introduces students to the process and techniques for researching and writing about music. It provides examples of different types of writing, offers a thorough introduction to music literature, describes various information searching methods and library-based organizational systems, and explores the wide array of music resources. This second edition discusses the latest innovations in library catalog searching, new matters in digital technology, and the expansion in musical genres for library research. The book's organization allows for three independent tracks of study. Part 1 treats essentials of the research process, explaining starting point resources such as library catalogs, dictionaries, and bibliographies. It addresses scholarly documentation, the use of style manuals, and basics of copyright. Part 2 develops skills and strategies for library and Internet-based research, describing database structures and library catalogs, subject searching in catalogs and journal indexes, keyword searching techniques, related record searching, and citation databases, and the use of experts and thematic catalogs. Part 3 discusses the organization of a music library, emphasizing score collections, books, and journals in music literature and music teaching publications.

**The New Handbook of Research on Music Teaching and Learning** Richard Colwell, Carol Richardson, 2002-04-18. Featuring chapters by the world's foremost scholars in music education and cognition, this handbook is a convenient collection of current research on music teaching and learning. This comprehensive work includes sections on arts advocacy, music and medicine, teacher education, and studio instruction, among other subjects, making it an essential reference for music education programs. The original *Handbook of Research on Music Teaching and Learning*, published in 1992 with the sponsorship of the Music Educators National Conference (MENC), was hailed as a welcome addition to the literature on music education because it served to provide definition and unity to a broad and complex field. Choice. This new companion volume, again with the sponsorship of MENC, explores the significant changes in music and arts education that have taken place in the last decade. Notably, several chapters now incorporate insights from other fields to shed light on multi-cultural music education, gender issues in music education, and non-musical outcomes of music education. Other chapters offer practical information on maintaining musicians' health, training music teachers, and evaluating music education programs. Philosophical issues such as musical cognition, the philosophy of research, theory, curriculum, and educating musically are also explored in relationship to policy issues. In addition to surveying the literature, each chapter considers the significance of the research and provides suggestions for future study. Covering a broad range of topics and addressing the issues of music education at all age levels, from early childhood to motivation and self-regulation, this handbook is an invaluable resource for music teachers, researchers, and scholars.

*Scholarly Research for Musicians* Sang-Hie Lee, 2017-01-20. *Scholarly Research for Musicians* presents a range of research methods and techniques, incorporating both the common elements of traditional music research methodologies with innovative research strategies endemic to the fields of social science, education, and performance science. The author's collaborative and interdisciplinary approach reinforces the belief that research is most palpable and successful when accessed through a relevant and

meaningful way of organizing thoughts and knowledge Drawing from over twenty years of classroom experience the author organizes the text into five units Common Bases Qualitative Research Quantitative Research Performance Science and Review Research is presented as an accessible process one facilitated by brainstorming and question asking the systematic collection of information and the analysis and synthesis of information all with the aim to develop a succinct conceptual framework In explicating this process the author introduces traditional Western thought alongside contemporary and Eastern philosophy Experts in the field of performance science explore novel approaches to studying the audience incorporating various measuring devices and methods In the final chapter the author offers strategies for disseminating and publishing research reports Scholarly Research for Musicians demystifies the research process for musicians and music students alike demonstrating the common principles of cohesive research plans PowerPoint presentations are available to instructors covering chapter discussion points in summary format This text explores interdisciplinary methods that merge with and focus on the study of music while emphasizing concepts and materials relevant to all types of research *Music Education*
