Area Handbook for the Republic of Tunisia Howard C. Reese, American University (Washington, D.C.). Foreign Area Studies, 1970 General study on Tunisia covers its historical setting geography social structure and institutions political system practices and attitudes international relations mass media industry agriculture administration of justice and armed forces institutions etc and reviews trends in its politics and economic and social development Bibliography pp 381 to 405 maps and statistical tables [Tunisia Country Profile](#) , **Area Handbook for the Republic of Tunisia** Howard C. Reese, 1970 **List of Merchant Vessels with SAR Data** , 1981 **List of Merchant Vessels with SAR Data** United States. Coast Guard, 1981 **Tunisia's Economic Development** Mustapha K. Nabli, Jeffrey B. Nugent, 2022-09-16 This book identifies the differences in growth and development and the various factors lying behind them across both Middle East and North African MENA and East Asian countries over the 1960 2020 period It considers a very wide range of factors compares initial situations institutions and government policies the dynamic responses to changing circumstances and discusses the inability of the governments of the MENA region to achieve not only political reform but also the kinds of economic reform that would allow their citizens to prosper in an increasingly globalized world The book focuses on Tunisia Since its independence in 1956 until 2010 Tunisia had considerable success relative to many other MENA countries but was somewhat less successful relative to East Asian countries Since 2010 however while transitioning away from autocracy to democracy it has been in rather serious economic decline The book highlights how both the factors identified as enabling Tunisia's initial success and those leading to its subsequent decline can provide many useful insights for improving the management of economic development across the whole MENA region and perhaps also to developing countries throughout the world [Lawmaking under Pressure](#) Giovanni Mantilla, 2020-12-15 In *Lawmaking under Pressure* Giovanni Mantilla analyzes the origins and development of the international humanitarian treaty rules that now exist to regulate internal armed conflict Until well into the twentieth century states allowed atrocious violence as an acceptable product of internal conflict Why have states created international laws to control internal armed conflict Why did states compromise their national security by accepting these international humanitarian constraints Why did they create these rules at improbable moments as European empires cracked freedom fighters emerged and fears of communist rebellion spread Mantilla explores the global politics and diplomatic dynamics that led to the creation of such laws in 1949 and in the 1970s By the 1949 Diplomatic Conference that revised the Geneva Conventions most countries supported legislation committing states and rebels to humane principles of wartime behavior and to the avoidance of abhorrent atrocities including torture and the murder of non combatants However for decades states had long refused to codify similar regulations concerning violence within their own borders Diplomatic conferences in Geneva twice channeled humanitarian attitudes alongside Cold War and decolonization politics even compelling reluctant European empires Britain and France to accept them *Lawmaking under*

Pressure documents the tense politics behind the making of humanitarian laws that have become touchstones of the contemporary international normative order Mantilla not only explains the pressures that resulted in constraints on national sovereignty but also uncovers the fascinating international politics of shame status and hypocrisy that helped to produce the humanitarian rules now governing internal conflict **Treaties in Force** ,2014 **Regional action plan for sustainable soil management in the Near East and North Africa region** FAO,2024-12-04 This document was generated under the Technical Cooperation Project TCP RAB 3802 Capacity development for the sustainable management of soil resources in the NENA region to achieve the Sustainable Development Goals SDGs and it was formulated to address the regional and national prerequisites to raise awareness on the importance of soils in the NENA region and to conserve and manage them sustainably Soil degradation by salinity sodicity and erosion and the resulting loss in soil functions represent a growing threat in NENA that increasingly threatens food security in the region The two year TCP RAB 3802 project started in October 2020 The project ultimately involved 11 countries in NENA Hashemite Kingdom of Jordan Islamic Republic of Iran Kingdom of Morocco the Lebanese Republic Republic of Iraq Republic of Sudan Republic of Tunisia Republic of Yemen Palestine Sultanate of Oman and Syrian Arab Republic and focused on 1 enhancing the understanding of soil characteristics challenges and management practices 2 strengthening national capacities for the implementation of normative tools on sustainable soil management SSM and 3 strengthening regional and interregional collaboration on SSM **Treaties in Force 2011** ,2011-09-28 Lists treaties and other international agreements of the United States on record in the Department of State on January 1 2011 which had not expired by their terms or which had not been denounced by the parties replaced or superseded by other agreements or otherwise definitely terminated Published annually **Treaties in Force 2010** ,2010-08-09 Lists treaties and other international agreements of the United States on record in the Department of State on January 1 2010 which had not expired by their terms or which had not been denounced by the parties replaced or superseded by other agreements or otherwise definitely terminated Published annually **Colonialism, Neo-Colonialism, and Anti-Terrorism Law in the Arab World** Fatemah Alzubairi,2019-01-10 The threat of personal harm and destruction from terrorist attacks is nowhere near as great as in Arab nations However are counter terrorism laws in the Arab world formulated and enforced to protect or oppress Colonialism Neo Colonialism and Anti Terrorism Law in the Arab World examines the relationship between Western influence and counter terrorism law focusing on the Arab world which is on the one hand a hostile producer of terrorist organizations and on the other a leader in countering terrorism With case studies of Egypt and Tunisia Alzubairi traces the colonial roots of the use of coercion and extra legal measures to protect the ruling order which are now justified in both the West and the Arab world in the name of counter terrorism Colonialism Neo Colonialism and Anti Terrorism Law in the Arab World provides important lessons for counter terrorism not just in these countries but also elsewhere in the world **Yearbook of the United Nations, Volume 42 (1988)** United Nations,2023-11-27 Issued

Regional Economic Outlook, Middle East and Central Asia, October 2023 International Monetary Fund. Middle East and Central Asia Dept.,2023-10-12 Across the Middle East and Central Asia the combined effects of global headwinds domestic challenges and geopolitical risks weigh on economic momentum and the outlook is highly uncertain Growth is set to slow this year in the Middle East and North Africa region driven by lower oil production tight policy settings in emerging market and middle income economies the conflict in Sudan and other country specific factors In the Caucasus and Central Asia although migration trade and financial inflows following Russia s war in Ukraine continue to support economic activity growth is set to moderate slightly this year Looking ahead economic activity in the Middle East and North Africa region is expected to improve in 2024 and 2025 as some factors weighing on growth this year gradually dissipate including the temporary oil production cuts But growth is expected to remain subdued over the forecast horizon amid persistent structural hurdles In the Caucasus and Central Asia economic growth is projected to slow next year and over the medium term as the boost to activity from real and financial inflows from Russia gradually fades and deep seated structural challenges remain unsolved Inflation is broadly easing in line with globally declining price pressures although country specific factors including buoyant wage growth in some Caucasus and Central Asia countries and climate related events continue to make their mark Despite some improvement since April the balance of risks to the outlook remains on the downside In this context expediting structural reforms is crucial to boost growth and strengthen resilience while tight monetary and fiscal policies remain essential in several economies to durably bring down inflation and ensure public debt sustainability
