique setting building on the basics to renew and transform Christian education *The Art of Connectivity*

Melvin Markell McPhearson, 2011-06-24 *The Art of Connectivity* A Call to Unity Within a Diverse Society *The Art of Connectivity* is an attempt to unite the disconnected If we are connected holistically and know what we have been called or

created to do then we may map out our lives and take the appropriate detours when obstacles are placed in our paths If we are living with undefined directions and focus we may become lost unstable or unable to move ahead when a detour or obstacle is placed in our paths Individually we must see and embrace positive visions We must avert negativity and recover holistically from obstacles in our paths and together we can will make a difference Connectivity is mapping your life backward and securing direction and re direction throughout your life journeys Connectivity is staying in your lane at times or crossing and eradicating negative and chaotic lines Connectivity is helping others after you have helped yourself or found help from the hands of another It is helping oneself and opening doors so others may be helped An essential focus of this writing is connecting and evangelizing the local community through Christian educational methodologies to eradicate minimize negativity and embrace unity This enlightenment will be accomplished through active participation in the learning experiences that causes one to delve within the teachings of those who have lived and died so all people can live together in unity while embracing theirs and others cultural values The positive counteractions are primarily the responsibility of the individual to accept and implement but it is also a shared responsibility This shared responsibility must be conveyed and put into action by any positive or holistic means necessary to assist the self negated to be connected and productive members of society Just as so many pull together and work together during a major disaster for the good for all concerned we must see the signs of destruction in others and we must help rescue those who desire to be rescued African Americans and all ethnicities must delve into the educational process and search for biblical and secular educational truth In finding truth we will know without a doubt who we are and whence we came according to not only stories and fables which have been handed down from generation to generation but according to biblical and secular education as well That which leads one to disconnect ones self ones heritage and ones faith practices manifests itself amidst a psychological enslavement of ones mental factors Negative behavior is associated with a negative self identity Every dark and chaotic circumstance needs a torch bearer to give light to their dark situations if they are to make it successful in life We must move forward to unveil positive countermeasures to deter negative behaviors and actions Western psychologists are concerned with how each of us differs from the other The Ancients on the other hand looked at the essence of sameness When we realize it is in our sameness as children of God we are given a royal positioning as joint heirs with Christ We will love our Creator ourselves and others M M McPhearson June 2011 **Volunteers for Today's Church** Dennis E. Williams, Kenneth O. Gangel, 2004-04-08 Too often the same few faithful people end up volunteering their services in the church while the majority seems content to watch the action or lack thereof from the sidelines But there is hope for leaders who find themselves in this situation Volunteers for Today s Church shows ministry leaders how to motivate the stand by crowd to start playing the game And although just getting players to sign up is a major task seasoned coaches know that this is just the beginning Determining the strengths of each volunteer is crucial for a strong team Dennis Williams and Kenneth Gangel here provide practical advice on

Equipping the Saints Sara Covin Juengst, 1998-01-01 Sara Covin Juengst believes that Protestant churches have failed to provide the church teacher with basic knowledge about the Bible theology and doctrine Because the quality of religious education is determined by the quality of its teachers religious illiteracy has soared Juengst proposes an innovative teacher training course and provides plans for teaching biblical background basic beliefs and teaching techniques

"Education Has Nothing to Do with Theology" Edward J. Newell, 2006-08-01 Does education have any relation to theology How do the educator's worldview commitments speak to his or her practice of education James Michael Lee brought a definite answer to these questions a firm no to the relations question and an advocacy for empirical findings over and against any speculative or theoretical positions in reply to the commitments question Lee claimed to have a universal neutral metatheory for all religious education a theory that would apply to all religious educators in any and every religion But in proposing his theory he overlooked the way that empirical facts express worldviews This book is a detective story tracing commitments that lay underneath empirical neutrality In the process the reader will see avenues that unmistakably link education to theology Education turns out to be a thoroughly worldview conditioned process This new work is essential reading for professors and students in both religious and general education

Creative Bible Teaching Lawrence O. Richards, Gary J. Bredfeldt, 2020-08-04 Bring the Bible to Your Students like Never Before Communicating the Scriptures is much like building a bridge However instead of ravines or rivers the teacher must span both cultural boundaries and great gulfs of time between the present and the pasts of Moses David Jesus and Paul Though God's Word is always relevant the teacher must help students see Scripture's vast treasures The effective engaging Bible teacher must therefore become creative Together Lawrence Richards and Gary Bredfeldt have created the ultimate guide to building bridges for those seeking to learn about God's Word Creative Bible Teaching offers a five step process by which Christian educators can construct a bridge across time geography and culture to help students of all ages connect with God's Word This newly revised edition makes learning about God's Word more accessible for both teachers and students today Simple clear and memorable the method laid out in Creative Bible Teaching provides a sure fire way of communicating God's Word in a way that sticks

When I Was a Child Susan B. Ridgely, 2006-05-18 First Communion is generally understood as a rite of passage in which seven and eight year old Catholic children transform from baptized participants in the Church to

members of the body of Christ the universal Catholic Church This official Church account however ignores what the rite actually may mean to its participants In *When I Was a Child* Susan Ridgely Bales demonstrates that the accepted understanding of a religious ritual can shift dramatically when one considers the often neglected perspective of child participants Bales followed Faith Formation classes and interviewed communicants parents and priests in an African American parish and in a parish containing both white and Latino congregations By letting the children speak for themselves through their words drawings and actions *When I Was a Child* stresses the importance of rehearsal the centrality of sensory experiences and the impact of expectations in the communicants interpretations of the Eucharist In the first sustained ethnographic study of how children interpret and help shape their own faith Bales finds that children s perspectives give new contours to the traditional understanding of a common religious ritual Ultimately she argues that scholars of religion should consider age as distinct a factor as race class and gender in their analyses

The Holy Spirit in Christian Education Sylvia Lee, 1988 *The Churching of America, 1776-1990* Roger Finke, Rodney Stark, 1992 Impressive bound to generate lively discussion and not a little controversy within the nation s church community

Encyclopedia of Christianity in the United States George Thomas Kurian, Mark A. Lamport, 2016-11-10 From the Founding Fathers through the present Christianity has exercised powerful influence in the United States from its role in shaping politics and social institutions to its hand in inspiring art and culture The Encyclopedia of Christianity in the United States outlines the myriad roles Christianity has played and continues to play This masterful five volume reference work includes biographies of major figures in the Christian church in the United States influential religious documents and Supreme Court decisions and information on

The Churching of America, 1776-2005 Roger Finke, Rodney Stark, 2005-03-03 Although many Americans assume that religious participation has declined in America Finke and Stark present a different picture In 1776 fewer than 1 in 5 Americans were active in church affairs Today church membership includes about 6 out of 10 people But as Finke and Stark show not all denominations benefited They explain how and why the early nineteenth century churches began their descent while two newcomer sects the Baptists and the Methodists gained ground They also analyze why the Methodists then began a long downward slide why the Baptists continued to succeed how the Catholic Church met the competition of ardent Protestant missionaries and why the Catholic commitment has declined since Vatican II The authors also explain why ecumenical movements always fail In short Americans are not abandoning religion they have been moving away from established denominations A church sect process is always under way Finke and Stark argue as successful churches lose their organizational vigor and are replaced by less worldly groups Some observers assert that the rise in churching rates indicates increased participation not increased belief Finke and Stark challenge this as well They find that those groups that have gained the greatest numbers have demanded that their followers accept traditional doctrines and otherworldliness They argue that religious organizations can thrive only when they comfort souls and demand sacrifice When theology becomes too logical or too secular it loses people
