McElvaine,2009-11-30 Down and Out in the Great Depression is a moving revealing collection of letters by the forgotten men women and children who suffered through one of the greatest periods of hardship in American history Sifting through some 15 000 letters from government and private sources Robert McElvaine has culled nearly 200 communications that best show the problems thoughts and emotions of ordinary people during this time Unlike views of Depression life from the bottom up that rely on recollections recorded several decades later this book captures the daily anguish of people during the thirties It puts the reader in direct contact with Depression victims evoking a feeling of what it was like to live through this disaster Following Franklin D Roosevelt s inauguration both the number of letters received by the White House and the percentage of them coming from the poor were unprecedented The average number of daily communications jumped to between 5 000 and 8 000 a trend that continued throughout the Rosevelt administration The White House staff for answering such letters most of which were directed to FDR Eleanor Roosevelt or Harry Hopkins quickly grew from one person to fifty Mainly because of his radio talks many felt they knew the president personally and could confide in him They viewed the Roosevelts as parent figures offering solace help and protection Roosevelt himself valued the letters perceiving them as a way to gauge public sentiment The writers came from a number of different groups middle class people blacks rural residents the elderly and children Their letters display emotional reactions to the Depression despair cynicism and anger and attitudes toward relief In his extensive introduction McElvaine sets the stage for the letters discussing their significance and some of the themes that emerge from them By preserving their

original spelling syntax grammar and capitalization he conveys their full flavor The Depression was far more than an economic collapse It was the major personal event in the lives of tens of millions of Americans McElvaine shows that contrary to popular belief many sufferers were not passive victims of history Rather he says they were also actors and to an extent playwrights producers and directors as well taking an active role in trying to deal with their plight and solve their problems For this twenty fifth anniversary edition McElvaine provides a new foreword recounting the history of the book its impact on the historiography of the Depression and its continued importance today *Resources in Education* ,1996 *The Subject Index to Periodicals* ,1929 *The Engineering Index* ,1929 **Book Auction Records** Frand Karslake,1927 A priced and annotated annual record of international book auctions *Energy Research Abstracts* ,1992 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1985 **Technical Report** Cold Regions Research and Engineering Laboratory (U.S.),1951 *Remote Sensing for Geoscientists* Gary L.
