Representing Belief Religion Art And Society In Nineteenth Century France:

Representing Belief Michael Paul Driskel, 1992 *Representing Belief* provides a detailed discussion and analysis of the forms and meanings in religious art of nineteenth century France This genre usually assigned minimal importance by writers on the period turns out to occupy a central place in the cultural history of the era touching the core of the century's conflict between tradition and modernity science and faith ultramontanist and naturalism Although it was generally assumed that this kind of art was of little importance in the evolution of modern painting Driskel demonstrates that in reality it played a crucial role Many of the artists discussed are firmly installed in the present canon Delacroix Ingres Manet Gauguin while others Flandrin Orsel Gleyre Cazin were major figures in their own time though largely forgotten today Writing from an interdisciplinary perspective and employing concepts derived from structuralist and poststructuralist theory Driskel moves beyond simple formalism to restore a category of once important works to a meaningful context thereby offering others a model by which to discuss and interpret these paintings Carefully charting the genealogies of hieraticism and naturalism he demonstrates that a dramatic shift occurred in the 1860s and 1870s as naturalism gained acceptance among ultramontanists and the hieratic mode began to attract the interest of adherents to the belief system of modernism *Representing Belief* is the first book to situate this art in its social and historical contexts and to approach it from this point of view

Handbook of Religious Culture in Nineteenth-Century Europe Anthony Steinhoff, Jeffrey Zalar, 2024-12-30 This handbook offers a guide to research on religious culture during Europe's long nineteenth century 1800-1914 Grounded in the latest theoretical approaches and in line with trends that have produced a religious turn in the study of modern Europe the volume assesses

the state of the field while making provocative recommendations for its enlargement Unique and ambitious in its thematic breadth it addresses the histories of all five of Europe's main religious traditions Eastern Orthodox Christianity Judaism Islam Protestantism and Roman Catholicism and brings these histories into comparative analysis This analysis extends to a wide range of subjects from popular belief and practice education and modern knowledge formation and the arts to the intersections between religion and urbanization civil society and politics and missions and imperialism It also evaluates recent developments in work on religion vis vis both gender and nationalism while calling attention to newer research that proposes secularism as a form of belief in its own right Presenting the scholarship of eighteen leaders in their respective fields the volume explains why religion as a topic of research has moved from the periphery to the center of modern European historiography

Medieval Saints in Late Nineteenth Century French Culture Elizabeth Emery, Laurie Postlewaite, 2004-08-02 Legends tales and mysteries featuring saints captivated the French at the end of the nineteenth century As Jean Lorrain pointed out in an 1891 article for the popular weekly *Le Courrier Francais* the seemingly simple language of the saints lives their noble battles between good and evil and the atmosphere of religious mysticism appealed to many especially those involved in the visual and performing arts Ironically The Third Republic 1870-1940 a regime that claimed to reinforce and institute the secular ideas of the French Revolution was witness to this great popular interest in the saints and religious imagery The eight essays

in this work explore the popularity of the saints from the 1850s to the 1920s The essays evaluate the role they played in literature art music science history and politics examine portrayals of the saints lives in both low and high culture from children s literature shadow plays and the popular press to literature opera and theological studies and reveal the prevalence of the saints in fin de siecle France

The Art and Thought of John La Farge Katie Kresser, 2017-07-05 The Art and Thought of John La Farge Picturing Authenticity in Gilded Age America offers an unprecedented portrait of one of the most celebrated artists of the Gilded Age and opens a window onto nineteenth century American culture The book reveals how the work of John La Farge contributed to a rich philosophical dialogue concerning the trustworthiness of human perception In his struggle against a common truth of iconic symbols presented by a new mass visual culture La Farge developed a subversive approach to visual representation that focused attention not on the artwork itself but on the complex real encounter of artist subject and medium from which the artwork came Katie Kresser charts La Farge s efforts to assert his own reality his own intrinsic uniqueness in a postwar society that increasingly based personal identity on standardized vocational labels and economic productivity La Farge s work is contrasted with that of Kenyon Cox James Whistler and Henry Adams all of whom for La Farge had fallen prey to the crass new visual environment albeit in very different ways This innovative study suggests that La Farge dealt with issues still relevant in a world characterized by ubiquitous mass media and the proliferation of normative visions

