xico **Mapping Mass Mobilization** O. Onuch,2014-12-09 Through a paired comparison of two moments of mass mobilization in Ukraine and Argentina focusing on the role of different actors involved this text maps out a multi layered sequence of events leading up to mass mobilization **Middle Class Pentecostalism in Argentina** Jens Köhrsen,2016-04-08 In Middle Class Pentecostalism in Argentina Inappropriate Spirits Jens Köhrsen offers an intriguing account of how the middle class relates to Latin America's most vibrant religious movement Based on pervasive field research this study suggests that Pentecostalism stands in tension with the social imaginary of the middle class and is perceived as an inappropriate lower class practice As such middle class Pentecostals negotiate the appropriateness of their religious belonging by demonstrating distinctive tastes and styles of Pentecostalism Abstaining from the expressiveness emotionality and strong spiritual practice that have marked the movement they create a milder and socially more acceptable form of Pentecostalism Increasingly turning into a middle class movement this style has the potential to embody the future shape of Pentecostalism *Argentina's Right-Wing Universe During the Democratic Period (1983-2023)* Gisela Pereyra Doval,Gastón Souroujon,2023-12-01 Argentina's Right Wing Universe During the Democratic Period provides a comprehensive analysis of the course of right wing politics in the country in the last 40 years In 1983 after the fall of a violent military regime Argentina began the longest period of democratic stability in its history 40 years marked by economic institutional social and political crises This book examines the trajectory of the different right wing organisations and ideological developments during these years seeking to understand both the distinctions and the continuities that lie beneath its metamorphoses Argentina has always acted as a laboratory in which to appreciate how the major problems and questions that concern those who have studied the right wing in recent decades are translated into a particular political culture In an international scenario marked by the social and political growth of different right wing movements some of which pose a threat to liberal democracies the study of the Argentine case can provide greater clarity and a different perspective on problems that transcend this specific national case This book will be of interest to scholars of Argentinian and Latin American politics and history as well as specialists on the comparative politics of the radical right **Argentina's Radical Party and Popular Mobilization, 1916-1930** Joel Horowitz,2010-11-01 **Repensar la Revolución Mexicana (volumen I)** Alan Knight,2014-03-07 El autor de esta antología se ha dedicado al estudio de la Revolución mexicana desde hace más de treinta años su investigación principal es el ya clásico libro The Mexican Revolution que después fue publicado en español como La Revolución Mexicana Sus ensayos se caracterizan por ser textos breves llenos de contenido Los artículos compilados tratan de la formación del nuevo Estado los esfuerzos y las resistencias para reformar la sociedad mexicana así como las repercusiones de los conflictos consecuentes Repensar La Agenda 2030. Tendencias de sostenibilidad Juan Carlos Neri Guzmán,Patricia Rivera Acosta,2024-04-03 Los principales retos que la humanidad tiene que atender de manera prioritaria para asegurar que la vida en el planeta pueda mantenerse en las condiciones que actualmente tenemos o incluso mejorarla

los ha identificado bien la Organización de las Naciones Unidas ONU a través de la Agenda 2030 la cual si bien es una propuesta con objetivos y metas a nivel internacional representa un reto mayor cuando depende de una gran cantidad de países y actores empresas gobiernos y organizaciones sociales con características necesidades y prioridades diferenciadas Asimismo es importante reconocer que para aspirar al éxito de este tipo de iniciativas es menester contar con una infraestructura de apoyo directa económica e institucional para llevar los objetivos a buen término La misma ONU ha reconocido que será imposible cumplir con las metas e indicadores definidos para el año 2030 por lo que es inminente su actualización con una perspectiva hacia el 2050 No obstante la principal amenaza será superar la disposición de los países instituciones y de infraestructura de soporte que haga viable esta transición hacia nuevas prácticas de convivencia que hagan del desarrollo social y económico un modelo que permita a su vez mejorar la calidad de vida de las personas el medio ambiente y la preservación de los ecosistemas Esta obra avanza en reconocer que es posible avanzar hacia una sociedad más sostenible resiliente y que una alternativa es consolidar una cultura de respeto por la humanidad y el medio ambiente por lo cual presenta algunas prácticas que realizan diferentes actores en México y que inciden de manera positiva para avanzar en alguno de los objetivos y sus metas desde lo local reconociendo que la difusión de esta cultura tendrá efectos indirectos hacia otros actores que podrán replicarlas e iniciar otras nuevas diferentes y con mayor alcance DOI <https://doi.org/10.52501/cc064>

Volume 2 of 6 of the complete premium print version of journal forum for inter american research fiar which is the official electronic journal of the International Association of Inter American Studies IAS fiar was established by the American Studies Program at Bielefeld University in 2008 We foster a dialogic and interdisciplinary approach to the study of the Americas fiar is a peer reviewed online journal Articles in this journal undergo a double blind review process and are published in English French Portuguese and Spanish Repensar América Latina Francisco Delich,2018-06-19 Han transcurrido veinte a os de democracia en Am rica latina El continente ha devenido una regi n alfabetizada y urbana En el curso de pocas d cadas la mayor parte de su poblaci n se traslad del campo a la ciudad Se trata entonces de una regi n en plena modernizaci n No obstante la brecha entre ricos y pobres es cada vez m s acentuada la distribuci n del ingreso es la m s desigual del planeta La

expectativa de vida se duplicó en el siglo pero las condiciones de subsistencia de los ancianos se han deteriorado y los jóvenes emigran. Por primera vez en 500 años América Latina expulsa población. Las Ciencias Sociales deberían brindarnos herramientas para articular este dispar estado de cosas en una reflexión que busque transformarlo. Sin embargo, sus paradigmas explicativos predominantes fueron erosionados a un punto que compromete la confianza en su utilidad. Este desgaste es consecuencia en algunos casos de la evolución imprevisible de pueblos y sociedades y en otros de sus propias inconsistencias. En este contexto, Francisco Delich propone repensar América Latina como una manera de repensar las propias Ciencias Sociales. Ello exige una relectura de los clásicos de la sociología histórica desde Tockville hasta Barrington Moore. Pasando por Marx, Weber y Polanyi, el autor recupera a un olvidado Simmel y se afirma en la teoría de los campos de Pierre Bourdieu para presentar su marco conceptual articulado capaz de organizar un mapa cognitivo diferente de América Latina.

Repensar México, 2012 **Argentina's Partisan Past** Michael Goebel, 2011-01-01 Argentina's Partisan Past is a challenging new study about the production, spread and use of national history and identity for political purposes in twentieth century Argentina. Based on extensive study of primary and published sources, it analyzes how nationalist views about what it meant to be Argentine were built into the country's long protracted crisis of liberal democracy from the 1930s to the 1980s. Eschewing the notion of any straightforward relationship between cultural customs and political practices, the study seeks instead to provide a more nuanced framework for understanding the interplay between politics and narratives about national history. The book is a valuable resource to both students of Argentine history and those interested in the ways in which nationalism has shaped our contemporary world. **Ciencias sociales y religión en América Latina** Ronan Alves Pereira, María Julia Carozzi, César Ceriani Cernadas, 2007 *Repensar Barcelona* Josep M Montaner Martorell, 2004-12-31

Human Rights of Women Rebecca J. Cook, 2012-03-10 Rebecca J Cook and the contributors to this volume seek to analyze how international human rights law applies specifically to women in various cultures worldwide and to develop strategies to promote equitable application of human rights law at the international, regional and domestic levels. Their essays present a compelling mixture of reports and case studies from various regions in the world combined with scholarly assessments of international law as these rights specifically apply to women.
