Encyclopedia of the Antarctic Beau Riffenburgh,2007 Publisher description *World Directory of Environmental Organizations* Thaddeus C. Trzyna,Elizabeth Margold,Julia K. Osborn,1996 This is a guide to organizations worldwide concerned with conservation and natural resources The directory features descriptions of over 2600 organizations in over 200 countries profiles of over 170 intergovernmental agencies and UN programmes descriptions of over 400 international NGOs over 2000 national government and non governmental organizations full addresses and contact numbers and a bibliography of data sources *Economics of Land Degradation and Improvement - A Global Assessment for Sustainable Development* Ephraim Nkonya,Alisher Mirzabaev,Joachim von Braun,2015-11-11 This volume deals with land degradation which is occurring in almost all terrestrial biomes and agro ecologies in both low and high income countries and is stretching to about 30% of the total global land area About three billion people reside in these degraded lands However the impact of land degradation is especially severe on livelihoods of the poor who heavily depend on natural resources The annual global cost of land degradation due to land use and cover change LUCC and lower cropland and rangeland productivity is estimated to be about 300 billion USD Sub Saharan Africa SSA accounts for the largest share 22% of the total global cost of land degradation Only about 38% of the cost of land degradation due to LUCC which accounts for 78% of the US 300 billion loss is borne by land users and the remaining share 62% is borne by consumers of ecosystem services off the farm The results in this volume indicate that reversing land degradation trends makes both economic sense and has multiple social and environmental benefits On average one US dollar investment into restoration of degraded land returns five US dollars The findings of the country case studies call for increased investments into the rehabilitation and restoration of degraded lands including through such institutional and policy measures as strengthening community participation for sustainable land management enhancing government effectiveness and rule of law improving access to markets and rural services and securing land tenure The assessment in this volume has been conducted at a time when there is an elevated interest in

private land investments and when global efforts to achieve sustainable development objectives have intensified In this regard the results of this volume can contribute significantly to the ongoing policy debate and efforts to design strategies for achieving sustainable development goals and related efforts to address land degradation and halt biodiversity loss
