Corporate Finance and the Securities Laws Johnson Jr Charles J, Joseph McLaughlin, Anna T. Pinedo, 2023-12-08 This Seventh Edition of Corporate Finance and the Securities Laws is about doing deals transactions in which companies raise funds in the U S and international capital markets We have tried

to retain the book's practical orientation which we believe was responsible for the previous editions' considerable success. We do not intend this book as a complete treatise on the U.S. federal securities laws nor do we intend it as an investor's or issuer's guide to the capital markets. Rather, we are trying to explain the legal environment in which capital markets transactions take place just as we are trying to explain the capital markets transactions to which that environment is always trying to adapt. Highlights of the Seventh Edition include SEC administrative proceedings and SCOTUS decision in *Axon Enterprise Inc. v. FTC* and SCOTUS agreement to hear *Jarkesy v. SEC*; Change in SEC personnel's standard disclaimer when making public statements; Second Circuit decision in *Kirschner* holding bank loans not to be securities after SEC's declining to state its views; SEC commissioner's speech raising prospect that bank loans might eventually be treated as securities; Digital assets; SEC enforcement proceedings alleging digital assets to be securities for purposes of 1933 Act registration and 1934 Act broker-dealer and securities exchange registration; SEC partial defeat in *Ripple* litigation in SDNY followed by favorable decision in *Terraform* less than three weeks later; SEC use of Section 17(b) of 1933 Act to pursue celebrity endorsers of digital assets; prospects for federal legislation; Proposed legislation to make electronic delivery the default method of delivering communications required under federal securities laws; Amendment of SIFMA model form of agreement among underwriters to authorize syndicate manager or another underwriter to act as calculating underwriter for purposes of calculating probability of default under amended Rules 101 and 102 of Regulation M; Amendment of SIFMA model form of agreement among underwriters to reflect amendments to FINRA Rule 11880 regarding settlement of syndicate accounts; T-1 standard settlement cycle as of May 28, 2024; SEC decision not to extend no-action relief for research providers affected by MiFID II's unbundling rule; EU and California climate disclosure requirements' effects on prospective SEC requirements; Prospects for use of Artificial Intelligence in due diligence and in SEC staff selection of filings for review; SEC approval of rule changes at options exchanges to speed up listing and trading of options on IPO shares; SCOTUS decision in *Slack*; Section 11 litigation arising out of *Slack*'s direct listing that a plaintiff under Section 11 must be able to trace his shares to a defective 1933 Act registration statement; SEC approval of NYSE and Nasdaq rules to permit more pricing flexibility for direct listings with a simultaneous sale of securities by the issuer but on condition that the issuer retain an underwriter for the shares to be sold by the issuer; SEC enforcement proceedings involving SPACs; SEC amendment of Rules 101 and 102 of Regulation M to eliminate exceptions based on credit ratings in favor of exceptions based on a probability of default standard for fixed income nonconvertible securities and eligibility to use Form SF-3 for ABS; SEC adoption of Rule 9j-1 to prohibit fraud, deceit or manipulation related to security-based swaps; Second Circuit reversal of class certification in *Goldman Sachs* litigation under Rule 10b-5 because of front-end/back-end genericness gap and concurring judge's prediction of confusion as courts navigate a materiality reliance twilight zone; SCOTUS to review Second Circuit's *Moab Partners* decision regarding the circumstances under which a failure to comply with Item 303 of SEC's MD&A rules gives rise to liability under Rule 10b-5; Responding to SEC

Housing and Finance in Developing Countries Kavita Datta, Gareth Jones, 2012-10-12. This book explores the linkages between formal and informal housing finance, drawing upon the lessons of NGO and micro-finance practices. Both public and private formal finance institutions have experienced great difficulty in lending below a middle-income client group and are often reluctant to lend for the purpose of housing at all. This failure of formal finance to filter down to low-income households, and in particular to women, has led various NGOs and community groups to create and adopt innovative finance programmes such as informal savings banks and credit rotating schemes. The authors critically assess the impact of these schemes and evaluate links between gender, housing, and finance.
