Report on the Second Half of the Twentieth Century Ken Norris, 1977 **Report on the Second Half of the Twentieth Century** Ken Norris, 1988 Poems by Ken Norris *Philosophical Thought in Russia in the Second Half of the Twentieth Century* Vladislav Lektorsky, Marina F. Bykova, 2019-01-10 Philosophical Thought in Russia in the Second Half of the 20th Century is the first book of its kind that offers a systematic overview of an often misrepresented period in Russia's philosophy. Focusing on philosophical ideas produced during the late 1950s early 1990s it reconstructs the development of genuine philosophical thought in the Soviet period and introduces those non dogmatic Russian thinkers who saw in philosophy a means of reforming social and intellectual life. Covering such areas of philosophical inquiry as philosophy of science philosophical anthropology the history of philosophy activity approach as well as communication and dialogue studies the volume presents and thoroughly discusses central topics and concepts developed by Soviet thinkers in that particular fields. Written by a team of internationally recognized scholars from Russia and abroad it examines the work of well known Soviet philosophers such as Mikhail Bakhtin Evald Ilyenkov and Merab Mamardashvili as well as those important figures such as Vladimir Bibler Alexander Zinoviev Yuri Lotman Georgy Shchedrovitsky Genrich Batishchev Sergey Rubinstein and others who have often been overlooked. By introducing and examining original philosophical ideas that evolved in the Soviet period the book confirms that not all Soviet philosophy was dogmatic and tied to orthodox Marxism and the ideology of Marxism Leninism. It shows Russian philosophical development of the Soviet period in a new light as a philosophy defined by a genuine discourse of exploration and intellectual progress rather than stagnation and dogmatism. In addition to providing the historical and cultural background that explains the development of the 20th century Russian philosophy the book also puts the discussed ideas and theories in the context of contemporary philosophical discussions showing their relevance to nowadays debates in Western philosophy. With short biographies of key thinkers an extensive current bibliography and a detailed chronology of Soviet philosophy this research resource provides a new understanding of the Soviet period and its intellectual legacy 100 years after the Russian Revolution.

Gender Inequalities and Development in Latin America During the Twentieth Century María Magdalena Camou,Silvana Maubrigades,Rosemary Thorp,2017-05-15 This book presents evidence of the evolution of the gender inequalities in Latin America during the twentieth century using basic indicators of human development namely education health and the labour market There are very few historical studies that centre on gender as the main analytical category in Latin America so this book breaks new ground Using case studies from Argentina Chile Colombia Mexico and Uruguay the authors show that there is evidence of a correlation between economic growth and the decrease in gender inequality but this process is also not linear Although the activity rate of women was high at the beginning of the twentieth century female participation in the labour market diminished until the 1970s when it began to increase dramatically Since the 1970s fertility reduction and education improvements and worsening labour market conditions are associated to the steadily increase of women participation in the labour market By gauging the extent to which gender gaps in the formation of human capital access to resources quality of life and opportunities may have operated as a

restriction on women's capabilities and on economic growth in the region this book demonstrates that Latin America has lagged behind in terms of gender equality

Australian Economic Development in the Twentieth Century Colin Forster, 2025-07-01 First published in 1970 Australian Economic Development in the Twentieth Century analyses aspects of Australian economic development in the twentieth century and places them in historical and international perspective In Australia the nineteenth century has been studied much more intensively than the twentieth and in this latter period the long run examination of almost any economic topic must break new ground The main economic histories of the period were written either before the Second World War or come close to general history Earlier works have naturally dated and little has been done to integrate the periods before and after the war The book takes a step towards filling a wide gap in our understanding of Australian

development and covers the period from the depression of the 1890s right up to the 1960s It is the product of a team of Australia s economic historians working together but each sovereign on his own special subject This volume will appeal not only to economic historians but to a wider public interested in Australia s history Mina Loy, Twentieth-Century Photography, and Contemporary Women Poets Linda A.