Victorian Engagements with the

Bible and Antiquity Simon Goldhill, Ruth Jackson Ravenscroft, 2023-10-12 The nineteenth century was a period in which ideas of history and time were challenged as never before This is the first book to explore how the study of classical antiquity and the study of the Bible together formed an image of the past which became central to Victorian self understanding These specially commissioned multi disciplinary essays brilliantly reveal the richness of Victorian thinking about the past and how important these models of antiquity were in the expression of modernity In an age of progress cultural anxiety and cultural hope was fuelled by the shock of the old new discoveries about the deep past and new ways of thinking about humanity s place in history The volume provides a rich and readable feast which will be fundamental to all those seeking a greater understanding of the Victorians as well as of the reception of classics and the Bible *Romantic Catholics* Carol E. Harrison, 2014-03-11 In this well written and imaginatively structured book Carol E Harrison brings to life a cohort of nineteenth century French men and women who argued that a reformed Catholicism could reconcile the divisions in French culture and society that were the legacy of revolution and empire They include most prominently Charles de Montalembert Pauline Craven Am lie and Fr d ric Ozanam L opoldine Hugo Maurice de Gu rin and Victorine Monriot The men and women whose stories appear in *Romantic Catholics* were bound together by filial love friendship and in some cases marriage Harrison draws on their diaries letters and published works to construct a portrait of a generation linked by a determination to live their faith in a modern world Rejecting both the atomizing force of revolutionary liberalism and the increasing intransigence of the church hierarchy the romantic Catholics advocated a middle way in which a revitalized Catholic faith and liberty formed the basis for modern society Harrison traces the history of nineteenth century France and in parallel the life course of these individuals as they grow up learn independence and take on the responsibilities and disappointments of adulthood Although the shared goals of the romantic Catholics were never realized in French politics and culture Harrison s work offers a significant corrective to the traditional understanding of the opposition between religion and the secular republican tradition in France *Symbolist Art in Context* Michelle Facos, 2009-03-31 The Symbolist art movement of the late 19th century forms an important bridge between Impressionism and Modernism But because Symbolism emphasizes ideas over objects and events it has suffered from conflicting definitions In this book Michelle Facos offers a comprehensive description of this challenging subject **The Forge of Vision** David Morgan, 2015-10-27 Religions teach their adherents how to see and feel at the same time learning to see is not a disembodied process but one hammered from the forge of human need social relations and material practice David Morgan argues that the history of religions may therefore be studied through the lens of their salient visual themes *The Forge of Vision* tells the history of Christianity from the sixteenth century through the present by selecting the visual themes of faith that have profoundly influenced its development After exploring how distinctive Catholic and Protestant visual cultures emerged in the early modern period Morgan examines a variety of Christian visual practices ranging from the imagination visions of nationhood the likeness of Jesus the material life of words

Nelson, 2004-07-14 Hagia Sophia the Church of Holy Wisdom sits majestically atop the plateau that commands the straits separating Europe and Asia Located near the acropolis of the ancient city of Byzantium this unparalleled structure has enjoyed an extensive and colorful history as it has successively been transformed into a cathedral mosque monument and museum In Hagia Sophia 1850 1950 Robert S Nelson explores its many lives Built from 532 to 537 as the Cathedral of Constantinople Hagia Sophia was little studied and seldom recognized as a great monument of world art until the nineteenth century and Nelson examines the causes and consequences of the building s newly elevated status during that time He chronicles the grand dome s modern history through a vibrant cast of characters emperors sultans critics poets archaeologists architects philanthropists and religious congregations some of whom spent years studying it others never visiting the building But as Nelson shows they all had a hand in the recreation of Hagia Sophia as a modern architectural icon By many means and for its own purposes the West has conceptually transformed Hagia Sophia into the international symbol that it is today While other books have covered the architectural history of the structure this is the first study to address its status as a modern monument With his narrative of the building s rebirth Nelson captures its importance for the diverse communities that shape and find meaning in Hagia Sophia His book will resonate with cultural architectural and art historians as well as with those seeking to acquaint themselves with the modern life of an inspired and inspiring building

Manet and the Family Romance Nancy Locke, 2001 douard Manet s paintings have long been recognized for being visually compelling and uniquely recalcitrant While critics have noted the presence of family members and intimates in paintings such as *Le Djeuner sur l herbe* Nancy Locke takes an unprecedented look at the significance of the artist s family relationships for his art Locke argues that a kind of mythology of the family or Freudian family romance frequently structures Manet s compositional decisions and choice of models By looking at the representation of the family as a volatile mechanism for the development of sexuality and of repression conflict and desire Locke brings powerful new interpretations to some of Manet s most complex works Locke considers for example the impact of a father son drama rooted in a closely guarded family secret the adultery of Manet p re and the status of L on Leenhoff Her nuanced exploration of the implications of this story that Manet in fact married his father s mistress makes us look afresh at even well known paintings such as *Olympia* This book sheds new light on Manet s infamous interest in gypsies street musicians and itinerants as Locke analyzes the activities of Manet s father as a civil judge She also reexamines the close friendship between Manet and the Impressionist painter Berthe Morisot who married Manet s brother Morisot becomes the subject of a series of meditations on the elusiveness of the self the transience of identity and conflicting concerns with appearances and respectability *Manet and the Family Romance* offers an entirely new set of arguments about the cultural forces that shaped these alluring paintings
