Ethnic Media in the Digital Age Sherry S. Yu, Matthew D. Matsaganis, 2018-12-07 Ethnic media are media produced for and frequently by immigrants ethnic and linguistic minority groups and indigenous populations These media represent a sector of the broader media industry that has seen considerable growth globally even while many mainstream legacy media have struggled to survive or have ceased to exist largely due to the emergence of new communication technologies What is missing in the literature is a careful examination of ethnic media in the digital age The original research including case studies in this book provides insight into 1 what new trends are emerging in ethnic media production and consumption 2 how ethnic media are adapting to changing technologies in the media landscape of our times and 3 what enduring roles ethnic media perform in local communities and in an increasingly globalized world The ethnic media that contributors discuss in this book are produced for and distributed across a variety of platforms ranging from broadcasting and print to online platforms Additionally these media serve numerous immigrant ethnic and indigenous communities who live in and trace their origins back to a variety of regions of the world including Africa Asia Europe North America and Oceania

Lived diversities Husband, Charles, Alam, Yunis, Huettermann, Jorg, Fomina, Joanna, 2014-09-24 Lived diversities Space place and identities in the multi ethnic city is a timely and important book which focuses on multi ethnic interaction in an inner city area Addressing difficult issues that are often simplistically and negatively portrayed it challenges the stereotypical denigration of inner city life and Muslim communities in particular Using well crafted historical political and contextual explanations the book provides a nuanced account of contemporary multi ethnic coexistence This invaluable contribution to our understanding of the politics and practice of multicultural coexistence is a must read for students and practitioners interested in ethnic diversity urban policy and the politics of place and space

Racialized Bordering Discourses on European Roma Nira Yuval Davis, Georgie Wemyss, Kathryn Cassidy, 2018-10-19 Using detailed examples from Finland Hungary Canada and the UK this book explores relationships between the racialization and discrimination experienced by heterogeneous European Roma populations and the processes of everyday bordering embedded in state policies and media discourses In the context of the long histories of discrimination experienced by Roma people across Europe the chapters engage with changing EU policies including the recent tensions between inter European de bordering and the selective immigration policies introduced as different states react to EU free movement Employing an intersectional analysis the authors capture the perspectives of differentially

situated people and associated discourses to examine the continuing racism experienced by European Roma citizens in their interaction with bordering technologies. They examine the homogenizing racial othering and construction of Roma as a criminal category that co exists with the differentiations made between indigenous and migrant Roma central to dominant bordering discourses and the contestations of different Roma populations. Chapters focus on Roma activism and the media the exclusion of Roma residents via urban regeneration and welfare provision and powerful media and political discourses about Roma populations in different national and transnational contexts. This book was originally published as a special issue of *Ethnic and Racial Studies*. The SAGE Encyclopedia of Journalism Gregory A. Borchard, 2022-02-22 Journalism permeates our lives and shapes our thoughts in ways that we have long taken for granted. Whether it is National Public Radio in the morning or the lead story on the Today show, the morning newspaper headlines up to the minute Internet news, grocery store tabloids, Time magazine in our mailbox or the nightly news on television, journalism pervades our lives. The Encyclopedia of Journalism covers all significant dimensions of journalism such as print, broadcast and Internet journalism, U S and international perspectives and history, technology, legal issues and court cases, ownership and economics. The encyclopedia will consist of approximately 500 signed entries from scholars, experts and journalists under the direction of lead editor Gregory Borchard of University of Nevada Las Vegas. **Journalism in the United States** Edd Applegate, 2011-05-19 Print and broadcast journalism in the United States have changed in recent years as a result of millions of people using the Internet and social media for obtaining some or most of the information they desire. So notes professor of journalism Edd Applegate who, after surveying the decline in circulation and advertising revenues of newspapers and broadcast and radio news stations and the rise of cable news and website journalism, outlines in *Journalism in the United States: Concepts and Issues* the effect of this sea of change on key matters in journalism today. In this work Applegate updates readers on the current conditions of the print and broadcast industries with chapters on a variety of topics from theories of the press to the structure of the print and broadcast industries, from the role of advertising and public relations to the role of the changing view of the press, views of and commitments to objectivity and news balance. Throughout Applegate obliges readers to wrestle with how the change in medium from print or broadcast to Web is not the main culprit in how the news has changed. Instead, he illustrates how many of the core issues remain unchanged and what is needed is a more complex analysis of core concepts and issues and how these have been affected from freedom of the press to the treatment of minorities by the evolution of news as a business and the education of journalists today for that business. With a selected bibliography and an index to assist the reader, this book is a wonderful text for upper level undergraduates, graduates and college faculty with journalism or mass communications courses as well as for academic libraries. *Communication Activism Research for Social Justice* Kevin M. Carragee, 2023-09-28 Communication scholars have taken seriously the call for engaged scholarship and this book examines the principles, practices and outcomes of communication activism research for social justice. Communication

activism research differs from other engaged communication scholarship through researchers promoting social justice intervening collaboratively and creating or assisting established collective actors that represent marginalized communities Collective actors examined in this book include Black Lives Matter the feminist movement and LGBTQ groups This book provides practical guidance on how to perform communication activism research offering recommendations for managing its challenges and discussing qualitative and quantitative methods for evaluating research interventions focusing on significant contemporary issues This book will appeal to scholars who study and teach communication and social justice activism as well as scholars from disciplines such as sociology and it is ideal as a text in courses on communication and activism engaged communication scholarship communication and social movements and communication research methods **Society in**

