Republican China Nationalism War The R:

China in War and Revolution, 1895-1949 Peter Zarrow, 2006-06-07 Providing historical insights essential to the understanding of contemporary China this book explores the events that led to the rise of communism and a strong central state during the early twentieth century *Historical Dictionary of the People's Republic of China* Lawrence R. Sullivan, 2007-05-23 When the Chinese Communist Party CCP seized power in October 1949 China was one of the poorest nations in the world In fact it was so weak it had been conquered by Japan a country one tenth its size a decade earlier Now more than fifty years later the People s Republic of China PRC is an emerging economic political and military superpower with the world s fastest growing economy and largest population 1 3 billion in 2005 A member of the United Nations Security Council since the early 1970s and a nuclear power China wields enormous influence in the world community The second edition of the *Historical Dictionary of the People s Republic of China* contains more than 400 cross referenced dictionary entries on individual topics spanning China s political economic and social system along with short biographies on important figures_ from politicians to writers and movie directors_ who have shaped Chinese history during the period of Communist rule from 1949 to 2006 Supplementing the entries are a chronology an introduction charts outlining the structure of the Chinese government and a bibliography of works in English making this a superb resource for college and high school students needing a quick reference on contemporary China **Air University Library Index to Military Periodicals** ,1999 **Handbook of China's Governance and Domestic Politics** Chris Ogden, Christopher Ogden, 2013 Provides an in depth overview of how China is governed how its domestic political system functions and the critical issues it faces in the coming decades Discusses China s transition to a modern state and its rise within the international system The China Mission: George Marshall's Unfinished War, 1945-1947 Daniel Kurtz-Phelan, 2018-04-10 An Economist Best Book of 2018 New York Times Book Review Editor s Pick Gripping and splendid An enormous contribution to our understanding of Marshall Washington Post At the end of World War II General George Marshall took on what he thought was a final mission this time not to win a war but to stop one In China conflict between Communists and Nationalists threatened to suck in the United States and escalate into revolution Marshall s charge was to cross the Pacific broker a peace and prevent a Communist takeover all while staving off World War III At first the results seemed miraculous But as they started to come apart Marshall was faced with a wrenching choice one that would alter the course of the Cold War define the US China relationship and spark one of the darkest ever turns in American political life The China Mission offers a gripping close up view of the central figures of the time from Marshall Mao and Chiang Kai shek to Eisenhower Truman and MacArthur as they stood face to face and struggled to make history with consequences and lessons that echo today Picturing Heaven in Early China Lillian Lan-ying Tseng, 2020-03-17 Tian or Heaven had multiple meanings in early China It had been used since the Western Zhou to indicate both the sky and the highest god and later came to be regarded as a force driving the

movement of the cosmos and as a home to deities and imaginary animals By the Han dynasty which saw an outpouring of visual materials depicting Heaven the concept of Heaven encompassed an immortal realm to which humans could ascend after death Using excavated materials Lillian Tseng shows how Han artisans transformed various notions of Heaven as the mandate the fantasy and the sky into pictorial entities The Han Heaven was not indicated by what the artisans looked at but rather was suggested by what they looked into Artisans attained the visibility of Heaven by appropriating and modifying related knowledge of cosmology mythology astronomy Thus the depiction of Heaven in Han China reflected an interface of image and knowledge By examining Heaven as depicted in ritual buildings on household utensils and in the embellishments of funerary settings Tseng maintains that visibility can hold up a mirror to visibility Heaven was culturally constructed and should be culturally reconstructed

The Chinese Revolution on the Tibetan Frontier Benno Weiner, 2020-06-15 In *The Chinese Revolution on the Tibetan Frontier* Benno Weiner provides the first in depth study of an ethnic minority region during the first decade of the People's Republic of China the Amdo region in the Sino Tibetan borderland Employing previously inaccessible local archives as well as other rare primary sources he demonstrates that the Communist Party's goal in 1950s Amdo was not just state building but also nation building Such an objective required the construction of narratives and policies capable of convincing Tibetans of their membership in a wider political community As Weiner shows however early efforts to gradually and organically transform a vast multiethnic empire into a singular nation state lost out to a revolutionary impatience demanding more immediate paths to national integration and socialist transformation This led in 1958 to communization then to large

scale rebellion and its brutal pacification Rather than joining voluntarily Amdo was integrated through the widespread often indiscriminate use of violence a violence that lingers in the living memory of Amdo Tibetans and others

