**Representing Motherhood: Images of Mothers in Contemporary Young Adult Literature** Nadine Röpke, 2006-07-10 Seminar paper from the year 2005 in the subject American Studies Literature grade 1.7 Humboldt University of Berlin Anglistisches Institut language English abstract Introduction The role of women in American society has changed tremendously during the last 50 years Women started to enter the labour force and to free themselves from the restrictions of home Starting to work outside their domestic realm they became more independent and self-reliant With the empowerment of women the role of mothers started to change as well No longer did mothers identify themselves only through their husbands and children but increasingly looked for possibilities to fulfill themselves outside the family and to take an active part in society Expectations on mothers altered and with it the standard assumptions of motherhood were called into question and the vision of a new mother a person who has her own needs feelings and interests was emerging Mothering was no longer regarded as women's primary and sole mission but as one of many roles women could and did assume Nevertheless despite those changes the myth of the all-giving and self-devoting mother did prevail and can even be found in American present-day society Especially the media and advertisements still celebrate the ideal mother whose only source of gratification is her family Although the image of the mother as a mere child-rearer is out of date those conventional forms of representation still exist and construct people's understanding of motherhood

Museum Representations of Motherhood and the Maternal Rebecca Louise-Clarke, 2023-11-27 Museum Representations of Motherhood and the Maternal is the first book to address the underrepresentation of motherhood in museums Questioning how mothering and maternal experiences should be represented in museums Louise Clarke argues that such institutions wield the power to influence what we think about families mothers and the labour of care Using the term mothering to encompass lived experiences of mothering or caring that are not exclusively tied to sex gender or the maternal body Louise Clarke explores the ways that experiences of mothering can be represented in museums The book begins this exploration with Australia's Museums Victoria MV then expands to look at international cases Offering a blueprint for what Louise Clarke calls a museology of mothering the book imagines what a museum that articulates maternal subjectivities might look and sound like Museum Representations of Motherhood and the Maternal initiates a dialogue between museum studies and maternal studies making it essential reading for scholars and students working in both disciplines Questioning conventional museum practices and the values that underpin them the book will also be of interest to museum and heritage practitioners around the world

Motherhood and Representation E. Ann Kaplan, 2013-07-23 From novels of the nineteenth century to films of the 1990s

American culture abounds with images of white middle class mothers In *Motherhood and Representation* E Ann Kaplan considers how the mother appears in three related spheres the historical in which she charts changing representations of the mother from 1830 to the postmodernist present the psychoanalytic which discusses theories of the mother from Freud to Lacan and the French Feminists and the mother as she is figured in cultural representations in literary and film texts such as *East Lynne* Marnie and the *The Handmaid s Tale* as well as in journalism and popular manuals on motherhood Kaplan s analysis identifies two dominant paradigms of the mother as Angel and Witch and charts the contesting and often contradictory discourses of the mother in present day America

**The Juggling Mother** Amanda D. Watson,2020-09-15

Who is the juggling mother the woman who quietly flicks dried cereal off her blazer while running a corporate empire The Juggling Mother explores this figure of contemporary mothering in media representations a typically white middle class woman on the verge of coming undone because of her unwieldy slate of labours Mothers who frantically juggle paid and unpaid work demands do not threaten the way labour is organized In fact as Amanda Watson demonstrates they are model neoliberal workers who uphold white privilege along with ableist notions of mastery capacity and productivity because of a desire for political visibility and social inclusion The Juggling Mother makes the controversial case that unfair labour distributions are publicly celebrated intentionally performed and intimately felt Mothers with the most power are thus complicit in the exclusion of less privileged ones and in their own undoing

*The Mother in Psychoanalysis and Beyond*

Rosalind Mayo,Christina Moutsou,2016-10-04 The question of what it means to be a mother is a very contentious topic in psychoanalysis and in wider society *The Mother in Psychoanalysis and Beyond* explores our relationship to the maternal through psychoanalysis philosophy art and political and gender studies Over two years a group of psychotherapists and members of the public met at the Philadelphia Association for a series of seminars on the Maternal In the discussions that followed a chasm opened up slowly and painfully between the idealised longings and fantasies we all share and the realities of maternal experiences here were met the great silences of love loss longing memories desire hatred and ambivalence This book is the result of this bringing together in conversation and reflections of what so often seems unsayable about the Mother It examines how issues of personal and gender identity are shaped by the ideals of separation from the mother the fears and anxiety of merging with the mother and how this has often led in psychoanalysis and society to holding mothers responsible for a variety of personal and social ills and problems in which maternal vulnerability is denied and silenced There are two main themes running throughout the book Matricide and Maternal Subjectivity On the theme of matricide several contributors discuss the ways in which the discourse and narratives of the Mother have been silenced on a sociocultural level and within psychoanalysis and philosophy in favour of discourses that promote independence autonomy power and the avoidance and denial of our fundamental helplessness and vulnerability On the theme of maternal subjectivity several chapters look at the actual experience of mothering and or our relationship to our mother to highlight the ways in which the

maternal is intimately connected with human subjectivity The Mother in Psychoanalysis and Beyond provides new and provocative thinking about the maternal and its place in various contemporary discourses It will appeal to psychoanalysts psychotherapists and psychologists of different schools scholars and advanced students of art gender studies politics and philosophy as well as anyone interested in maternity studies and the relationship between the maternal and human subjectivity

affect expectations of Black women Exploring the role that racism misogyny and media play in the representation of Black womanhood it provides a foundation for challenging contemporary media's portrayal of Black women **The Motherhood**

Vay, 2019-05-23 This book examines the proliferation of surrogacy storylines on TV, exploring themes of infertility, motherhood, parenting, and family. It investigates how, despite reproductive technologies' ability to flex contours of family, the shows' narratives work to uphold the white heterosexual genetically reproduced family as the ideal. In dialogue with responses from a range of female viewers, both mothers and non-mothers, the book scrutinises the construction of family ideology on television, with studies including *Coronation Street* (1960–present). *Giuliana* is homosexuality only acceptable when it echoes heterosexual norms. Are female characters only fulfilled when they are genetic mothers? Does heterosexual romance override technology in the cure for infertility? While the answers to these questions may suggest that television still conforms to heteronormative narratives, this book importantly demonstrates that audiences desire alternative happy endings that show infertile female characters more positively and recognise alternative kinship formations as meaningful. **The Routledge**

Bourland Ross, 2015-12-24 This book investigates the perceptions of motherhood in Spanish author Lucía Etxebarria's fiction and offers views of the importance of motherhood in society. Traditional expectations for women as mothers persist despite the fact that they no longer match Spain's cultural and economic reality. These issues of gender equality and societal perceptions stand out in the novels and screenplays of Etxebarria. Her work at times resists and at times affirms patriarchal

constructs associated with traditional Spanish motherhood and ultimately I argue enacts the very complexity of contemporary Spanish motherhood ideals By showing the tension between the past constructs of the mother and the possible future outcomes of gender equality Etxebarria's works navigate the complexity between past and future illuminating the current and future uncertainties and the ambivalent nature of change Each chapter views motherhood from a different perspective and focuses on particular works of Etxebarria Through the depiction of a variety of mother characters these different perspectives as showcased in Etxebarria's narratives together compose an understanding of Spanish maternal identity