Focus William E. Thompson, Joseph V. Hickey, Mica L. Thompson, 2018-11-13 Society in Focus An Introduction to Sociology Ninth Edition emphasizes how society and social forces affect everything from globalization and international policies to day to day activities in our personal lives In this edition the authors go beyond the mere questioning of issues to take a closer look at the social world in which we live They provide an integrated approach that uses sociological thinking to help students analyze and understand key concepts To focus increased attention on sociological thinking and research methods they have chosen four key themes media and technology globalization cultural diversity and trends for the future Because sociology is about all of us and our daily lives it is an eminently practical and useful discipline for understanding our social world This Ninth Edition Includes specific student outcomes for each chapter as well as assessment items linked to those outcomes new chapter opening vignettes that give real life examples illustrating important terms concepts and theories included in that chapter updated data statistics maps charts boxes and tables citing the latest research available examples of the powerful impact of media and technology on society especially the role social media play in helping to shape and define our daily social lives new photos and cartoons accompanied by critical thinking questions that reinforce and illustrate important sociological terms concepts and theories **Accession and Migration**

Yordanka Valkanova, 2016-12-05 The expansion of the European Union in May 2004 through the entry of ten countries from Central and Eastern Europe has generated considerable media interest interest which was revived by further expansion in January 2007 when Bulgaria and Romania became the latest nations from the east to join Rather than focus exclusively on changes within the EU labour market and related policy debates this book offers a careful grounded analysis of the social and cultural processes bound up with migration flows between Britain and Bulgaria placing these flows in the wider European perspective As such Accession and Migration will be of interest not only to migration scholars but also to policy makers at local national and international levels **Sámi Research in Transition**

Laura Junka-Aikio, Jukka Nyssönen, Veli-Pekka Lehtola, 2021-11-24 For several decades now there have been calls to decolonize research on the Indigenous Sámi people and to make it accountable to the Sámi society While this has contributed to the rise of a vibrant Sámi research community in the Nordic countries less attention has been paid to what extent and how

the S mi turn in research has been implemented in practice Written by prominent Nordic and S mi scholars anchored in the S mi research communities in Finland Norway and Sweden this volume explores not only the meanings and implications of this turn across disciplines but also some of the challenges that efforts to create space for S mi voices knowledges and perspectives still meet today The book provides a timely interdisciplinary engagement with the central themes that have framed the development of S mi research and a critical appraisal of the impact that efforts to decolonize research in the S mi context have had upon Nordic societies and state policies so far S mi Research in Transition is valuable for scholars and students interested in S mi history and society Arctic and Circumpolar Indigenous studies and critical studies on the relationship between knowledge and social change The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Nation, Ethnicity and Race on Russian Television Stephen Hutchings, Vera Tolz, 2015-03-05 Russia one of the most ethno culturally diverse countries in the world provides a rich case study on how globalisation and associated international trends are disrupting and causing the radical rethinking of approaches to inter ethnic cohesion The book highlights the importance of television broadcasting in shaping national discourse and the place of ethno cultural diversity within it It argues that television's role here has been reinforced rather than diminished by the rise of new media technologies Through an analysis of a wide range of news and other television programmes the book shows how the covert meanings of discourse on a particular issue can diverge from the overt significance attributed to it just as the impact of that discourse may not conform with the original aims of the broadcasters The book discusses the tension between the imperative to maintain security through centralised government and overall national cohesion that Russia shares with other European states and the need to remain sensitive to and to accommodate the needs and perspectives of ethnic minorities and labour migrants It compares the increasingly isolationist popular ethnonationalism in Russia which harks back to old fashioned values with the similar rise of the Tea Party in the United States and the UK Independence Party in Britain Throughout this extremely rich well argued book complicates and challenges received wisdom on Russia's recent descent into authoritarianism It points to a regime struggling to negotiate the dilemmas it faces given its Soviet legacy of ethnic particularism weak civil society large native Muslim population and overbearing yet far from entirely effective state control of the media

A Piece of the Action Eithne Quinn, 2019-12-31 Hollywood is often thought of and certainly by Hollywood itself as a progressive haven However in the decade after the passage of the Civil Rights Act the film industry grew deeply conservative when it came to conflicts over racial justice Amid black self assertion and white backlash many of the most heated struggles in film were fought over employment In A Piece of the Action Eithne Quinn reveals how Hollywood catalyzed wider racial politics through representation on screen as well as in battles over jobs and resources behind the scenes Based on extensive archival research and detailed discussions of films like In the Heat of the Night Sweet Sweetback

s Baadasssss Song Super Fly Claudine and Blue Collar this volume considers how issues of race and labor played out on the screen during the tumultuous early years of affirmative action Quinn charts how black actors leveraged their performance capital to force meaningful changes to employment and film content She examines the emergence of Sidney Poitier and other African Americans as A list stars the careers of black filmmakers such as Melvin Van Peebles and Ossie Davis and attempts by the federal government and black advocacy groups to integrate cinema Quinn also highlights the limits of Hollywood's liberalism showing how predominantly white filmmakers executives and unions hid the persistence of racism behind feel good stories and public relations avowals of tolerance A rigorous analysis of the deeply rooted patterns of racial exclusion in American cinema A Piece of the Action sheds light on why conservative and corporate responses to antiracist and labor activism remain pervasive in today's Hollywood

The Sociolinguistics of South African Television Kealeboga Aiseng, 2024-04-03 This book explores the interwoven relationship between language media and society in post Apartheid South Africa The author examines selected case studies from the sociolinguistic landscape of South African television analysing dominant language ideologies and illuminating the challenges opportunities and potential for transformation He argues for the power of television in shaping language ideologies fostering cultural understanding and advocating for more inclusive and equitable language usage in the media This book contributes to the field of sociolinguistics by emphasizing the complexity of multilingualism in South Africa and inviting ongoing exploration and dialogue in this landscape It will be of interest to students and scholars of Sociolinguistics Media Studies African Culture and History and Language Policy and Planning
