connection with the past John Edgar Wideman returns to the folk rituals of his family while Melvin Dixon and Brent Wade reclaim African roots and traditions Ishmael Reed struggles with a contemporary cultural oppression that he sees as an insidious echo of slavery while Clarence Major's experimental writing suggests how black men might reclaim their own voices in a culture that silences them Taking in a wide range of critical theoretical cultural gender and sexual concerns Contemporary Black Men's Fiction and Drama provides provocative new readings of a broad range of contemporary writers

The Performative Representations of Masculinity in Quentin Tarantino's Cinema Justin Russell

Greene,2023-08-22 In this book Justin Russell Greene examines how Quentin Tarantino uses his auteur identity to further cement the masculine tropes of Hollywood and ultimately society through language visual aesthetics and performative representations of masculinity in his films and media appearances Greene posits that the careful crafting of his auteur persona allows Tarantino to project a consistent version of what it means to be a writer director artist and that through his interview and speeches he reveals the deeper intensions behind the representations his characters present in his films However although he is valorized by audiences media personalities and peers as an artistic genius Tarantino traffics in many of the systemic issues embedded within the United States socio cultural environment Greene argues that although Tarantino promotes a political vision in his films and public appearances that illuminates the restrictions of hegemonic masculinity this is not sufficiently effective at truly disrupting entrenched ideologies about masculinity in U S culture due to how Tarantino hides his critical takes within genre stereotypes Scholars of film studies gender studies and popular culture will find this book of particular interest

Progressive Black Masculinities Athena D. Mutua,2006 In the struggle for pride and political agency the imperative to be a man has been central to the lives of black males Yet what it means to be a black man in terms of both racial and gender identity has been subject to continual debate in public and academic spheres alike *Progressive Black Masculinities* brings together leading black cultural critics including Michael Eric Dyson Mark Anthony Neal and Patricia Hill Collins to examine an alternatively demonized and mythologized black masculinity Collectively they offer a roadmap for new progressive models of black masculinity that may chart the course for the future of black men

Object Lessons Robyn Wiegman,2012-01-11 A passionate advocate of identity studies and a keen reader of U S institutional politics Robyn Wiegman turns her attention in *Object Lessons* to the critical practices and political ambitions of identity based fields In a series of case studies drawn from women's studies queer studies ethnic studies and American studies she examines the unspoken belief that better theory will produce progressive social change in order to consider the political desire that fuels current scholarly debate Her metacritical analysis is neither a defense nor a dismissal of such political commitment but a sustained inquiry into the hope it generates the thinking it inspires and the conformity it inadvertently demands

African Americans in Sports Gary A. Scales,2017-07-05 Research on African American athletes generally focuses on negative stereotypes of physical prowess and socially controversial themes Most studies investigate racism prejudice discrimination

and exploitation experienced by African American athletes. Many studies contrast African American and white athletes on a number of variables that support prevailing elitist stereotypes and denigrate African American athletes. But few studies investigate the diverse and complex cultural dichotomies within the infrastructure of sport in the African American community. Gary Sailes maintains that it is crucial to develop a more eclectic and immersed cultural approach when investigating African American involvement in competitive sports. The contributors to *African Americans in Sports* show that there are also intrinsic cultural paradigms that are evident, presenting an informative and interesting narrative regarding African American athletes. The chapters that make up this volume were written by noted scholars who were selected based on their expertise in their specific academic areas. They write about different components of the experience of African American male athletes. Chapters and contributors include *Race and Athletic Performance: A Physiological Review* by David W. Hunter, *The Athletic Dominance of African Americans: Is There a Genetic Basis?* by Vinay Harpalani, *African American Player Codes on Celebration, Taunting, and Sportsmanlike Conduct* by Vernon L. Andrews, and *Stacking in Major League Baseball* by Earl Smith and C. Keith Harrison. Many chapters were originally published as a special issue of the *Journal of African American Men*. This volume should be read by all those involved in athletics as well as by sports sociologists and African American studies scholars.

Sport in Films Emma Poulton, Martin Roderick, 2019-05-30. *Sport* offers everything a good story should have: heroes and villains, triumph and disaster, achievement and despair, tension and drama. Consequently, sport makes for a compelling film narrative, and films in turn are a vivid medium for sport. Yet despite its regularity as a central theme in motion pictures, constructions and representations of sport and athletes have been marginalised in terms of serious analysis within the longstanding academic study of films and documentaries. In this collection, it is the critical study of film and its connections to sport that are examined. The collection is one of the first of its kind to examine the ways in which sport has been used in films as a metaphor for other areas of social life. Among the themes and issues explored by the contributors are morality tales in which good triumphs over evil; the representation and ideological framing of social identities including class, gender, race, and nationality; the representation of key issues pertinent to sport including globalization, politics, commodification, consumerism, and violence; the meanings spoken by films and the various readings which audiences make of them. This is a timely collection that draws together a diverse range of accessible, insightful, and ground-breaking new essays. This book was published as a special issue of *Sport in Society*.

Feminism and Politics, 1998-03-12. Series Blurb. Oxford Readings in Feminism provide accessible one-volume guides to the very best in contemporary feminist thinking, assessing its impact and importance in key areas of study. Collected together by scholars of outstanding reputation in their field, the articles chosen represent the most important work on feminist issues and concise, lively introductions to each volume crystallize the main line of debate in the field. Is there too much gender in politics? too much stereotyping of female and male? Or is there too little gender? too little attention to differences between women and men? Should feminists be challenging male

dominance by opening up politics to women Or is women a fictitious entity that fails to address differences by class or race Is equality best served by denying differences between the sexes Or best promoted by stressing the special needs of women The essays in *Feminism and RPolitics* answer these questions in a variety of ways but all see feminism as transforming the way we think about and act in politics Spanning issues of citizenship and political representation the ambiguities of identity politics and the problems in legislating for sexual equality the readings provide an exciting overview of recent developments This outstanding collection will be essential reading for any feminist who has doubted the importance of political studies and any student of politics who has doubted the relevance of feminism

Susan Neal Mayberry, 2010-01-25 Taking a close look at all the key male figures in Toni Morrison's eight novels this book explores Morrison's admitted but critically neglected interest in the relationships between African American men and women and the axes on which these relationships turn Most Morrison scholarship deals with her female characters Can't I Love What I Criticize offers a response to this imbalance and to Morrison's call for more work on men who remain in her words outside of that little community value thing The book also considers the barriers between black men and women thrown up by their participation in a larger historically racist culture of competition ownership sexual repression and fixed ideals about physical beauty and romantic love Black women Morrison says bear their crosses extremely well and black men although they have been routinely emasculated by white men period have managed to maintain a feisty magic that everybody wants but nobody else has Understanding Morrison's treatment of her male characters says Susan Mayberry becomes crucial to grasping her success in countering the damage done by a spectrum of sometimes misguided isms including white American feminism Morrison's version of masculinity suggests that black men have successfully retained their special vitality in spite of white male resistance and that their connections to black women have saved their lives To single out her men is not to negate the preeminence of her women rather it is to recognize the interconnectedness and balance between them