The Republic of China Xavier Paules,2023-11-08 The declaration of the Republic of China in 1912 signalled an entirely new era Not only did the revolution of 1911 12 bring about the fall of the Qing dynasty it also brought an end to the entire series of dynasties that had marked Chinese history for over two millennia Radical reforms since 1901 had culminated in the ending of the political status quo and the rejection of the very idea of empire Drawing on the most recent historical research Xavier Paul s provides a comprehensive account of the crucial but chaotic period that stretched from the founding of the Republic of China in 1912 to the civil war of 1945 9 which ended with the victory of the Chinese Communist Party CCP and the establishment of the People s Republic of China Paul s challenges various common claims about this period It is often assumed that the CCP was instrumental in bringing about key events by skilfully mobilizing the population to serve its ends Paul s argues by contrast that the CCP took advantage of fortunate circumstances and that even then it was only in a position to challenge the supremacy of the Guomindang as late as 1944 His analysis takes a broad view by considering the importance of political actors both within and external to the revolutionary movement enabling him to offer a balanced interpretation of the republican period which sheds new light on China s political cultural and economic development

A History of World Societies: From the French revolution to the present John P. McKay,Bennett D. Hill,John Buckler,1992

Political Warfare in Republican Vietnam Robert A. Silano,2024-08-22 This work examines the development of the Republic of Vietnam Armed Forces as a national institution explores the historical origins of the political warfare

system and assesses that system's nurturing of military morale, popular support and ways to weaken enemy resolve. North Vietnam in the 1940s and South Vietnam in the 1960s embraced the system of political control over the military that was developed in Soviet Russia after the Bolshevik Revolution and in Republican China in the 1920s where it influenced both the Nationalist and Communist movements. The book discusses the overall effectiveness of political warfare activities in the Republic of Vietnam's army, the advice and support offered by the U.S. military to the South Vietnamese political warfare establishment and the consequences of the war's end for the members of the Republic of Vietnam Armed Forces who served in the political warfare system.

Fishing Wars and Environmental Change in Late Imperial and Modern China Micah S. Muscolino, 2020-03-17 Among the environmental challenges facing us is alleviating the damage to marine ecosystems caused by pollution and overfishing. Coming to grips with contemporary problems, this book argues depends on understanding how people have historically generated, perceived and responded to environmental change. This work explores interactions between society and environment in China's most important marine fishery, the Zhoushan Archipelago off the coast of Zhejiang and Jiangsu, from its nineteenth century expansion to the exhaustion of the most important fish species in the 1970s. This history of Zhoushan's fisheries illuminates long-term environmental processes and analyzes the intersections of local, regional and transnational ecological trends and the array of private and state interests that shaped struggles for the control of these common pool natural resources. What institutions did private and state actors use to regulate the use of the fishery? How did relationships between social organizations and the state change over time? What types of problems could these arrangements solve and which not? What does the fate of these institutions tell us about environmental change in late imperial and modern China? Answering these questions will give us a better understanding of the relationship between past ecological changes and present environmental challenges.

Terror in Minnie Vautrin's Nanjing Minnie Vautrin, 2024-04-22 In December of 1937 the Japanese Imperial Army marched into China's capital city of Nanjing and launched six weeks of carnage that would become known as the Rape of Nanjing. In addition to the deaths of Chinese POWs and civilians, tens of thousands of women were raped, tortured and killed by Japanese soldiers. In this traumatic environment, both native and foreign-born inhabitants of Nanjing struggled to carry on with their lives. This volume collects the diaries and correspondence of Minnie Vautrin, a farmgirl from Illinois who had dedicated herself to the education of Chinese women at Ginling College in Nanjing. Faced with the impending Japanese attack, she turned the school into a sanctuary for ten thousand women and girls. Vautrin's firsthand accounts of daily life in Nanjing and the intensifying threat of Japanese invasion reveal the courage of the occupants under siege: Chinese nationals as well as Western missionaries, teachers, surgeons and business people, and the

personal costs of violence in wartime Thanks to Vautrin s painstaking effort in keeping a day to day account present day readers are able to examine this episode of history at close range through her eyes With detailed maps photographs and carefully researched in depth annotations Terror in Minnie Vautrin s Nanjing Diaries and Correspondence 1937 38 presents a comprehensive and detailed daily account of the events and of life during the horror stricken days within the city walls and in particular on the Ginling campus Through chronologically arranged diaries letters reports documents and telegrams Vautrin bears witness to those terrible events and to the magnitude of trauma that the Nanjing Massacre exacted on the populace

China's Strategic Culture and Cross-Straits Relations Neil Munro,Duanyi Yi,2025-09-30 This book explores China s strategic culture in the context of relations across the Taiwan Strait The USA has long played a stabilising role deterring China from attacking Taiwan However as China s economy has grown so has its military might and it is now in a position to challenge America for the leading role in the security of the Western Pacific This book closely examines how China s interests in Taiwan have emerged from its identity as a modern socialist nation state placing it on a collision course with Taiwan s consolidated liberal democracy and the US vision of itself as a guarantor of global order On the basis of an examination of operational doctrines force structure and training it offers an interpretation of the three powers intentions and analyses possible scenarios for conflict This provides the context for analysing China s strategic behaviour notably the development over the past 30 years of military capabilities which would be sufficient for an invasion This book will be of much interest to students of strategic culture Chinese security foreign policy and international relations
