

EL SALVADOR 2020 HUMAN RIGHTS REPORT

EXECUTIVE SUMMARY

El Salvador is a constitutional multiparty republic with a democratically elected government. In February 2019 voters elected Nayib Bukele as president for a five-year term. The election was generally free and fair, according to international observers. Free and fair municipal and legislative elections took place in 2018.

The National Civilian Police, overseen by the Ministry of Justice and Public Security, is responsible for maintaining public security. The Ministry of Defense is responsible for maintaining national security. Although the constitution separates public security and military functions, it allows the president to use the armed forces “in exceptional circumstances” to maintain internal peace and public security “when all other measures have been exhausted.” The military is responsible for securing international borders and conducting joint patrols with the civilian police. In November 2019 President Bukele signed a decree authorizing military involvement in police duties. The decree, in effect until December 31, authorizes the military under National Civilian Police control to identify areas with the highest incidence of crime to target peacekeeping operations; conduct joint patrols with police to prevent, deter, and apprehend members of organized crime and common crime networks; carry out searches of individuals, vehicles, and property; help persons in cases of accidents or emergencies; make arrests and hand over detainees to police; prevent illegal trafficking of goods and persons at unauthorized national borders; strengthen perimeter security at prisons and other detention centers and schools; and provide land, sea, and air support to police. Civilian authorities at times did not maintain effective control over security forces. Members of the security forces committed some abuses. On February 9, the executive branch used security forces to attempt to interfere with the independence of the legislature.

Significant human rights issues included: allegations of unlawful killings of suspected gang members and others by security forces; forced disappearances by military personnel; torture and cases of cruel, inhuman, or degrading treatment or punishment by security forces; harsh and life-threatening prison conditions; arbitrary arrest and detention; serious problems with the independence of the judiciary; serious restrictions on free expression and the press; serious acts of government corruption; lack of consistent investigation and accountability for violence against women; and crimes involving violence by security forces against lesbian, gay, bisexual, transgender, and intersex individuals.

violence Truth Recovery and Transitional Justice considers the case studies of Spain and Cyprus and explores three interrelated issues First the book examines which factors can explain prolonged silence on the issue of missing persons in transitional settings It then goes on to explore the transformation of victims groups from opponents of truth recovery to vocal pro reconciliation pressure groups and examines the circumstances in which it is better to tie victims rights to an overall political settlement Finally the author goes on to compare Spain and Cyprus with Greece a country that remains resistant to post transitional justice norms This book will be of interest to students of transitional justice human rights peace and conflict studies and security studies in general American Foreign Policy ,1985

The United Nations Special Procedures System Aoife Nolan,Rosa Freedman,Thérèse Murphy,2017-01-09 The United Nations Special Procedures system is a key element of the evolving international framework for human rights protection and promotion However despite the system s expansion the range of roles and functions performed by mandate holders and the mounting evidence of its strengths and limitations there has been very little academic interrogation or analysis of Special Procedures This lacuna is ever more problematic given the growing profile and effectiveness of the Special Procedures work as well as the increasing attention and challenges that they face both externally from States and internally from within the UN system Given the current state of play of Special Procedures it is essential that scholarly attention be focussed upon the system How does it contribute to international human rights protection How when and why does it fail to do so What steps can and should be taken to address shortcomings both within the system and in terms of the legal and political context within which it operates Featuring expert contributions from key players within and expert commentators on the Special Procedures system this volume addresses these questions in an in depth and rigorous scholarly manner
